Deferred Motion 4871

Motion in the name of Councillor Jane Horgan Jones, Councillor Damian O'Farrell and Councillor Ciarán O'Moore

That this Area Committee agrees the following:

- That there is a need to upgrade the facilities in Marino Library to make it wheelchair and disability accessible.
- That these facilities are of particular importance in the Marino area where a lot of the residents are elderly
- That the funds required to facilitate this work would be in the region of €90,000 (reference: Q104 October Area Committee Meeting)
- That the City Council Budget 2014 makes €296,000 available to the North Central Area for discretionary purposes
- That to allocate €90,000 of these funds to a Marino Library Accessibility Project would still leave two thirds of the funding remaining for other projects or improvements in the area.
- That these funds should be allocated to this project when they become available.

Order: Defer to January/ February 2015 North Central Area Committee meeting ----

Dated 17th February 2015.

Report to the North Central Area Committee
16th March 2015

Re-development of Buttercup, Darndale.

The following is the position in relation to queries raised at the February North Central Area Committee:

The contractor Gowna Construction Ltd is still in the process of developing the work programme. However it is likely that houses 198 – 200 will be demolished first and that construction of eight new houses in that immediate area of the overall site will follow.

No site office has yet been set up. The contractor is considering a number of options.

The contract contains the following clause:

“Persons engaged upon the works should insofar as practicable and without affecting the efficiency of the work be recruited from the local offices of Fas to the extent that the total labour requirements of the contract exceed the contractor’s core workforce. In accordance with this requirement a local labour quota of 10% must be met requiring that unemployed local youth or local long term unemployed be employed subject to availability and competence.”

The contractor has confirmed that it is intended that a number of locals will be employed on the contract works.

No decision has yet been made in relation to provision of security. The contractor is considering a number of options.

The contract is being carried out under the standard contract for Works Designed by the Employer. Under this type of contract the City Council closely inspects and controls the construction.

Report to the North Central Area Committee
16th March 2015

Blackheath Park

Representatives from Drainage Division met with the Residents and Public Representatives on 3rd March at North Side Civic Centre. A full update was given by Drainage Division representatives on the investigations carried out and meetings held with the Hospital authorities, since the previous meeting.

Items discussed included the practicality of laying a pipe along Blackheath Park towards Vernon Avenue, the difficulties with the topography of the area, the possibility of constructing new gullies, and the need for residents to consider installing localised flood defence measures in their own properties.

It was also agreed that the Flood Defence Unit would continue discussions already initiated with the Hospital Authorities to utilise the swale adjacent to the hospital gates, to reduce run off out to Blackheath Park. A follow up meeting in approximately 6 weeks is planned to update the residents further. ‘

The following items for the North Central Area were considered by the Traffic Advisory Group at its meeting held on 24TH February 2015.

North Central March Agenda 16/03/15 (TAG Date: 24/02/15)											
Item	Request	Ref	Road	Post-code	Topic	Request Description	Request by	TAG Result	TAG Comments	Sec	Date Rec'd
1	Traffic Conditions	16126	ARDLEA ROAD (NC-EA)	D5	Traffic Calming	at the junction of Ardlea Road and Maryfield Drive.	resident	Not Recommended	Following investigation, traffic calming is not recommended at this junction for the following reasons: The measures available to combat speeding and rat running through Maryfield Drive are the provision of buildouts, a junction plateau or a left turn ban at peak hours. However as there are drainage gulleys on either side of this junction, it would prove too costly to provide buildouts and redirect drainage under the carriageway where there is no funding available for implementing such works. As Ardlea Road is on a bus and emergency services route to Beaumont Hospital, a junction table if provided would not be severe enough to significantly deter speeding. The provision of a left turn ban would cause access difficulties for local residents and redirect traffic into Maryfield Avenue & Crescent.	0	08/01/2015
2	Parking Prohibitions	14315	CHURCH AVENUE (NC-EA)	D9	Double Yellow Lines (Rescind)	on Church Avenue, adjacent to No. 72, Drumcondra Raod Upper.	resident	Not Recommended	The double yellow lines on the the western end of Church Ave have been provided as a measure to maintain access and traffic flow adjacent to the Cat & Cage Public House. Therefore the rescinding of these parking restrictions is not recommended.	0	25/09/2014
3	Parking Prohibitions	16683	CLONTARF PARK (NC-EA)	D3	Double Yellow Lines	Opposite 9 Clontarf Park.	cllr Haughey	Not Recommended	Double yellow lines are provided as a measure to maintain a through flow of traffic and to prevent congestion. Moreover, an entrance gate exists opposite no 9 Clontarf Park, and Under The Road Traffic (Traffic & Parking) Regulations, Section 36 paragraph(2) g; "A vehicle shall not be parked in any place, position or manner that will result in the vehicle obstructing an entrance or an exit for vehicles to or from a premises, save with the consent of the occupier of such premises;" It is not recommended to introduce parking restrictions where restrictions are already covered under the law, such as extending yellow lines across an entrance, as this would lead to a proliferation of same and additional expense due to maintenance etc. This request does not meet the criteria for the provision of double yellow lines and is therefore not recommended.	0	13/02/2015

