Draft River Basin Management Plan  
2018-2021, SEA and AA, launched by  
Minister Coveney  
on 28<sup>th</sup> February 2017

RIVER BASIN PLANNING REQUIRES TECHNICAL EXPERTISE AND KNOWLEDGE –  
BUT PUBLIC ENGAGEMENT AND PARTICIPATION ARE EQUALLY IMPORTANT  
IF WE ARE TO UNDERSTAND THE VALUE OF WATER AND WORK TOGETHER  
TO PROTECT AND RESTORE OUR WATER ENVIRONMENT.

Water is essential for life and for our natural environment. It is also critical to our wellbeing and our economy and provides essential services supporting people and communities, agriculture, industry, transport and tourism. However, water is a fragile resource that needs to be protected from the many pressures that are placed on it. It must be managed and used in a sustainable manner.

## Water Framework Directive (WFD) 2000

Legal framework to *protect and restore* clean water ..... and to ensure its long-term, sustainable use.

### Three cycles

- 1<sup>st</sup> Cycle: 2010-2015 (minimal community engagement)
- 2<sup>nd</sup> Cycle: 2016-2021 (2 years behind)
- 3<sup>rd</sup> Cycle: 2022-2027

..... “to achieve good ecological status in all waters”.

Dublin City Council

## Water Framework Directive (WFD) 2000

- Develop River Basin Management Plans –
  - Identify the pressures on water quality
  - Set out the programme of measures to address these significant pressures.
- Public consultation and engagement

## Key Learnings from 1<sup>st</sup> Cycle Plan

- Need for better evidence base (EPA characterisation work)
- First cycle too ambitious
- ... “fragmented institutional structures”
- ... “no single body having ultimate responsibility”
  - Single RBD with national plan the responsibility of Minister
  - New governance & implementation structures
  - Local Authorities central to this
- Need for improved communication & public engagement
  - Consultation central to development of draft Plan
  - Specific resource developed through setting up the Local Authority Water and Community Office (LAWCO).

