Cabra Area Office Report

Ashington Mews

The Area Office has been liaising with residents regarding complaints of anti-social behaviour coming from the area of the Ratoath Flyover. Irish Rail is engaging a contractor to remove graffiti from the bridge and the grassed area is now being maintained by DCC Parks Division. There has been a long standing issue with a horse being kept in one section and Parks are endeavouring to have it removed by the Control of Horses Section.

Broome Lodge

The opening of Broome Lodge is now scheduled for 4th October. This allows some extra time for completion of works as delays have been caused by staff leaving.

Cabra Road and Park

The Administrative Officer (AO), Cabra Area Office and the Public Domain Officer met with residents' representatives to discuss their ongoing concerns regarding the maintenance of the area from a waste management perspective. An agreement was reached regarding a modus operandi for reporting and responding to issues. Cabra Road has experienced considerable disruption due to LUAS works but these have now largely been completed. It also suffers from a high level of rental properties and subsequent issue with bins. A concerted campaign involving letter drops, monitoring and litter warden visits is being undertaken to address the situation.

Shared Services Proposal for Cabra Office

A draft design brief has been prepared by the City Architect's Division and issued to three architectural firms. Subject to agreement on design and overall costs, it is hoped that construction can begin by early New Year.

Mount Bernard Playground Extension

The children's playground has now opened. The facility is working well and is extremely busy with parents and children enjoying the space. The post installation inspection shows the site is safe and fit for purpose apart from some minor remedial works which have now been completed. The Parks Department continues to monitor the site and have arranged to have a further and final safety inspection in the next week.

As a natural play area, this type of facility focuses on play opportunities provided by nature where children can play 'in and with' natural elements.

Proposed Park Extension into TII lands

DCC Parks Superintendent and the Area Office AO met with Transport Infrastructure Ireland (TII) and both parties agreed to do some due diligence in relation to any potential land transfer. The issues are:

- Clarification that TII do not have any strategic need to retain the lands into the future;
- that there are no potential hazards to the public in DCC taking in charge of the lands and developing it for public use/access;
- that there are no significant costs to be incurred by DCC in taking in charge these lands.

A further meeting will be arranged with TII to progress the matter.

Planters

Over the summer our Community and Public Domain teams have been working with residents to enhance their areas with additional planting and with placing planters in strategic locations.

Road Improvements

A substantial resurfacing of Connaught Street and Dowth Avenue were undertaken over the summer bringing much needed improvements. Ashtown Grove also benefited from upgrading of the road surface.

The Blackhorse Avenue project is scheduled for completion before the end of the year. Work on the Cabra Gate to Springfield Road will be substantially completed by the end of November. Any necessary snagging will be addressed in December.

Shandon Gardens

A contractor has been engaged to undertake repairs to the boundary wall that separates Shandon Gardens from the canal bank.

Community & Social Development

Summer Projects

Riverston Abbey, Annamoe and 'Sharing the Journey', which is for children with hearing difficulties and their siblings, were a great success. Other camps and activities in John Paul Park, Ventry Park and St Finbarr's G.A.A. Club were also enjoyed and well attended.

Festivals

St Finbarr's Festival ran for a week in August with lots of activities for all sections of the Community. It was organised and supported by a large group of enthusiastic volunteers. All activities attracted large numbers of attendees.

Community Fun Days

Residents Groups: C.A.S.S., Glenbeigh, Drumcliffe, Royal Canal Park and Regal Park held family fun days and availed of gazebos, tables, bunting and play equipment made available by the Community Development Team and the Area Office.

Leinster Street hosted an evening to celebrate the life and times of "Bang Bang" the legendary character well known in the City. His real name was Thomas Dudley. He hopped on and off buses with a large key which he used as a gun, under the illusion, that he was a cowboy on a stage coach protecting passengers from Indians. He died in 1981 and was buried in a mass grave in Drumcondra. The Community Group raised the money to erect a plaque in his memory and held the event outside the Bang Bang Café on Leinster Street,

which is named after him. An actor performed a monologue from an original No10 Bus which he frequently used. There was Dublin coddle and traditional music for the people who turned out on the night.

The NWA City Neighbourhood Awards presentation took place on the 7th September in Ballymun, attended by groups from Cabra, Phibsborough, Finglas and Ballymun. The winners go forward to the Citywide Competition. The overall results will be announced at the Awards Ceremony in Croke Park on 21st September.

The garden in Christ the King Day Centre was officially opened on the 24th August. The project was funded by Dublin City Council. There was a large crowd in attendance and music and refreshments were provided for the celebration. There is a large elderly population in Cabra and this new entrance and recreational space is very welcome by the community, clubs and groups who attend there.

