## Continued liaison between the South East Community Development Section and the Probation Services

❑ Continued Liaison between the South East Area's Community Development and Public Domain sections and the Department of Justice and Probation Services to engage young men in the probation system in community cleaning-work in the area has resulted in the identification and reformation of a number of trouble and black spots where litter, weeds and overgrowth are ongoing issues.

❑ Recent clean-up works carried out in the Cabbage Patch area have gone a good way towards the environmental improvement of this areas.

❑ At the same time the works prove vital in assisting in the rehabilitation of the men involved.
