7 **Emergency Motions**

8 **June 2017 Motions**

**DUBLIN CITY COUNCIL**  
**SOUTH CENTRAL AREA COMMITTEE**  
**21<sup>st</sup> June 2017**

**523 Councillor Paul Hand**

In light of the current shortage of office space in the Dublin City Council area and the large amount of available office space in Park West, particularly Park West Plaza, that this Area Committee requests an IDA site visit to Park West to promote jobs and enterprise in the South-West Dublin City area.

**524 Councillor Vincent Jackson**

In view on the ongoing and systematic problems with parks in the South Central Area particularly Brickfields, The Lawns and Californian Hills Park, that Dublin City Council look into the possibility of developing a specific warden service for these parks and look at international best practice on how to respond to the serious problems we are encountering.

**525 Councillor Daithí Doolan**

That this Committee regrets any inconvenience caused to residents by recent developments and deliveries on Cherry Orchard's rapid build site. Dublin City Council will ensure this does not happen again and that there is regular communication with residents informing them ahead of time of any further developments.

**526 Councillor Criona Ni Dhalaigh**

That this Area Committee believes that it is not in the interest of good planning or community cohesion to permit an over-concentration of student and hotel accommodation in any one area of the city, especially not one as old and historic as Dublin 8 area with an existing housing crisis. We therefore note with concern the burgeoning construction or planned construction of student accommodation as follows: 380 in Mill Street, 308 Brown Street, and Brickfield Lane, 400 in New Market, 471 in the Thomas Street Binary Hub, and so many which received planning permission already.

We also therefore note with concern the planned construction of 1300 hotel and AirBnB accommodation as follows, Aloft - Blackpitts - 200+ rooms, Maldon- Kevin street/Clanbrasil Street - 137 rooms, Hotel beside Fallons - Sheraton - 257 rooms, Tivoli redevelopment - 298 units, Mother Redcaps and Iveagh Market redevelopment - 97 rooms + 79 apart units, Charlemont Hilton are apparently adding extra floors – (tbc), Clayton Hotel beside the barge - 181 rooms. We further believe that a moratorium on anymore student, guesthouse, hotel, AirBnB, planning permissions for Dublin 8 be agreed until a full assessment of the impact of these 1,159 expensive student accommodation units and 1300 additional tourist accommodation on the local host community is carried over the next 5 years.

**527 Councillor Paul Hand**

That this Area Committee requests that the old Unilever site on Davitt Road be used for the purposes of public housing and community facilities.

To this end we request that this motion be forwarded to the Minister for Housing and Local Government to purchase the site on behalf of Dublin City Council for this purpose from the HSE, pending the completion of the new National Children's Hospital.

**528 Councillor Daithí Doolan**

This Area Committee recognises the Orchard Centre as a vital resource in Cherry Orchard and we congratulate the staff for the service it provides. We call on Dublin City Council to put in place a plan to resource it and to make it more accessible to community groups, residents and services.

**Standing Orders was suspended to deal with the following Emergency Motion:**

**Emergency Motion from Councillor Michael Mullooly**

In view of the fact that some local residents have found out that Dublin City Council intend to locate Homeless Emergency Accommodation for up to 30 families at a facility at 390 Clonard Road, this Area Committee calls on Dublin City Council as a matter of urgency to provide full and detailed information to local residents and local councillors on this facility, the works that need to be carried out, the conditions attaching to these works and the conditions that will apply to this facility when it is operational, to allay fears locally'

**Order: Agreed**

- 8 **May 2017 Motions**

**510 Councillor Daithí de Róiste**

The tragic accident that resulted in the loss of R116 touched each and every one of us. As a society we take those who work in our frontline emergency services and the daily danger they place themselves in for granted. Paul Ormsby, a Ballyfermot man, was one of those lost on that fateful night. To that end, this Area Committee calls for the renaming and dedicating of the park on Oranmore Road to his memory and that of the crew of R116 and looks for a significant memorial and plaque to be erected to mark their ultimate sacrifice.

**Order: Agreed in principal. To be revisited at a later stage with consideration given to the erection of a plaque.**

**511 Councillor Criona Ni Dhalaigh**

That this Area Committee request that a traffic audit be carried out in the Tenters' area. The audit to include how best to address the non resident parking, consideration of residents only parking, one way system on the

narrow streets and parking enforcement to address dangerous parking. Residents are extremely frustrated at the huge increase in all day parking in their area plus the added factor of workers from all the local building sites parking there as well.