4	Traffic Conditions	16567	CLONTARF ROAD (NC-EA)	D3	Yellow Box	Request for yellow box outside Clontarf Dublin Bus Garage.	dublin bus	Recommended	Following examination, a yellow box is recommended across Clontarf Road adjacent to the entrance to the Bus Depot, in order to alleviate some difficulties being experienced for buses exiting the Depot.	0	06/02/2015
5	Parking Prohibitions	14966	DUNREE PARK (NC-EA)	D5	Double Yellow Lines	on the road.	deputy McGrath	Not Recommended	Under The Road Traffic (Traffic & Parking) Regulations, Section 36 paragraph(2) g; "A vehicle shall not be parked in any place, position or manner that will result in the vehicle obstructing an entrance or an exit for vehicles to or from a premises, save with the consent of the occupier of such premises;" It is not recommended to introduce parking restrictions where restrictions are already covered under the law as this would lead to a proliferation of same and additional expense due to maintenance etc. Illegal parking may be referred to Dublin Street Parking Services Ph.6022500 for enforcement under the law.	0	30/10/2014
6	Traffic Conditions	14921	ELM MOUNT AVENUE (NC-EA)	D9	Traffic Calming	between Dromawling Road and Celtic Park Road.	cllr O Muiri	Not Recommended	Junction Tables have been provided on Elm Mount Avenue as a traffic calming measure to reduce speed and danger to pedestrians. These are located in the optimum position with regard to best design practice taking into account their position relative to the other junction Tables on the road and also maximising visibility under the lamp standards where possible. The provision of an additional ramp would not be appropriate as there would be insufficient spacing as required between the existing tables.	0	20/10/2014
7	Parking Prohibitions	15326	FAIRVIEW STRAND (NC-EA)	D3	Double Yellow Lines (Extend)	on the road.	cllr Ring	Not Recommended	A Clearway exists on this section of carriageway between 07.00hrs and 10.00 hrs Mon -Sat to facilitate traffic flow at morning peak. Therefore extending the double yellow lines is not recommended due to the existing parking restrictions. Infringements of the Act is being referred to Dublin Street Parking.	0	07/11/2014
8	Pedestrian Facilities	11848	GRATTAN LODGE (NC-EA)	D13	Pedestrian Build-Out	at the entrance to Grattan Lodge.	cllr Brabazon	Recommended	Following investigation in order to improve visibility for pedestrians and vehicular traffic exiting Grattan Lodge, it is recommended that a buildout be provided on either side of the entrance to Grattan Lodge.	2	16/04/2014

9	Parking Prohibitions	14904	GRIFFITH AVENUE (NC-EA)	D11	Double Yellow Lines	between Gracepark Road and Drumcondra Road (from the Holy Faith Girls School to Drumcondra Road).	cllr Heney	Not Recommended	Double yellow lines are provided to ensure the smooth flow of traffic and prevent congestion where parking causes congestion which would interfere with traffic flows on a daily basis. An inspection of the area was carried out on March 8th 2011. It was evident that traffic wishing to turn right at Griffith Avenue / Drumcondra Road was crossing the centre-line of the road on Griffith Avenue where cars were parked, causing a hazard for traffic travelling east on Griffith Avenue. Parking restrictions in this area would alleviate this hazard. As a preventitive measure, a single yellow line was provided on the south side of Griffith Avenue from the junction of Drumcondra Road to the Dominican College to remove parking during peak hours from 7am to 10am and 4pm to 7pm Monday to Friday (TAG 24/03/11). However providing further parking restrictions on this section of carriageway could pose difficulties for enforcement and redirect parking further into residential estates such as Beresford etc. Therefore double yellow lines are not recommended.	0	20/10/2014
10	Traffic Signs	14903	HAZEL LANE (NC-EA)	D3	Stop Sign	Request for a stop sign at the exit from Hazel Lane (laneway between the boundaries of No's 57/59 Kincora Road).	cllr Heney	Not Recommended	Hazel Lane ends at a T junction. Under the road traffic act, traffic on a road ending at a T- junction must give way to traffic from either direction on the other road. A stop/yield sign is not necessary where normal rules of the road apply, moreover such signs are only provided on approaches to major junctions, otherwise this would lead to a proliferation of signs throughout residential estates. Therefore this request is not recommended.	0	20/10/2014
11	Pedestrian Facilities	14042	HAZELWOOD DRIVE (NC-EA)	D5	Zebra Crossing	On Hazelwood Drive near the junction with the Kilmore Road.	cllr Gilliland	Not Recommended	Dublin City Council for the most part do not recommend Zebra crossings as they are generally not effective at changing driver behaviour and may provide a false sense of safety to pedestrians. Notwithstanding this a pedestrian crossing at this location is not recommended due to the proximity of the existing signals at the junctions on either side at Ardlea Road and Ardmore Drive.	0	15/09/2014
12	Traffic Conditions	14920	HOLLYBROOK ROAD (NC-EA)	D3	Traffic Calming	Reinstatement of Road following Water Main Project with suitable traffic calming measures.	cllr O'Farrell	Not Recommended	The Reinstatement of Hollybrook Road following the Water Main Project works has been repaired incorporating the existing ramps. These have been made good to a satisfactory standard. Therefore further traffic calming measures are not recommended.	0	20/10/2014

