Non Compliance NC011870 for Dublin Waste to Energy (W0232-01)

Non Compliance Type:

Waste management

Non Compliance Condition:

1.6

Notification Date:

20/06/2018

Date of Non-Compliance (1st Date if relates to a period):

31/12/2017

Last Date of Non-Compliance in calendar month (if a period)**Description:**

The facility accepted non-residual waste for incineration from one waste operator (Ray Whelan Ltd. industrial emissions licence Reg. No. W0158-01) during December 2017. Waste arising from the Ray Whelan Ltd. facility at that time included waste derived from a 2-bin waste collection service in areas where a 3-bin collection system was legally required (as per the Food Waste Regulations, SI 430 of 2015). The EPA regards the waste to have been inadequately treated by way of having proper pre-segregation in accordance with the definition of residual waste as defined in the licence which states that "Residual waste - In the context of intake to an incinerator/WtE plant, is waste that has been subjected to pre-treatment (including, inter alia, pre-segregation, sorting, mechanical-biological treatment) to extract, to the maximum practical and available extent having regard to BAT, the recyclable/reusable components" This is a non-compliance with condition 1.6 of the licence which states that "Only residual wastes shall be incinerated at the facility".