**Order: Report to Councillor.**

**512 Councillor Rebecca Moynihan,**

This Area Committee ask that the Area Manager writes to the tour operators who use Teeling's Distillery in Newmarket, asking that they refrain from using their PA system while in residential areas or stopped at the traffic lights.

**Order: Report to Councillor.**

**513 Councillor Pat Dunne**

This Area Committee requests the Area Manager to arrange with our Traffic Management Section to undertake a traffic and environmental audit of issues relating to on street parking and overall traffic management in the Tenter's area of Dublin 8. The lack of parking spaces for residents is a major issue since the beginning of construction projects in the immediate surrounding area.

**Order: Report to Councillor.**

**514 Councillor Daithí Doolan**

This Area Committee, protocol permitting, will dedicate the green at Spiddal Road & Oranmore Road in memory of local resident Paul Ormsby, who was tragically lost during the recent rescue operation off Galway.

**Order: Agreed in principal. To be revisited at a later stage with consideration given to the erection of a plaque.**

**515 Councillor Vincent Jackson**

That Dublin City Council starts to take some responsibility for the horrific ongoing behaviour at the Californian Hills Park, Ballyfermot. A couple of years ago and dozens of questions later I can see our failure to properly manage the dumping, horses, and anti-social behaviour is turning this beautiful area into a no-go area. Drumfinn Celtic have said it is no longer feasible to bring children onto a site full of glass, rubbish, cars spoiling the area. At the recent meeting of the Ballyfermot Policing forum, serious concerns from neighbours took up a large portion of the meeting looking for answers of what Dublin City Council and An Garda Síochána are going to do to sort the issues out. I am aware of neighbours who are terrified to approach youths for fear to their homes. Why have we allowed this behaviour to take root and what are we going to do to address same? Losing the soccer, walkers from the park is a disaster.

**Order: Agreed**

**516 Councillor Paul Hand**

That the South Central Area Committee requests that the Dublin City Council mobile library service expands its service to Chapelizod. Chapelizod is a village associated with writers such as James Joyce and Sheridan Le Fanu and has no library service. In examining this motion I would request that locations all around Chapelizod be considered for providing this service, such as the coach bus car park of the West County Hotel and any other suitable locations.

**Order: Report to Councillor.**

**517 Councillor Criona Ni Dhalaigh**

That this Area Committee request that Dublin City Council consider

changing the parking bye laws with a view to allowing residents only parking in area's of high all day parking by non residents and in area's where a lot of development is taking place resulting in site workers parking all day.

**Order: Report to Councillor.**

**518 Councillor Pat Dunne**

This Area Committee notes with concern that as a result of the withdrawal of our area office funding to the local registered charity WALK, that a number of older persons with mobility issues have no access to a gardening service. We therefore call on the Area Manager to immediately resolve this problem so as to return the service to those who had it in previous years.

**Order: Agreed. Report to Councillor.**

**519 Councillors Daithí Doolan and Paul Hand**

The Area Committee supports the request by the Ballyfermot Policing Forum for an urgent meeting with the Garda Commissioner and Minister Fitzgerald to address the lack of adequate Garda resources in Ballyfermot and the urgent need to increase the allocation of Gardaí to this Station and explore ways of ensuring increased Garda engagement and visibility with the people of Ballyfermot, Cherry Orchard, Chapelizod and Palmerstown.

**Order: Agreed. Agreed to write to the Minister for Justice and the Garda Commissioner.**

**520 Councillor Vincent Jackson**

This Area Committee requests that Dublin City Council look at the ongoing traffic congestion at the Ballyfermot Primary Health Care Centre since the traffic lights were installed. Allowing traffic to turn right into Cherry Orchard Industrial Estate results in all the traffic backing up behind same as the traffic continuing up Ballyfermot Road cannot proceed as the roadway is too narrow. A simple solution is ban right hand turn, thus allowing traffic proceed and allow turning right approx. 50 Mt up on Ballyfermot, thus allowing access to Cherry Orchard Ind. Est.