FINGLAS AREA OFFICE REPORT

Update on Kildonan Lands Project

Following public consultation the Lands Framework Study has been completed by Brady Shipman Brady. A summary report has been circulated to members. Pauline Byrne, Partner, BSM will be present at the September meeting of the NWAC to respond to comments from members.

Next Steps

At the July Meeting Councillors requested that a report is presented to the monthly Area Committee meetings outlining progress made in attempting to relocate the Abigail Centre.

The Kildonan site was transferred to Dublin City Council from the OPW for the provision of a day and residential service to meet the needs of vulnerable women with histories of homelessness.

Now that the Site Framework Study has been completed the next step is to establish how the existing service can continue and that the City Council has satisfied the terms of the agreement for the transfer of the lands from the OPW.

The Housing Department has informed our office that they will consider including the lands in the Social Housing Programme when the requirements for the continuation of the service have been determined by the DRHE.

The next Meeting of the group chaired by Rita Burtenshaw, the Independent Facilitator, is scheduled for 4.30 pm on the 21st September.

Brendan Kenny, Assistant Chief Executive, will attend a meeting with the WFTRA Committee and public representatives in the Finglas Area Office at 4 pm on the 27th September.

Community & Social Development

Environmental Workshops:

The Community and Social Development Section worked with Global Action Plan (GAP) on a number of "Greening Neighbourhood Projects" this summer. It is hoped that this collaborative project would benefit groups and give them a better understanding of sustainable and bio diversity planting. The first enhancement project took place in Barry Park in July. An area in the park was planted by residents under the supervision of GAP Ballymun. The second workshop took place in August with the Finglas Tidy Towns Group. The group identified an area at the back of St. Canice's GNS which they wanted to enhance. With the support of Dublin City Council and GAP the Area Enhancement Project was completed in August. It is hoped to build on this successful initiative in 2018.

This year there were six voluntary and one non voluntary summer projects in Finglas. The Finglas Summer projects cater for approximately 700 children. Dublin City Council supported the projects with grant assistance as well as providing summer students to the projects. Traveller Accommodation Unit
Housing and Community Services
Block 2, Floor 2, Civic Offices

Meeting: 19th September 2017

Item No: 6

**Report on the Part VIII for the proposed rebuilding of a house at 8 Avila Park,
Cappagh Road, Finglas, Dublin 11.**

The Traveller Accommodation Unit lodged a Part VIII planning application concerning the proposed rebuilding of a house. The subject site, no. 8 Avila Park, is located within the Avila Park traveller accommodation site at the end of a cul-de-sac on the western side of Avila Park. The previous house on the site suffered substantial fire damage in 2009 and the site currently comprises the substructure and floor slab of the previous house, boundary walls, landscaping and services. Temporary accommodation is provided on site for the previous occupants.

The development, on behalf Dublin City Council, Housing & Community Services, Traveller Accommodation Unit is to rebuild a single storey 3-bedroom house on the site of a former house at 8 Avila Park, Finglas, Dublin 11. The site was previously occupied by a single-storey 3-bed house with a floor area of approx 63sqm, that was substantially damaged by fire. The site has been partially cleared to facilitate the proposed development.

It is proposed to construct a single storey, 3-bed house with a floor area of approx 91sqm. The house has a pitched roof with a maximum height of approx 4.8m. The proposed external finish matches existing houses within the Avila Estate. The house contains an open plan kitchen/living area, 3no double bedrooms, a bathroom and a storage room.

It is considered that by reason of the scale and layout of the house that the proposed development does not impinge on the residential or visual amenities of the area and that it does not result in undue overshadowing of neighbouring property. The development is considered acceptable.

Plans and particulars of the proposed development were available for inspection or could be purchased from 3rd July 2017 for a period of four weeks. Submissions or observations in relation to the proposed rebuilding of the house were also invited and the deadline for receipt of these was 4.30pm on 15th August 2017.

Following the passing of the above deadline, no third party submissions were received in relation to the application. As approval of a Part VIII application is a reserved function of the City Council, it is now our intention to bring the proposal to the October City Council meeting for formal approval.

The new signage will both enhance the appearance of the area and ensure that those who journey through it will be very aware of the place name of one of the most attractive locations within our area.

