Re Proposed Extension of Playground in Herbert Park

It is proposed to extend the existing large playground in Herbert Park to the area at the rear of the tennis courts. The extended area will cater primarily for younger children between the ages of 2 and 6 years of age using a natural child friendly design.

After a recent competitive tendering process the successful design was submitted by KOMPAN Ireland (see attached design layout).

It is anticipated that the work will be completed before the end of the year.

Michael Noonan
Senior Executive Park Superintendent