**Order: Report to Councillor.**

**521 Councillor Paul Hand**

That the South Central Area Committee requests that Our Lady's Hospital for sick children stop charging patients for the use of car parks on site. It is morally reprehensible to profit from another person's misfortune and I hope that this practice stops as soon as possible.

**Order: The Members agreed the Chairperson would write to the Minister for Health.**

**522 Councillor Vincent Jackson**

This Area Committee requests clarity on the following: - in relation to the arrival of pay by weight by various waste collectors, can Dublin City Council please indicate what proposal they have, if any, to deal with the anticipated rise in fly tipping in our communities? I cannot see how this system is better for the environment. The simple issue we need to have manufactures, suppliers reduce the volume of packaging, introduce deposit return scheme for bottles, cans etc. Re-Pak has done nothing to help reduce this chain of the waste stream which results in the destruction of so much of our parks, beaches etc. In my community on any given day I could collect 100 soft drink cans / bottles. This is an indication we need pro-active responses to reduce the stream of waste on our streets.

**Order: Report to Councillor.**

1	27676	Traffic Conditions	CLIFDEN ROAD (SC-EA)	D10	Traffic Calming	at the junction of Clifden Road and Blackditch Road.	cllr Doolan	Not Recommended	Both Clifden Road and Blackditch Road are already traffic calmed and the introduction of more measures at the junction would not be warranted. This junction has a stop sign and road markings on Blackditch Road and any motorists not obeying the signs would need to be dealt with by an garda siochana as it would be an enforcement issue	0	18/11/2015
2	27993	Traffic Conditions	CREMONA ROAD (SC-EA)	D10	Speed Ramps	on the road.	deputy Conaghan	Not Recommended	The Area Engineer has noted that this road is already being traffic calmed with 7 ramps at present. No further calming measures required.	0	19/11/2015
3	28792	Parking Prohibitions	DOLPHIN ROAD (SC-EA)	D8	Double Yellow Lines	at both ends of the green and along canal.	cllr Dunne	Not Recommended	During several site visits it was noted double yellow lines weren't warranted as there was no evidence of cars obstructing the junction. Any cars parking on a corner would be in breach of the law as it is illegal to park within 5 metres of a junction. Residents should report illegal parking to the Gardai or to Dublin Street Parking Services tel no. 6022500 if they see this happen again.	0	20/01/2016
4	37054	Parking Prohibitions	DOLPHIN ROAD (SC-EA)	D12	Double Yellow Lines	on the east and west corners of the green.	resident	Not Recommended	During several site visits it was noted by the area engineer that DYL weren't warranted as they could see no evidence of cars obstructing the junction. Any cars parking on a corner would be in breach of the law as it is illegal to park within 5 metres of a junction. Residents should report illegal parking to the Gardai or to Dublin Street Parking Services tel no. 6022500 if they see this happen again.	0	15/03/2017
5	37910	Traffic Conditions	DOLPHIN ROAD (SC-EA)	D10	Speed Ramps	request for speed ramps	resident	Not Recommended	The area engineer has noted that Dolphins road doesn't meet the criteria for speed ramps as it doesn't have a straight road of more than 200m.	0	08/05/2017
6	20464	Parking Prohibitions	DOLPHINS BARN (SC-EA)	D8	Double Yellow Lines	at 17 terminus stops 1367 and 1380 on both sides of Bus Bays.	dublin bus	Recommended	Recommended Stat 1 -The area engineer has recommended that DYL be installed on the north side of South Circular Road (near St Anthony's Road) starting at LS62 stretching for 9m in an easterly direction to meet with the bus cage for bus stop 1380. Stat 2 -The area engineer has recommended that DYL be installed on the south side of South Circular Road (near St Anthony's Road). Starting at a point 10.5m East of LS62 stretching for 16.5m in an westerly direction to meet up with the bus cage of bus stop 1367.	0	29/09/2015
7	37122	Traffic Signs	HARCOURT LODGE (SC-EA)	D8	Children Crossing Sign	at the entrance to Harcourt Lodge.	deputy Byrne	Not Recommended	Children crossing signs are only erected at the entrances to residential estates from main traffic routes and not generally provided on cul de sac roads, as they are shown to be ineffective at reducing speeds. It is therefore not recommended to install a Children crossing sign at Harcourt Lodge.	0	20/03/2017
8	20625	Traffic Conditions	HERBERTON ROAD (SC-EA)	D8	Traffic Calming	on the road between Rialto roundabout and Herberton Bridge.	cllr McVeigh	Not Recommended	Herberton road is a major arterial link route to & from the City, and to one of the largest hospitals in the country. This road serves emergency services & bus routes. Traffic calming is not appropriate for such roads, therefore the provision of traffic calming is not recommended.	0	21/10/2015
9	21102	Parking Prohibitions	KEEPER ROAD (SC-EA)	D12	Double Yellow Lines	on the laneway from Keeper Road up to the entrance to Drimmagh Boxing Club.	dcc Public Domain	Recommended	On the west side of lane way Install DYL's starting from a point 9m south of LS6 to a point 34.5m north of LS6 . Total distance should be 43.5m On the East side of the lane way Install DYL's starting from a point 11.5m south of LS6 to a point 29m north of LS6 totalling 40.5m	0	27/10/2015
10	34266	Traffic Signals	KIMMAGE ROAD LOWER (SC-EA)	D12	Right Turn Filter Light	from Kimmage Road Lower onto Ravensdale Park.	resident	Not Recommended	Dublin City Council makes every effort to ensure that all road users are accommodated within the phasing and sequencing of traffic signals. The traffic movements and traffic signal sequences at this junction have been evaluated. The installation of a right turn filter signal cannot be proceeded with as any such filter would necessitate reduction in overall green signal time given to general traffic and, most importantly, Public Transport travelling along Kimmage Road Lower. However the junction will continue to be monitored for opportunities to improve traffic movement and road user safety.	0	04/10/2016

