**With reference to Part 8 of the Planning and Development Regulations 2001  
Motorway Operation & Control Building, East Wall Road**

---

The proposed Part 8 development was put on public display from 7th March 2018 for a period of 4 weeks. Plans and particulars of the scheme were available for inspection and on display in the Civic Offices, Wood Quay.

The closing date for submissions or observations was Wednesday 25<sup>th</sup> April, 2018.

Environment & Engineering Department, Dublin City Council

**Proposed Development**

A two storey extension to the existing Tunnel Control Building used for the operation and maintenance of the Dublin Port Tunnel which is owned by Dublin City Council and operated by Transport Infrastructure Ireland.

The expanded building will house the Motorway Operations Control Centre. The extension footprint is approximately 270m<sup>2</sup> and it will have a gross floor area of approximately 510m<sup>2</sup>.

In addition, there will be modifications to the existing internal road layout, parking and landscaping within the site, including the relocation of existing security gates and the incorporation of additional parking spaces to replace existing spaces within the footprint of the extension.

**Observations:**

Third Parties: None received

Prescribed Bodies: None received

**Interdepartmental Reports**

Drainage Division: No objection and recommends conditions

Roads & Traffic Planning Division: No objection and recommends conditions

**Planning Assessment:**

The proposed development comprises of a two storey extension to the existing building with a footprint of 270m<sup>2</sup>. The rationale for the extension is stated as being to facilitate the increased level of functionality and number of services required for motorway operations. The building combines Motorway Traffic Control Centre, IT infrastructure and ancillary spaces to facilitate the management of the Motorway Operation Services project.

The extension would have a maximum height of approximately 11metres and the external finishes of the flat roof structure would comprise of powered coated panels and fins, glazing, zinc cladding and curtain walling. The materiality of the extension would be in keeping and harmonise with the existing building. The extension would be located approximately 90m from the nearest residential properties which are located on the southern side of East Wall Road.

The extension would be visible on approach from East Wall Road and also from East Road; however it is considered that the extension would not adversely impact on the scale and character of the existing building or would it adversely affect the visual amenities of the area.

It is also proposed to alter the car park area. The footprint of the extension will impact on the existing parking arrangement by removing 4 standard parking spaces and 2 disabled spaces. Replacement of the disabled spaces will be provided in the existing car park. An additional 2 disabled spaces will be provided while 4 standard spaces will be lost to accommodate the 4 disabled spaces to comply with development plan standards. The car park will be extended eastwards into the landscaped area to provide the shortfall.

#### **Appropriate Assessment**

An Appropriate Assessment (AA) screening, undertaken by Roughan & O'Donovan, was prepared in accordance with the requirements of Article 6(3) of the EU Habitats Directive (Directive 92/43/EEC), Regulations 42 and 43 of the Nature Regulations, Part XAB of the Planning and Development Acts, the relevant case law and the precautionary principle. The screening exercise concluded that the project, either individually or in combination with other plans and projects, is not likely to have a significant effect on any Natura 2000 site.

#### **Conclusion**

It is considered that the development as proposed accords with the policies and objectives contained within the City Development Plan 2016-2022 and with the proper planning and sustainable development of the area. Therefore, it is recommended that the proposed development should proceed subject to the requirements of the respective Divisions.

