As per the traffic management guidelines it is poor design to have traffic calming features that are spaced too close as it encourages harsh braking and consequent heavy acceleration in between.	0	21/10/2014

28	16842	Traffic Signals	KILDONAN ROAD (NW-EA)	D11	Traffic Calming	Additional traffic calming measures for Kildonan Rd, Finglas West.	resident	Not Recommended	Kildonan Road is currently traffic calmed by a number of speed cushions spaced appropriately and in accordance with the design specifications of the Traffic Management Guidelines. As this road forms part of a bus route, speed cushions rather than ramps were provided to facilitate emergency vehicles and safety of bus passengers. Additional ramps would not be suitable as the spacing between ramps needs to be consistent and at an appropriate distance as per the Traffic Management Guidelines. Failing to do so encourages harsh braking and subsequent acceleration.	0	23/02/2015