11	36997	Pedestrian Facilities	RAVENSDALE PARK (SC-EA)	D12	Zebra Crossing	at the junction Ravensdale Park, Ravensdale Drive and Poddle Park.	resident	Not Recommended	Dublin City Council for the most part do not recommend Zebra crossings as they are generally not effective at changing driver behaviour and may provide a false sense of safety to pedestrians. A pedestrian does not have the right-of-way until they actually step onto a zebra crossing. Furthermore as a result of observations and representations to the Environment and Transportation Department, this type of crossing has been phased out. Zebra crossings give priority to pedestrians but do not actively slow down vehicles; they may induce unsafe behaviour from both driver and pedestrian. The issue of safety is more critical for the visually impaired and the NCBI have found Zebra crossings undesirable from their point of view. In addition compliance with the law regarding this type of crossing is very difficult to enforce unless offending motorists are caught in the act. Zebra crossings rely on drivers to give way to pedestrians stepping onto a crossing which result in faster crossing times for pedestrians and less delay for traffic. The engineer will look into the possibility of introducing a pedestrian crossing at the junction of Ravensdale Park and Kimmage Road lower.	0	13/03/2017
12	33352	Traffic Conditions	ROTHER ABBEY (SC-EA)	D8	Traffic Calming	Caution Children sign or other measures for traffic calming	resident	Not Recommended	This area is within the new speed limits set by Dublin City Council for residential areas within the boundaries of the canals. As part of the new limits, "Speed limit" signs are erected at all points where there is a change to the speed limit. Incorporated into these new signs is a "Home Zone" and "Slow Zone" sign along with the speed limit. This is to warn motorists that its a residential area and to expect children.	0	22/08/2016
13	36783	Parking Prohibitions	SAINT FRANCIS SQUARE (SC-EA)	D8	Pay & Display Parking (change of hours)	Change hours to Monday-Sunday 7.00-24.00.	resident	Recommended	Extended operational hours (Mon - Sun , 07.00 - 24.00) proposed subject to ballot of residents indicating a majority of residents in favour.	2	02/03/2017
14	37043	Parking Prohibitions	UPPER CROSS ROAD (SC-EA)	D8	Double Yellow Lines	at junction of Upper Cross Road and New Ireland Road.	cllr Mullooly	Recommended	It is recommended that DYs are installed on special grounds. Stat 1: Install DYs on the western corner of Upper Cross Road ,starting from a point 17m north of LS7 moving in a northerly direction to 8m around the corner on New Ireland Road Stat 2:Install DYs on the Eastern corner of Upper Cross Road ,starting from a point 17m north of LS7 moving in a northerly direction to 8m around the corner on New Ireland Road. (see full report).	0	21/02/2017
15	31735	Parking Prohibitions	WALKINSTOWN GREEN (SC-EA)	D15	Double Yellow Lines	at the shops near the park. roundabout	deputy O' Snodaigh	Not Recommended	The Engineer has noted that the carriageway at Walkinstown green was measured at 6.5m wide. This is within the guideline for double sided parking. Although commuter parking may be an inconvenience to local residents it does not constitute the need for unnecessary parking restrictions such as yellow lines. This should be wide enough for a bus to pass.	0	02/06/2016