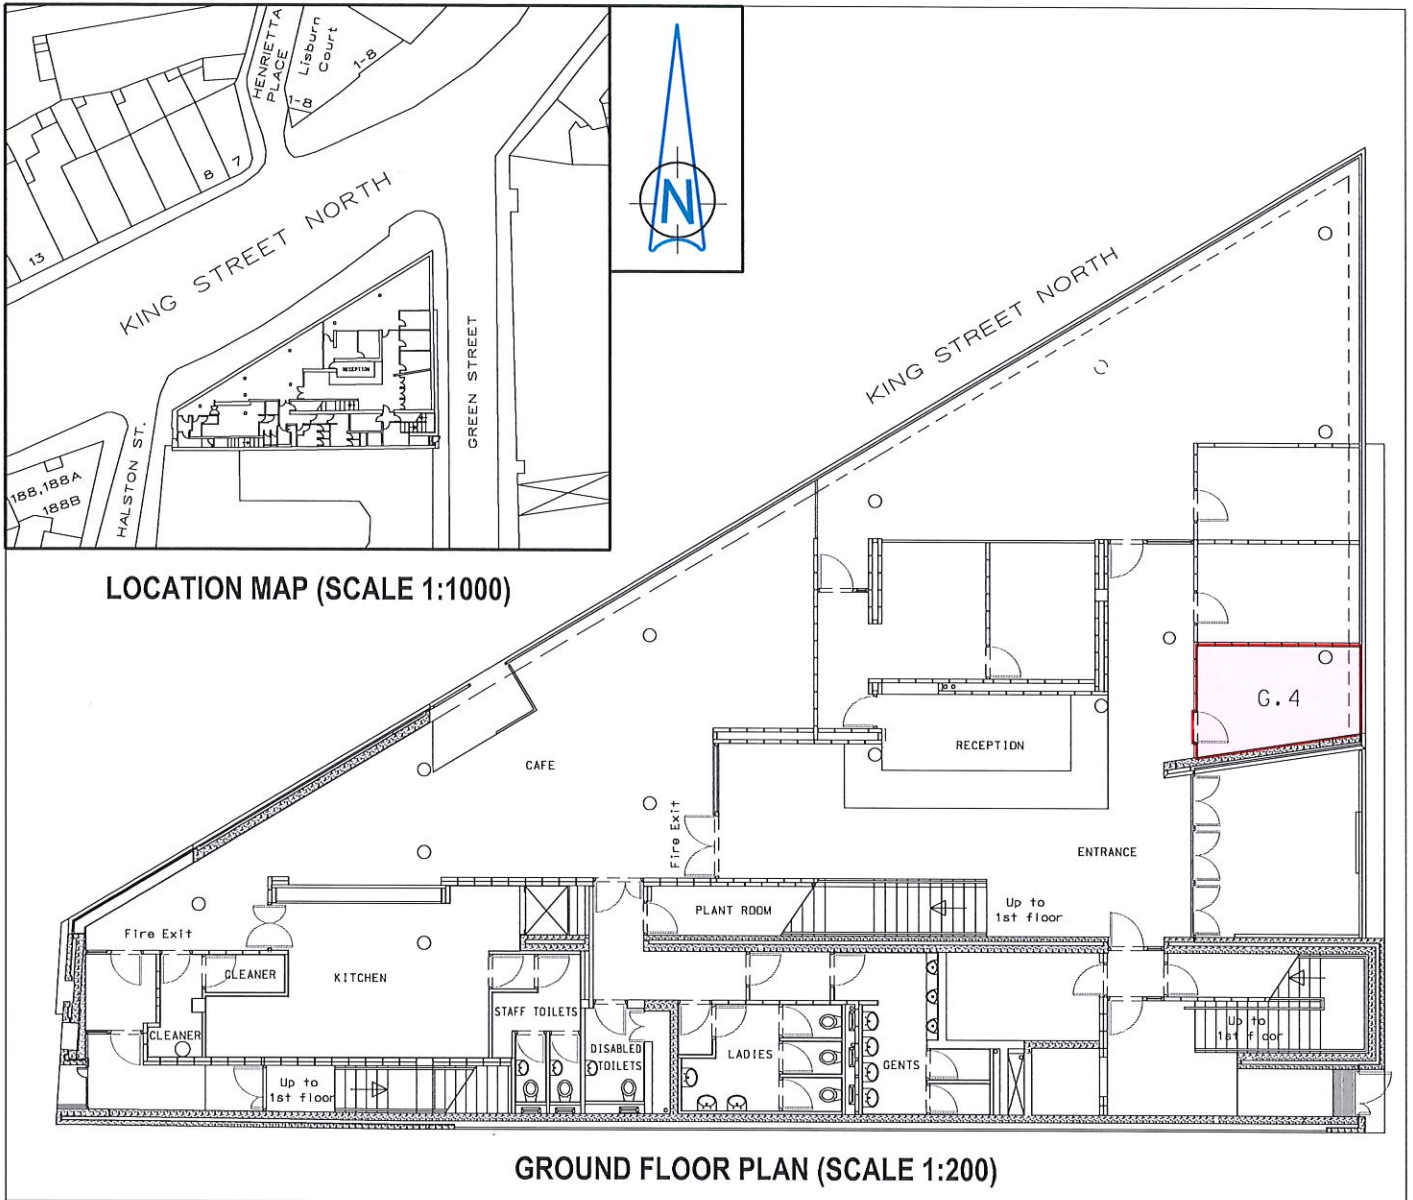

It is our intention to bring this Part 8 to the City Council for approval.

Member of the Public	29/03/2018	Not Recommended	The request is not recommended for the following reason(s): Dublin City Council's current position is to not introduce parking restrictions where restrictions are already covered under the law, as this would lead to a proliferation of same and additional expense due to maintenance, etc. Under Section 36 paragraph (2) (i) of the ROAD TRAFFIC (TRAFFIC AND PARKING) REGULATIONS, 1997; Prohibitions on Parking; 'A vehicle shall not be parked on a footway, a grass margin or a median strip.' Under Section 36 paragraph (2) (k) of the ROAD TRAFFIC (TRAFFIC AND PARKING) REGULATIONS, 1997; Prohibitions on Parking; "A vehicle shall not be parked in a manner in which it will interfere with the normal flow of traffic or which obstructs or endangers other traffic." Member of the Public	26/01/2018	Not Recommended	The inclusion of a filter light for the right turning movement from Dorset St to Eccles St would necessitate a reduction in the time available for other traffic movements at this junction. This would result in increased delays and queues on Dorset St Outbound (which carries a large number of buses) and Eccles St both of which are already heavily congested at peak times and therefore a right turn filter light is not considered feasible at this time.	1

- **Dublin Sports Fest**

DCSWP's flagship event will take place during European Week of Sport (September 23<sup>rd</sup> – 30<sup>th</sup>). The focus will be on encouraging participation across all ages, backgrounds & abilities and, importantly, sustainability. There will also be the added bonus of the chance to showcase DCC's many sport & recreation facilities.

The festival will comprise of a week-long programme of events across many of DCC's facilities, parks and urban spaces. We will look to link with many of the sporting NGB's/sports clubs across the city and encourage them to participate in the festival by hosting open nights, taster sessions, blitzes etc...

