This target figure includes Local Authority new build, acquisitions, refurbishment/voids, leasing and part V. It also includes similar activity by Approved Housing Bodies.

Separate targets are set for the Housing Assistance Payment Scheme (HAP).

I am confident that this challenging overall target of **9,094** will be achieved.

<sup>\*</sup>Actual voids restored by DCC in 2018 was <u>871</u>, however this figure was originally capped in respect of Re-Building Ireland by the Department at **300** and later in the year at **200**. In all previous years Dublin City Council counted all restored voids as completions.

**Note:** There was a further over 900 Homeless HAP tenancies created by the DRHE/DCC in 2018 but they are located in the three Dublin Local Authority areas and are part of their output figures.

<sup>\*\*</sup> This activity is largely demand led and outside our control.

<sup>\*\*\*</sup>This activity refers to existing tenancies under the Rent Supplement Scheme who are to transfer over to HAP, this is led by the Department of Social Protection and progress has been slow, and is outside our control.

#### **Vacant Housing property acquisitions**

The Housing Department is currently negotiating the acquisition of 11 vacant residential properties under the buy and renew scheme.

### Current processes underway to identify additional properties

The City Council has established a communication forum with other Local Authorities, State Agencies and Approved Housing Bodies in relation to the recording and where possible the sharing of data on vacant properties. There is a dedicated vacant housing database to record all properties reported to it and the City Council continues to liaise with Landlords, Estate Agents, Property Owners and the General Public to help identify vacant properties in the City. The Housing Department has established a vacant housing register which has recorded 349 residential properties by accessing data from the CSO, Geodirectory, Vacanthomes.ie and internal databases.

The City Council has undertaken a total of 245 site inspections with regard vacant properties. A further 29 inspections are scheduled and 12 title researches are currently in progress for potential vacant properties.