**Q1 Councillor Tina MacVeigh**

To ask our Area Housing Manager for a full report on number 103 Lismore Road, whether and when the building was purchased by DCC and if it is owned by DCC when it is expected that refurbishment works will take place.

The acquisition transaction was closed 26<sup>th</sup> January 2017 (i.e. legal title was acquired on that date). Housing Maintenance received the keys on 30<sup>th</sup> January 2017.

**Reply**

Upon receipt of keys, an inspection was carried out to ascertain what repairs were necessary to bring the unit up to let-able standards. Various checks were also authorised and carried out in the intermediate period e.g. plumbing, electrics, asbestos etc prior to a task order being issued to a contractor on 24.2.17. Refurbishment works are ongoing and this unit is expected to become available for letting by mid May.

**Q3 Councillor Tina MacVeigh**

To ask the Area Manager to have the relevant Department prune the trees at our Mary Aikenhead flat complex and also to remove one of the trees that residents believe has died and are concerned presents a risk as it may collapse.

**Reply**

Pruning of the trees that run parallel to the Luas track on James Street work can only be done from inside the perimeter fence so as to avoid coming into contact with overhead cables. One of the trees on this side of the complex may have to be removed as it is showing signs of decay. A private contractor will be engaged to carry out this work and an appropriate traffic management plan will need to be put in place to ensure the safety of other road users and pedestrians.

Trees blocking light in blocks E and F can be safely removed by our Mobile Unit over the next few weeks.

**Reply**

To ask the Area Manager to ask the Parks Department to remove the tree outside (*details supplied*) which is borderline about to topple over and also the roots are lifting the pavement in front of the houses. Residents are concerned they are going under the house and about to cause a lot of damage. The neighbours in (*details supplied*) are supportive of this. To further ask that the curbstone here is fixed as it is coming away from the pavement around the tree, as a result of the roots expanding.

**Reply**

This is primarily a matter for the Parks Department. When the tree has been removed the Parks Department must contact Road Maintenance to repair any defect caused by this action to the surrounding footway and carriageway.

To ask the Area Manager to arrange for an extension or arrange a transfer to a 3 bedroom house (*details supplied*.) This lady was promised an extension many years ago as she is living in a 2 bedroom house with 4 sons, One who is a 19 year old now with Special needs.

**Reply**

This tenant applied for an extension on ground of overcrowding. Over the past number of years we have not been in a position to provide extensions on grounds of overcrowding. Due to the demand for extensions and adaptations for those with an urgent medical need, our funding and resources were directed at such cases.

The current waiting list for those applicants on the waiting list for extensions due to overcrowding is currently being examined to ascertain the number of applications that still qualify for inclusion on the list. It is expected that review will be completed in the coming weeks.

An application has been made on overcrowding grounds by this tenant however, it is estimated that there are approximately over 100 other cases ahead of this tenant on our waiting list and to uphold fairness, those cases, if funding is available, will be dealt with first.

**Q11 Councillor Críona Ní Dhálaigh**

To ask the Area Manager is he aware of the further increase in all day parking in the areas around St. James' Hospital since the enabling works commenced on the new Children's Hospital. Residents are extremely frustrated and concerned as the parking at times is dangerous and makes it difficult to exit/enter their streets. What can be done to address this?

**Reply**

It is Dublin City Council's understanding that the Mobility Manager in St. James's Hospital has held various meetings with the residents of the area advising them of the issues relating to parking and the procedures regarding seeking residential parking schemes and further meetings and information sessions were arranged following the appointment of a contractor for the enabling works. Members of the Mobility Management Plan steering group continue to meet with Residents at public meetings to work closely with these to address their concerns.