We hope to develop a promotional pack to assist them with this. Larger clubs may have the capacity and resources to deliver bigger one-off innovative events that could feature as one of the headline attractions on our Programme of Events for the week.

We also hope to link with schools and third level institutions in addition to curating links with some corporate entities in order to deliver some fun & novel workplace wellbeing initiatives during the week (e.g. silent disco, lunchtime tai-chi, outdoor spin, tug of war, relay race, dance flashmobs etc...)

A large element of Dublin Sports Fest will involve tying in with pre-existing events such as the Great Dublin Bike Ride, Sport Ireland's Family Sportsfest in the National Sports Campus and Parkrun etc... (i.e. turning Parkrun blue for the weekend in question)

Other big ticket events proposed for the week include:

- Tag Rugby event in Trinity College
- *Liffey Odyssey* event comprising of a flotilla of small craft including kayaks, canoes, rafts etc... that will go on a leisurely journey from the Garda Boat Club in Islandbridge right through the city centre to the 3 Arena - run on behalf of DCSWP by Ballyfermot Outward Bounds Adventure Centre and some other partners
- Large scale 5-a-side soccer tournament - the FAI propose to run this as a pilot for a similar initiative they hope to deliver as part of the Euro 2020 Legacy Programme
- Activation in Smithfield Square on Friday 28th September. Exact plans TBC - possibilities include a series of free 30 minute open-air classes (aerobics, zumba etc...) for the general public or people working in the vicinity to take part in; An expo event for minority sporting NGB's to provide information and taster sessions; a special 'GAGA' event (GAGA stands for 'getting all girls active' and this would follow on from a similar programme that DCSWP Sport Officers delivered across the city in late 2017/early 2018)
- DCSWP's Older Adult Sports Day will take place during this week

As the week of Dublin Sports Fest also coincides with *Positive Ageing Week* and *National Fitness Day (28th September)*, we will endeavour to speak to the organisers of these initiatives to see if any of their events can come under the umbrella of Dublin Sports Fest.