13	Pedestrian Facilities	13789	HOWTH ROAD (NC-EA)	D5	Pedestrian Crossing	Request to relocate the pedestrian crossing outside the bank to outside Supervalu.	cllr Heney	Not Recommended	The existing pedestrian crossing has been provided at the optimum location with regard to access to the shops and other amenities on either side of the Howth Road. The relocation of the pedestrian crossing would not be desirable or practical and is therefore not recommended. A crossing point(zebra) has been provided across the private access between the bank and Super Value to facilitate pedestrians.	0	01/09/2014
14	Traffic Conditions	14752	LAWRENCE GROVE (NC-EA)	D3	Speed Ramps	on the road.	deputy McGrath	Not Recommended	Following investigation, this location does not meet the warrant for the provision of traffic calming as the following criteria has not been complied with: <ul style="list-style-type: none"> • The road should have a straight run of at least 200m • The 85th percentile speed should be greater than 50 km/h • Traffic volumes should exceed 60 vehicles per hour • There should be genuine road safety concerns based either on actual accident statistics or on observed road safety patterns or written report from an Inspector of the Garda Traffic Division, Dublin Castle relating to an issue of safety. 	2	13/10/2014
15	Pedestrian Facilities	14636	MILLBROOK AVENUE (NC-EA)	D13	Pedestrian Crossing	at the junction of Millbrook Avenue / Millbrook Road.	deputy Bruton	Not Recommended	Following observations of the junction on 4/2/2015 it was noted that pedestrian volumes crossing at this location were low and would not meet the warrant for the provision of Pedestrian Signals.This junction has been examined previously with a similar conclusion. Therefore Pedestrian Signals are not recommended.	0	09/10/2014
16	Traffic Signals	7135	MILLBROOK ROAD (NC-EA)	D13	Traffic Lights	at junction of Millbrook Avenue.	cllr McDowell	Not Recommended	The provision of traffic lights at the junction of Millbrook Road/Millbrook Avenue was examined, however signals at this location would likely increase the volume of traffic using Millbrook Avenue due to rat-running coming from Ardara Avenue and Kilfinora Drive directions, in order to avoid the busy junction of Tonlegee Road/Grange Road. A review of this junction was previously carried out on June 14, 2011, it concluded that traffic volume particularly in the AM peak was due to vehicles trying to avoid main regional routes in the area. As it is not the policy to facilitate traffic travelling through residential areas trying to avoid main roads and junctions, the request for traffic signals at the junction of Millbrook Avenue and Millbrook Road is not recommended.	0	13/05/2013

