Pay & Display Machine replacement programme

Multifunction Pay and Display Ticket machines are currently being installed on-street which in addition to allowing coin and "wave and pay" payments will also provide visitors with information in relation to local points of interest.

Parking Tag and alternative methods of paying for parking

The average number of transactions per week is now over 100,000 representing 45% of weekly Pay and Display revenue. There are over 178,000 registered motorists with almost 700 additional motorists registering each week. Over 72% of all Parking Tag transactions are now made via the Parking Tag App. Once off payments in shops or charged directly to mobile phone bill or credit card on average account for 4,000 payments per week. The Council is currently engaged in 'Market Discussion' with potential service providers regarding the service in advance of a Request for Tender for provision of the service.

Car Clubs

Two Car Clubs remain operational on-street and have availed of 115 Car Club Permits. There are currently 19 dedicated car club only bays in the City. Discussion is ongoing with both operators who are seeking additional permits in order to expand their services and the number of vehicles located on-street, including additional EV vehicles.

There are currently 35 dedicated EV only bays located on-street and further sites are being examined for suitability.

Anti Dumping Initiative 2017

The monitoring and enforcement campaign have been completed on Dorset Street. 67 litter fines were issued on foot of the initiative. Litter Wardens have engaged with all business premises regarding compliance with waste and litter bye laws.