- **Champions Day**

Our annual sports day for adults with intellectual disabilities will, for the first time, take place across two venues (one Northside & one Southside). These multi-sport taster events will take place on May 9<sup>th</sup> in Sport & Fitness Ballyfermot & May 10<sup>th</sup> in Cabra Parkside Sports Complex.

- **Go for Life Games (Older Adults)**

The Go for Life Games involve three sports that can be played in singles, pairs and teams:

Lobbers - adaption of Petanque and Boules

Flisk - adaption of Frisbee and Horseshoe Pitching

Scidil - adaption of Ten-Pin Bowling and Skittles

The emphasis of the Games is on participation and fun. They are played in a non-competitive way (as much as possible!) with participants encouraged to umpire their own game.

The aim of the Go for Life Games is to involve older people in recreational sport. The National Finals (June 9<sup>th</sup>) take place in DCU and are run by Age & Opportunity with the support of Local Sports Partnerships and the HSE.

In the lead-up to the National Finals, DCSWP Sport Officers work to deliver Regional Finals (Northside & Southside) in addition to an ongoing League and Friendly games. The Southside Finals take place in Sport & Fitness Ballyfermot on 23<sup>rd</sup> May and the Northside Finals take place in Cabra Parkside on 24<sup>th</sup> May.

Are you interested in improving your **strength, balance & fitness** in a fun social environment? If so this class is for you. A qualified instructor will take you through a series of gentle exercises once a week for 10 weeks. This initiative is a collaboration between Dublin City Sport & Wellbeing Partnership and HSE Primary Care Physiotherapy Teams. The Programme is structured into Bronze (non contact), Silver and Gold phases. The first two phases focus on general strength & fitness, method and technique. The Gold phase introduces an element of contact to those participants who have displayed a particular talent & enthusiasm for the sport.

For more information on which schools in the Central Area our IABA/DCSWP Development Officer is linking in with, please contact Paul Quinn directly. Contact details can be found at the foot of this report.

### **Rowing Development officer Report**

- **Get Going ... Get Rowing - General**

This initiative, jointly supported by DCSWP, Sport Ireland, Healthy Ireland, Active School Flag & Trinity College, has been successfully rolled out for a number of years by Rowing Ireland's Leinster Women's Development Officer, Michelle Carpenter. This is a 4/6 week school's programme for girls (second level). Rowing Ireland provide rowing machines and a community coach to the schools.

A Transition Year Programme compliments the above by giving students the opportunity to get on the first step of the coaching ladder and enabling them to be involved in a youth leadership role, working in a fun and interactive environment with younger students who will be taught values such as fair play, respect, dignity etc...

- **2017/2018 Review**

So, we take stock of the *Get Going...Get Rowing* programme a few weeks from the end of what has been a bumper academic year in terms of introducing rowing to new schools and students.

We held our biggest ever #Blitzit event in Dublin City on Friday 10<sup>th</sup> November with over 900 students attending the third annual competition in Trinity College Dublin. We also had our #Blitzit *Splash and Dash* on the water in Grand Canal Dock on Friday 20<sup>th</sup> April 2018 which was a tremendous success. The sun shone, the weather stayed dry and we had 57 crews from our Dublin schools taking part, in addition to our partners who contested the partner's race. This event is the culmination of the indoor coaching and on-the-water sessions provided by the programme.

The *Get Going ... Get Rowing* programme will be complimented by Summer Camps for those students who wish to take their introduction to rowing to the next level and create a pathway to sport and physical activity for life.