## River Water Quality, past, now, future?

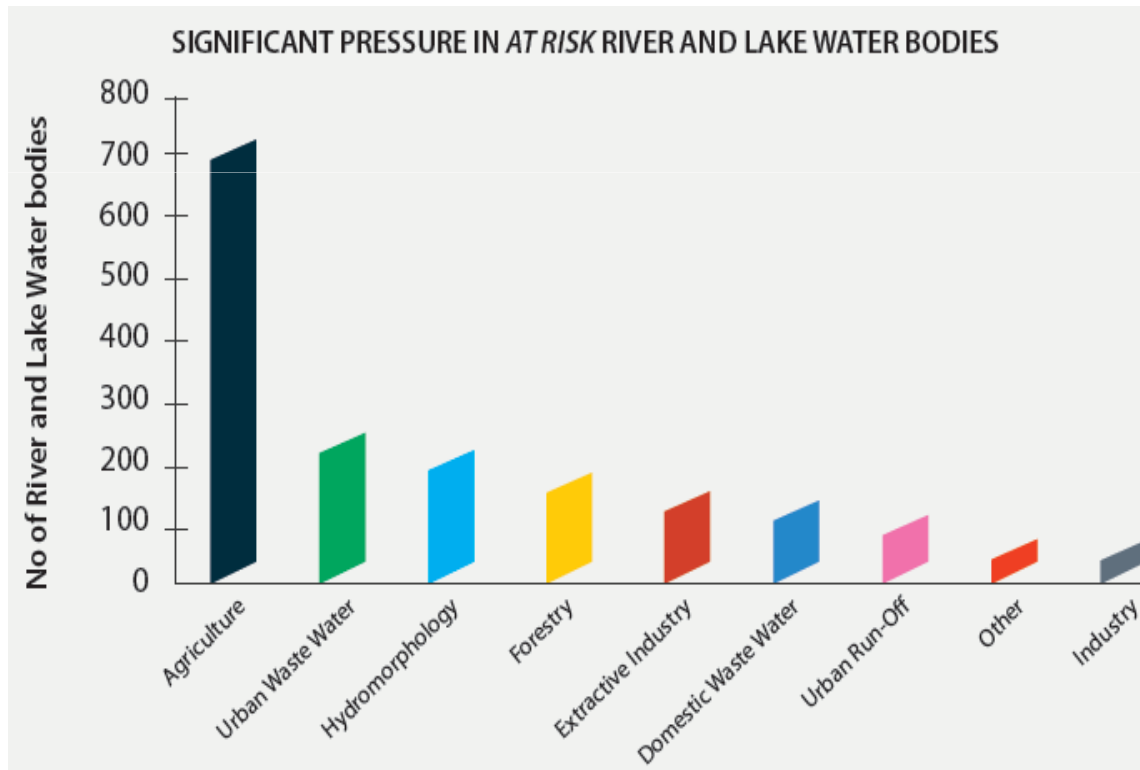

% river channel length at satisfactory status

## EPA Characterisation

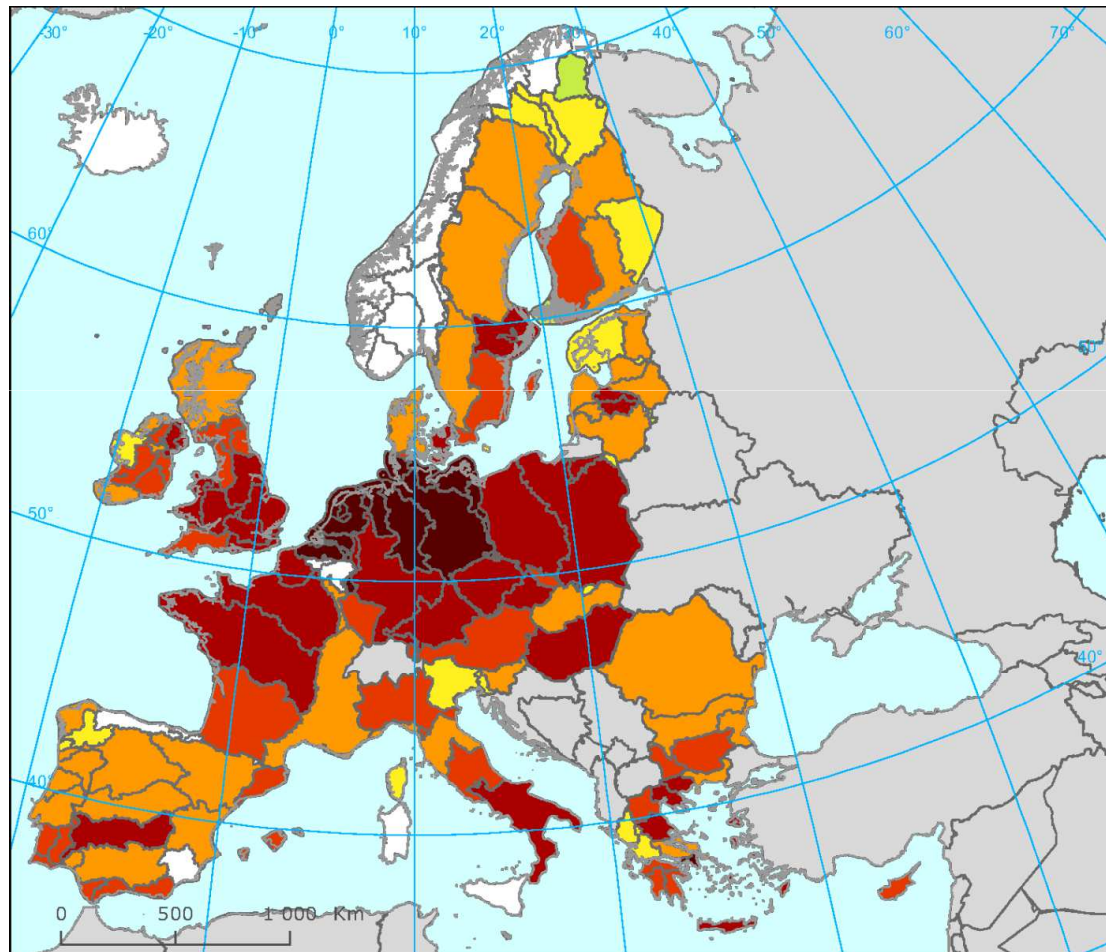

- Detailed assessment of 46 catchments with 4,882 water bodies
- 45% of rivers and 54% of lakes at less than good status

# Draft River Basin Management Plan

- Draft Plan launched by the Minister on 28<sup>th</sup> February 2017
- 6 months public consultation process to 31<sup>st</sup> August 2017.
- Final RBMP by December 2017

## Objectives & Priorities

- “...Good ecological status for all waters”
- Priorities identified in the Plan:
  - Compliance with existing EU legislation (e.g. UWWTD)
  - Prevent deterioration
  - Meet water objectives for “protected areas”
    - Bathing areas, drinking waters, shellfish, SACs etc
  - Protect high status waters
  - Supporting measures implemented in approximately 600 to 700 prioritised water bodies
  - 30 Pilot Study Areas.

## Programme of Measures (Chapter 7 of Plan)

- Agriculture
- Septic tanks
- Urban waste water
- Forestry
- Extractive industry incl. peat harvesting
- Invasive alien species
- Physical modification
- Water abstractions
- Industry
- Waste
- Historically polluted sites
- Water treatment
- Others

## Implementation Strategy

- Implementation of basic measures
- Supporting measures targeted at priority water bodies
- Regional structure in coordinating resources across agencies and other stakeholders
- Evidence based approach
- Community engagement and awareness  
(Local Authority Waters and Communities Office - (LAWCO))  
(National Water Forum)

# Proposed Implementation Structure

## Role of Local Authorities

- Coordinated delivery of measures at regional and local level
- Tracking progress and effectiveness of measures
- Annual reporting of progress
- Ensuring public and stakeholder engagement in implementation
- Integrated approach across functional areas
- Supporting national policy development and implementation

## Communication & Engagement

- Previous consultations highlighted need for:
  - (i) Better engagement in water policy at national level
  - (ii) Facilitation of public and stakeholder engagement at local level
- Response to above in draft RBMP
  - (i) **National Water Forum** will feed into WPAC and other structures
  - (ii) Local Authority Waters and Community Office (LAWCO) to drive public participation and consultation
  - (iii) EPA/DHPCLG/LA networking & knowledge sharing
  - (iv) [catchments.ie](https://catchments.ie) website
