Central Area Age Friendly Report – September 2017

A Dublin City Age Friendly event will take place during Social Inclusion month on Wednesday 27th September 2017. This will take place in Richmond Barracks, Inchicore, and will consist of music, a tour of the Barracks and two short talks. Lunch/ refreshments will be provided for all attending. An invitation is being extended to older people from different communities. Ten older people are being invited from each of the five Areas. Organisations such as Alone, Active Retirement, An Siol, New Communities Partnership and Crosscare are also being asked to invite ten older people each that they come across every day in the course of their work so that we will be socially inclusive of all. It is proposed to hold two separate sessions to accommodate all of the participants.
