Acknowledging the very serious incident involving a scrambler-type bike in Darndale park on Saturday June 9th that resulted in one man being left in a critical condition in hospital, recognizing also that the issue of scrambler bikes and quad bikes in the park and surrounding estates has been a recurring problem for a number of years, this area committee calls on the area manager to do the following:

- convene a meeting with personnel from the parks department, the area office's community section, community representatives and elected members to explore potential solutions aimed at restricting access for these bikes to this and other parks in the North Central area;

- engage with locals in the North Central area who have a genuine interest in and passion for motocross to explore ways of eliminating the use of scrambler and quad bikes in our public parks and residential estates.