Enhancement Works

Bollards have been painted along Fitzmaurice Road at the junction off Glasilawn Avenue. Enhancement works were already carried out earlier this year when we placed a number of planters, and carts at this shopping area. The Public Domain Team in partnership with the Residents Association of Glasilawn Avenue/Road have greatly enhanced the area with planters, planting around trees and signage. This work has proven to be very successful and the residents of the area have complemented the work carried out.

IBAL Report

Ballymun: 35th out of 40 towns/cities surveyed. Moderately Littered.

Ballymun had improved considerably over last year, with no litter black spots but a number of heavily littered sites. Some specific sites were much improved e.g. the Recycle Facility on Ballymun Road and residential area of Gateway Crescent – the latter wasn't litter free but was much improved. Poppintree Park, Ballymun United FC and Ballymun Civic Centre were all top ranking – they were very well presented and maintained. Balbutcher Lane/Balcurris Park West and Sports and Fitness Ballymun were both heavily littered.

The report also stated; *“dumping appears to be on the increase, and the more we ask people to pay for waste disposal the greater an issue it is likely to be come. It may not be as widespread, but dumping is the new litter in many respects.”*

The business group concurs with the “polluter pays” principle behind the mandatory pay-by-weight collection system, but believes some of the monies raised should be ring fenced for councils to tackle the increased dumping that will result from people looking to evade the charges.

The Public Domain Officer met with the Waste Management Inspector with responsibility for the Ballymun Area on the 12th September, 2017. A review of the document took place and a plan was agreed to move forward with recommendations from the IBAL Report.

North Road

A large amount of complaints have been received regarding anti-social behaviour at the green area on the old North Road. A number of meetings have taken place with Dublin City Council Officials, Residents and Public Representatives. It was agreed at the last meeting that the Public Domain Team would undertake to make arrangements to increase security measures at this location. A contractor has been appointed to retrofit a fence along the lower end of the footbridge and also to increase the height of the lower fence that runs along North Road. It was also agreed to erect a fence at two locations along the main Finglas Road side. Anti Climbing paint will also be used at certain locations. When this work is completed the area will be monitored and if necessary further actions will be taken in agreement with local residents.

Safety Enhancement

There is a long standing problem of scrambler motor cycles illegally mounting footpaths in the Kippure Park Estate and out onto St. Helena's Road. There are also regular illegal dumping occurrences at this location. This poses a serious hazard to pedestrians. In order to alleviate this problem at the St. Helena's Road/Kippure Park Dublin City Council has recently installed a railing at the green area on St. Helena's Road. The effect of this installation will be to allow pedestrians and wheelchair users access the path, while preventing motor cycles illegally travelling at speed and illegal dumping on the green area. It is anticipated these works will reduce hazards to pedestrians at this location.

Control of Horses

The North West Area has experienced a lot of issues with horses roaming free. The Public Domain Team have been in regular contact with the Control of Horses Section and the Contractor to have these horses removed. They have had limited success to date.

The contractor has informed the Council they are no longer providing this service. It is hoped to have a new contractor in place by October.

Weed Spraying Programme

The second round of weed spraying commenced in the North West Area in the first week of September. These works are conducted by Greentown Environmental. To date, areas in Finglas and Ballymun have been sprayed with the rest of the area due for completion in the coming weeks. The effectiveness of the spraying will be monitored.

In addition, a ramp is located approximately 15m east, and another ramp is located 50m west of this junction on Ballyboggan Road. Installation of additional ramps on Ballyboggan Road will only encourage harsh braking and consequent heavy acceleration in between on approach to the junction.	0	12/06/2017

Parked cars on the right up to the first house offer traffic calming by narrowing the carriageway, and installing DYL's will only lead to parking further within the estate. In addition to this, double yellow lines have recently been installed at the entrance to Kempton Green to increase flow and visibility. Double yellow lines are currently in place around the sharp left corner of Kempton Avenue on both sides which help keep traffic flow and visibility clear. No further double yellow lines are recommended.	1	12/07/2016

30	19184	Traffic Conditions	PLUNKETT ROAD (NW-EA)	D11	Speed Ramps	Speed ramps requested for Plunkett Road	resident	Not Recommended	Plunkett Road does not meet the required criteria for additional speed ramps. There must be an unbroken straight run of 200m. As per the Traffic Management Guidelines it is poor design to have traffic calming features that are spaced too close as it encourages harsh braking and consequent heavy acceleration in between.	0	16/07/2015

35	31209	Parking Prohibitions	WALNUT LAWN (NW-EA)	D9	Double Yellow Lines	opposite No. 11.	cllr Sammon	Not Recommended	From site inspection it was noted that the road is 7.5m in width and there is sufficient room for cars to enter and exit the property when cars are parked opposite. The parked cars on Walnut Lawn offers traffic calming by physically narrowing the carriageway and reducing drivers forward visibility.	0	17/05/2016

Mental Health

A team member attended the FACT Autism Group's family day out.