17	Parking Prohibitions	15978	MOATFIELD ROAD (NC-EA)	D5	Double Yellow Lines (Rescind)	At entry to laneway between nos. 25-27	resident	Not Recommended	The double yellow lines were provided at this location in order to maintain clear access to the rear of the properties on Moatfield Road. Under The Road Traffic (Traffic & Parking) Regulations, Section 36 paragraph(2) g; "A vehicle shall not be parked in any place, position or manner that will result in the vehicle obstructing an entrance or an exit for vehicles to or from a premises, save with the consent of the occupier of such premises;" Regardless of these restrictions, the public carriageway is free to all & residents have no rights over others regarding parking outside their homes. Parking arrangements are usually based on common courtesy between neighbours, however disputes can arise when there is a deficit of on street parking due to multi vehicle households or intrusion from outside. It is not our policy to introduce parking restrictions where restrictions are already covered under the law or to rescind measures provided such as double yellow lines where persistent infractions occur. Therefore the removal of the double yellow lines is not recommended.	1	17/12/2014
18	School Warden	14433	MONTROSE PARK (NC-EA)	D5	School Warden	at St. Fiachra's N.S.	school	Not Recommended	Following inspection /examination of the site the provision of a School Warden is not recommended for the following reasons: (1) This is not a suitable location for the operation of a School Warden and children should be discouraged from crossing at this point. (2) Traffic calming measures have been carried out at this location and as a result cars are moving very slowly. (3) DCC employ 3 School Wardens serving this School with a fourth being employed by the School. (4) Safe routes to School and parking places for parents have been identified.	0	06/10/2014
19	Traffic Conditions	9187	MORROGH TERRACE (NC-EA)	D3	One-Way System	Request for one-way system on Morrogh Terrace, Marino.	cllr O' Farrell	Recommended	Following review it is proposed to take the consensus of the residents of Morrogh Terrace and seek the approval of An Garda Síochána and Fire Brigade for the measure.	1	21/10/2013

20	Parking Prohibitions	9229	MOUNT PROSPECT AVENUE (NC-EA)	D3	Double Yellow Lines	review at the junction of Seapark Road and Mount Prospect Avenue.	cllr O Muiri	Recommended	Following inspection visibility was found to be adequate regarding site lines on exiting Seapark Road. However it was noted that when vehicles were parked on the eastern side of this junction on Mount Prospect Avenue visibility was diminished. Therefore it is recommended that double yellow lines be provided on Mount Prospect Avenue, running eastwards from the junction of Seapark Road for a distance of 22m.	0	21/10/2013
21	Pedestrian Facilities	14641	OULTON ROAD (NC-EA)	D3	Pedestrian Crossing	At the junction of Oulton Road/Clontarf Road.	cllr Heney	Not Recommended	The Traffic Advisory Group at its meeting of 24th October, 2013, did not recommend a pedestrian crossing at the above referenced location as during an assessment carried out on 12th July, 2013, there was a low volume count of pedestrians crossing Clontarf Road at this location. The pedestrian volumes indicate that pedestrian signals are not warranted at this location. The Traffic Advisory Group, therefore, did not recommend a pedestrian crossing on Clontarf Road. Following further inspection no extenuating circumstances were found to overturn the previous recommendation.	0	15/10/2014
22	Traffic Conditions	14327	PINEBROOK ROAD (NC-EA)	D5	Traffic Calming	on the road.	deputy Flanagan	Not Recommended	Following investigation, this location does not meet the warrant for the provision of traffic calming as the following criteria has not been complied with: <ul style="list-style-type: none"> • The road should have a straight run of at least 200m. • The 85th percentile speed should be greater than 50 km/h. • Traffic volumes should exceed 60 vehicles per hour. • There should be genuine road safety concerns based either on actual accident statistics or on observed road safety patterns or written report from an Inspector of the Garda Traffic Division, Dublin Castle relating to an issue of safety. 	0	29/09/2014
23	Parking Prohibitions	14957	RICHMOND ROAD (NC-EA)	D9	Continuous White Line	up to Shelbourne Football Club.	deputy Flanagan	Not Recommended	Richmond Road has a narrow and varying carriageway width, with both residential and industrial zoning on either side throughout. Under The Road Traffic (Traffic & Parking) Regulations, Section 36 paragraph(2) d, It is illegal to park; "opposite a continuous white line" where roadway is less than 3 traffic lanes. A continuous white line would conflict with the existing parking capacity on Richmond Road and would be unenforceable due to the narrowness of some sections of the carriageway. Therefore this request is not recommended	0	29/10/2014

24	Traffic Conditions	11851	TEMPLE VIEW AVENUE (NC-EA)	D13	Roundabout	mini-roundabout at the entrance to Temple View Estate.	cllr Brabazon	Recommended	Following investigation a mini roundabout is recommended at the junction between Temple View Avenue and Elmfield Way in order to eliminate the confusion over junction priority. For inclusion on a future years works programme and subject to funding becoming available.	0	16/04/2014
25	Pedestrian Facilities	10277	THE HOLE IN THE WALL ROAD (NC-EA)	D13	Pedestrian Crossing	across the entrance to Grattan Lodge.	resident	Not Recommended	The provision of a pedestrian crossing at this junction is not recommended due to fact that the location and pedestrian numbers are insufficient to meet the warrant for the provision of same.	0	20/01/2014
