

Under-Development of Inchicore

The Project

Initially, The *Young Social Innovators* programme inspired us to start this project, however after all the research, support and how much the community needed it, it became closer to all of us.

At the start of our project we filmed a short video that engaged a lot of media attention. It quickly gained many views and currently at 21.6k views. We were featured by *The Sun*, *Dublin Gazette*, *RTÉ* and numerous others about our project.

We gained further support from Senator Catherine Ardagh, by being mentioned in the Seanad.

Inchicore have been working on multiple projects that have involved in the Young Social Innovators programme, and won an award at the mansion house for a presentation they delivered on their project titled 'Give Mercy to Inchicore'.

Statistics

90.4% of people when asked “Are there currently enough facilities in Inchicore?” said NO.

When asked “Have you ever heard of experienced any anti-social behaviour within the area?” 71.0% said YES while only a mere 29.0% said NO.

“Do you feel safe living in Inchicore?” 48.4% of people said NO.

We asked the students of our school “How do they feel about the current condition of Inchicore?” and some of the results were as follows:

- 20.5% POOR
- 42.5% FAIR
- 32.9% GOOD

Future Plans

The Mural

Educational Pack

- C- Contact your local politicians by calling, emailing and writing letters.
- H- Have your intentions and goals set out clearly for them.
- A- Ask questions about their role and what they can do for you.
- N- Never give up, even if there are some obstacles.
- G- Gain and give them support through social media.
- E- Every person contacted is another opportunity for your issue to gain exposure.

- Y- You have to be patient as contacting politicians may be a long process.
- O- Offer to travel to meet them where they are based.
- U- Understand they are busy people.
- T- Trust that they are passionate and want to hear about your issue.
- H- Have your goals and intentions set out clearly for them.
