**To the Chairperson and Members of
The Central Area Committee.**

Central Area Age Friendly Report – December 2018

Following the Dublin City Council Age Friendly summit meeting on the 27th September steps are being taken to support a restructure, internally, within Age Friendly Dublin areas. This will give the opportunity to look at more effective ways of hearing the voices of older people locally while making sure the right people represent their areas on the Citywide Age Friendly Alliance.

The agreed actions from the summit will also be used to create a framework to be rolled out in each area in 2019.