Provided vehicles are parked legally, e.g. not on double yellow lines, within 5 metres of junctions or blocking driveway access there is no action that can be taken with regard to parking.

Dublin City Council can proceed with the preparation of a Pay and Display and Permit Parking Scheme and subsequent ballot of residents where there is a demonstrable and clear desire in favour of a Scheme. This may take the form of a number of written requests or a signed petition from the residents of the roads concerned.

In the meantime Dublin City Council's parking enforcement contractor, Dublin Street Parking Services, have been instructed to monitor the area and to take enforcement action where necessary for offences such as those indicated above.

To ask the Area Manager, to ask that the leak in the bathroom at (*details supplied*) be repaired as soon as possible. The tenant moved in and agreed to carry out works herself which she did, but unfortunately the bathroom now has a leak which needs to be addressed but council refuse to do this, as the tenant installed the bathroom suite

herself. There are 2 special needs children in this dwelling (house was allocated on priority due to their condition).

**Reply**

The Area maintenance Officer reports that this dwelling was not allocated on the agreement that the tenant install a new bathroom suite herself as allocations are not made on those conditions. Unfortunately where tenants install bathroom suites/kitchens or other fittings the responsibility for maintaining and repairing same lies with the tenant. Housing maintenance are not in a position to take on this responsibility.

Any works carried out should be by qualified person.

To ask the Area Manager how much did the event Culture Date with Dublin 8 cost and are there plans to continue with this event and expand it in to other areas?

**Reply**

Culture Date with Dublin 8 is a new neighbourhood initiative which took place for the first time on Saturday 13th and Sunday 14th May 2017. The project aimed to celebrate Dublin 8's rich cultural and historical heritage while encouraging people who live and work in the area to explore what is on their doorstep. The weekend saw a series of special events and activities taking place amongst leading institutions in the Kilmainham and Inchicore area such as Richmond Barracks, Goldenbridge Cemetery, Kilmainham Gaol, the Irish National War Memorial Gardens, The Magazine Fort in the Phoenix Park, and IMMA - Irish Museum of Modern Art.

These institutions offered local communities and visitors a chance to take a deeper look at what they have to offer and the stories they have to uncover. The weekend highlights included bespoke tours of Kilmainham Gaol, guided tours and family activities in IMMA, a new exhibition launch at Richmond Barracks and the re-opening of Goldenbridge Cemetery, which has been closed for almost 150 years. There was

walking guided tours throughout the weekend by Pat Liddy who showcased the stunning architecture around the neighbourhood, bringing its history to life.

All events were free to the public over the weekend but some required ticket booking. We advised visitors to book tickets early to avoid disappointment as they were allocated on a first come, first served basis. There was something for all age groups and interests over the weekend, and we hoped that this project connected people to their heritage, while inspiring them with pride in their local area.

This event was an initiative driven by Dublin City Council South Central Area Office, Fáilte Ireland, The Office of Public Works, Glasnevin Trust, IMMA - Irish Museum of Modern Art, and Richmond Barracks. The City Council is contributing a sum of €4,000 towards the event. No decision has yet been taken to hold or expand this event in 2018. Any future decision to proceed with this event will be dependent on the support and involvement of the major Dublin 8 cultural institutions.

To ask the Area Manager for the contact details for all staff in the Crumlin Area Office and additionally I request that the Manager gives me and all Councillors assurance that the office will remain open to the public on an ongoing basis.

**Reply**

The contact details for staff in Crumlin are as follows:

Main office /administration: 222 5500

Housing Manager: 222 5512

The Office fulfils a number of functions. The Housing Management function and sheltered housing function, and the associated welfare service are provided from the office as a base. The Community Development function uses the meeting and office facilities. The Public Counter supported by the administration function deals with the Public attending the office.

It is not within my power to give any assurance that the public counter will remain open to the public on an ongoing basis. Decisions on the allocation of resources and staff are made periodically in the light of service provision needs and resource/staff availability. In respect of the Public Counter as long as there is identified and viable need and demand, and staff to service this, the public counter will not close. We will assess and monitor the public usage of this office periodically.

