Rathgar Village Improvement Plan (VIP)

The redesign of Herzog Park is the final element of the Rathgar VIP to be undertaken. The Nature Play Area was officially opened by the Lord Mayor on 13th September 2018. Works to construct the Multi Use Games Area (MUGA) on the site of the bowling green are now almost complete. This will constitute phase 2 of the works. Works to re-align the bring centre are almost complete and will reopen in late May 2019. Internal landscaping, boundary treatment and the car park area will be addressed in phase 3 later in 2019.

Ranelagh Gardens Park

A contractor was appointed by Parks Services to upgrade the paths in the park and to address the drainage issues at the Chelmsford end in 2018. These works are now complete. Replacement of park benches is planned for 2019.

Ringsend Irishtown Local Environment Improvement Plan (LEIP)

The Ringsend Irishtown Local Environment Improvement Plan (LEIP) was adopted at the June 2017 South East Area Committee meeting. It is now proposed to prepare planning applications under Part 8 of the Planning and Development Regulations, 2001, for the redesign of (1) Library Square and (2) Cambridge Road.

Library Square: (Mitchell & Associates) Meetings with internal stakeholders were held during September and October 2018. A meeting was held with local businesses to discuss parking / loading arrangements on 5th December 2018. A presentation was made to area councillors on 13th February 2019 and a preliminary draft design was brought to a public meeting for all stakeholders on Thursday 21st March 2019 at 7pm in the Ringsend Irishtown Community Centre (RICC). Following a period of consultation up to 19th April 2019, submissions have been received and are being reviewed by the project team. A revised design will be drawn up following further consultation with internal departments prior to holding a second public meeting.

Cambridge Road: (Redscape Architects) An initial public workshop in relation to Cambridge Road was held on Thursday 30th August 2018 in the RICC on Thorncastle Street. Meetings with internal stakeholders took place in September and October and designs were drafted based on consultations which were brought to a second public workshop/meeting on 28th November 2018. Further information is required in relation to road design and drainage

requirements for the proposal and it is hoped to proceed with the Part 8 process once these issues have been addressed.

Terenure Village

Proposal to screen recycling bins in car park on Terenure Road North was examined in partnership with Terenure 2030 / Tidy Towns and Waste Management Services and will be carried out in 2019. Dublin Canvas has been asked to create a design. They will commence work on the project in late May 2019.

New Playground at Sean Moore Park

Community gain funding has been approved to provide a new playground at Sean Moore Park. Consultations took place with local schools and a tender has been prepared to appoint consultants to design a new playground for Sandymount at Sean Moore Park. The Part 8 Planning Application was lodged on 17th September 2018 and one third party submission was received during the appropriate period. The proposal was approved at the meeting of Dublin City Council in January 2019. The contractor has now commenced work on site and it is anticipated that the playground will be completed by mid-June 2019.