Environmental

The Community Team along with members of the Public Domain Team worked extensively with local residents to support this year's Pride of Place Entry for the North West Area. The residents and environmental upgrades in Doon Court, Graigue Court and Knowth Court and surrounding areas are continuing to organise and attend meetings with the groups as they work on their presentation for the competition. The Pride of Place judging took place on the 29th August in the Council Chambers, Ballymun Civic Offices. The group put a big emphasis on the importance of passing down their environmental and community skills to the next generation. This was a great success and was attended by approximately 80 local community and organisation members. The Judges were very impressed with the strong and enduring sense of community spirit displayed by the group and the area in general.

Ongoing meetings took place with Public Domain Staff also in relation to local environmental initiatives and distribution of planters, blue bags, brushes etc. The Community Team continued to work with environmental groups on various planting projects. To date, over 50 community groups have received support and plants from the section.

The third and fourth Greening of the Area Workshops (GAP, DCC, local residents, Poppintree Youth Project) took place in Doon Court and Shangan Green. Continued meetings took place for the City Neighbourhood Awards Ceremony which took place in Ballymun Civic Office on Thursday the 7th September at 7pm.

Events

The team members continued to roll out the new plan for Otherworld Festival 2017 along with staff from Axis, Youthreach, BRYR, Aisling, PYP and others. A number of new community group members have become involved and are working on a number of initiatives including a new revamped 'Zombie Walk Parade' and an even bigger space designed by community groups for the Plaza on Halloween Night.

The Community Team members attended several organising meetings and took a very active part in the Family Fun Day organised by the Ballymun Network for Assisting Young

People and Children which took place on Friday the 25th August at the Balbutcher Lane site beside BRYR. This event was a fantastic success, with over 1200 people in attendance, it is a great example of how well things can work when all major organisations get involved.

Pyrite

The last phase of remedial works has started in the Carton Estate. To date 52 families have moved out of their home to allow for pyrite remedial works. There are two houses remaining on Carton Terrace that require pyrite remedial works. This work is due to start on 18th of September. There are four houses that require remedial pyrite works in Owensilla, work is due to start at the end of September. Ballymun will be free of all identified pyrite properties by Christmas of this year.

Consultation for Super Depot

Dublin City Council has scheduled a follow up information meeting for the residents of Carton in the Poppintree Community Centre and the residents of St Margaret's halting site in the Community Room in St Margaret's, on the proposed Super Depot for the site to the front of Carton Way and IKEA. The meetings are due to take place on Tuesday 19th of September.

Druid Court

Dublin City Council held an open meeting to discuss blocking the arch at Druid Court (61-72) following a number of anti social complaints. It was the opinion of the residents that attended the meeting that blocking the arch was not going to solve the issues. It was suggested that Dublin City Council block the court off in the middle. A follow up meeting to discuss this further was held on Wednesday 13th of September.

Estate Enhancement

Bollards are to be reinstated in Sandyhill Gardens at the request of the residents. Kissing gates that were installed in Marewood Crescent are to be modified to be more effective as discussed with the residents living in the Crescent.

Anti Social Behaviour

There has been an increase in the level of crime in the west area in Ballymun. Not all issues have been reported formally as there is a real fear for people's safety. Dublin City Council continues to work with the Gardaí in relation to these matters. The Safer Ballymun meeting took place on the 12th of September at 7pm in the Council Chambers.

A package of projects in Sillogue has been approved to proceed to preliminary design stage.

Sillogue Avenue – Main Street Link Road,
Gateway Crescent Extension,
Sillogue Avenue Realignment (continuation of the Sillogue Avenue – Main Street Link Road).
Sillogue Gardens upgrade.

The roads projects all have Part 8 approval. They require detailed design, preparation of tender documents, procurement of a contractor, contract administration and site supervision, and finally handover.

Sillogue Gardens, along with a number of other areas of older housing in Ballymun, has significant issues with existing infrastructure. The existing drainage infrastructure is in very poor condition with significant damage, blockages and other shortcomings related to the original drainage installation. There are also significant issues with the existing road and footpath construction and condition. The public lighting is also substandard. In order to address these issues major remedial works are required. These works require surveys of existing roads and drainage systems, provision of a number of costed options, detailed design of chosen option, preparation of tender documents, procurement of a contractor, contract administration and site supervision, and finally, handover.