Dublin City schools on board or in the process of coming on board for 2018/2019 are as follows:

*St. Dominic's Cabra  
Dominican College, Griffith Ave  
Presentation, Terenure  
Our Ladies, Terenure  
St. Mary's Glasnevin

**To the Chairperson and Members of

***GDA Report – May Area Committee***

A new Central Quad and East Quad is being built on the GDA site. The Central Quad will accommodate academic activities and facilities required for a total of ten schools from the College of Sciences & Health, College of Engineering & Built Environment and the College of Arts & Tourism. The East Quad will accommodate the majority of academic activities and facilities required for the College of Arts & Tourism which currently consists of six schools, four of which will be accommodated within the East Quad building. The development will span 52,000m<sup>2</sup>, creating 1600 construction jobs over the lifetime of the project.

The contract for the provision of these buildings has been entered into with Eriugena consortium, which includes Macquarie Capital Group Ltd., Irish Construction Company John Sisk & Son (Holdings) Ltd., FCC Construction (Ireland) Ltd. and Sodexo Ireland Ltd. The National Development Finance Agency (NDFA), which was responsible for the procurement of the project on behalf of the Department of Education and Skills, will also monitor the construction phase.

**List of Motions**  
**8<sup>th</sup> May, 2018**

**Motion in the name of Councillor Ciaran Cuffe (deferred from April meeting)**

That the City Architect prepare plans for the construction of a mixed-use development of housing over retail on the Council owned site at the corner of Ryder's Row and Capel Street.

**Motion in the name of Councillor Ciaran Cuffe**

That the new road beside the 3Arena be named Molly Nugent Road after the Nugent family who lived at Seaview House, positioned at the junction of Seaview Avenue and East Wall, and whose portrait was sketched by Countess Markievicz.

**Motion in the name of Councillor Christy Burke**

That the Central Area Committee calls on the Revenue Commissioners/Tax Office to open late, maybe Thursday night, to allow workers who pay taxes, who are unable to take time off work Monday to Friday, to call into the tax office to put their tax affairs in order.

**Motion in the name of Councillor Nial Ring**

That the Members of this Committee fully support the following proposals for the celebration of the centenary of the sitting of First Dáil on 21st January 1919, as put forward by The First Dáil Commemoration Committee of the 1916-1921 Club. The proposal/recommendations include the following:

- That the Irish language as First Language of the State should have prominence as was the case in 1919.
- The Centenary Year should feature Debate/Discussions on "the Dáil then - the Dáil today", on leading figures of the time and to include discussion on the role of the 1916 women in the suffrage movement, the 1918 General Election and the First Dáil.
- The Centenary Programme should include a photographic record, film archive display and exhibition of copy historic documents such as The Declaration of Independence, Message to the Free Nations of The World and The Democratic Programme of The First Dáil.
- A large photo of the members of The First Dáil should be displayed outside The Mansion House and Leinster House during Centenary Year.
- Recognising that the national broadcaster, RTE, will have a central role to play it is recommended that TV and Radio Programmes should be centred on three themes: Election 1918, The First Dáil and the commencement of the War of independence.
- The significance of the First Dáil should be brought to schools nationwide in a similar way in which the 1916 Easter Rising became a focal point for schoolchildren. A presentation to schools of copies of the historic documents of the time (i.e. The Declaration of Independence, Message to the Free Nations of The World and The Democratic Programme of The First Dáil) should be considered.
- Finally, the importance of this occasion warrants the announcement of a National holiday, 'Independence Day' on 21st January 2019 to appropriately mark the Centenary of the sitting of the First Dáil, as recently proposed in Seanad Éireann.

**Motion in the name of Councillor Nial Ring**

That this Committee, having regard to the deferral of Report No. 79/2018 at the April City Council meeting (Proposed Public Realm Improvement Works to Cathedral Street and Sackville Place, Dublin 1, Report No. 79/2018), agrees that, given the issues raised by disabled and visually impaired persons are not to be properly addressed and/or agreed with their representative bodies, the Report will not be supported by the members if resubmitted to either the CAC or full City Council.

Furthermore, this Committee notes that while the report accepts “that the absence of a height delineation can result in confusion and disorientation” the solution proposed is that “differentiation in the colour of the paving can be considered”, implying that either blind people or guide dogs can recognise and differentiate between colours!