In line, however, with my consistent position the necessity to staff and provide “on the ground” services in Public Realm and in Community Development will remain my primary resource focus. It is more productive to have staff out engaging citizens, community and issues, than in an office waiting on callers. Furthermore it should be noted that the workload of administrative staff relates to internal administration as well as to the administration of service requests or interaction with the public. It is my intention to rationalise the internal administration workload rather than spread it over the three offices. In this respect we can help secure the staffing in Crumlin by ensuring a fair and rational distribution of this type of workload.

To ask the Area Manager is there an update on repairing the damage to the CCTV installation on Cherry Orchard Avenue and who will fund this work taking place.

**Reply**

On 17<sup>th</sup> April a stolen articulated truck damaged the CCTV pole in Cherry Orchard causing the cameras to lose their functionality. The pole was removed for health and safety reasons and the damaged cameras retrieved for assessment. A quote has been received for the reinstatement of the pole with substantial ground works and the replacement of the cameras. A second quote is awaited after which it will be decided how best to proceed with the installation of the CCTV pole with additional security to safeguard the site.

**Q50 Councillor Vincent Jackson**

To ask the Area Manager to look at the issues which arise for single homeless persons living in hostels, sheltered accommodation etc. across Dublin. I am aware of people waiting years without any offers ever being made available. With the new procedure of not allowing elected councillors see what people were allocated on what points is making our role as elected councillors impossible to do our job.

**Reply**

Allocations are made to applicants with homeless priority in order of the time on the list and conditions of the scheme of letting priorities. Owing to the availability of Dublin City Council social rental stock it can take a considerable period before applicants are reached in terms of an offer of accommodation.

Legal advice is that, under the provisions of the data protection legislation, a data processor is not permitted to disclose personal information about an individual if

he/she could be identified from that information. Therefore, it is not possible to release detailed information regarding the allocations done by Dublin City Council.

However elected members may request information in relation to individual applicants and their place on the allocations list in the relevant area with the consent of the applicant.

Can the Area Manager ask our Parks Section to take action to stop the illegal practice of all types of motorbikes accessing Brickfield Park. The installation of a swing barrier or other similar device particularly at the Benbulbin Gate could be the solution to this problem.

This issue will be discussed with local residents at the next meeting of the "Friends of Brickfield Park".

Can the Area Manager ask our Housing Maintenance Section and or Parks Section to remove the over grown trees in our tenants house (*details supplied*). These trees are causing a blockage of sunlight for neighbours and our tenant does not have the resources to deal with the issue.

**Reply**

The responsibility for maintaining gardens, including trees lies with the tenant. Housing Maintenance are not in a position to take on this responsibility, therefore this tree will not be removed currently. The Area Office will make contact with the tenant.

Five x 3 tiered planters have been ordered for Crumlin Village and are due to be delivered at the beginning of June. This is considered to be optimum time for the installation of planters in order to protect the flowers from any early morning frost.

**Q56 Councillor Pat Dunne**

Can the Area Manager help resolve the issue of illegal and persistent dumping at the following location. It's an old laneway that runs from Dolphins Barn to James Walk between Reuben Street and Maryland. The dumping is a consequence of both locals dumping, but commercial also based on information received, and the sheer scale of the dumping on the site. Can the site be cleared of rubbish and prevention measures be introduced.

**Reply**

The area known as the "Back of the Pipes" refers to a substantial laneway that runs from Reuben Street\Dolphin's Barn at one end to St. James's Walk\Grand Canal Basin at the other. Various segments of the laneway have been closed over the years with the last remaining segment being closed in September 2001.

Sections of the laneway have had to be cleaned on a recurring basis and in particular in 2005 the Council's Housing Department carried out a major cleanout of the section of laneway which is the source of the current complaint at a cost of €50,000 approximately. The current dumping is substantial and photographs show that most of it would appear to be household refuse. Further the location of the dumping seems to indicate that this dumping has to be coming from the residences adjoining the laneway of Lourdes Road, Mallin Avenue and McCarthy's Terrace.

The scale of the dumping is such that it will require the use of a JCB to clear it and at the moment this is not feasible as there is no access for same. The Council's Property Management Section is working with the Area Office to try and resolve this issue and to try to come to a long term arrangement regarding the future of the laneway so that this issue does not arise again.
