11074447 Q33 NCCM 4/2/19		at the entrance gate to Scoil Mhuire, Griffith Avenue, Marino, Dublin 9	To ask the Chief Executive, the council recently upgraded the footpaths on Dean Swift Road, Dublin 11. They marked the footpath outside 6 Dean Swift Road to be done, but because cars were parked on the footpath, this section of the footpath was skipped. Can a notice be put on the cars to ask them to park elsewhere and allow the footpath to be resurfaced? In addition, speed bumps were removed from this road following resurfacing works and have not been replaced. These speed bumps were ineffective anyway given their size and spacing. Can more effective speed bumps be considered for this road?	12/02/2019 12:00	Spoke to principle on site, advised that rm would repair footpath but if they suspect gate damage caused by roots to contact parks department. 11067135	Q74 NCAC 16/7/18	"	"Regarding the lower end of Griffith Avenue and the wooden borders there Residents have requested their removal as they are unsightly and also a danger to school children and the elderly. Children have tripped over them and in some cases have cut themselves on the wood and steel that support these borders. Motorists are of the opinion that these wooden borders were put in to aid car parking. They feel the border provides their cars with protection. As a result cars are now parking on the grass verges more regularly and for longer periods. They have become damaged over the years with cars constantly driving into them. Griffith Avenue is a beautiful avenue and these wooden borders are giving it a dreadful look. It might be an idea to raise the path at the edge of the grass verges to prevent cars driving from the road onto these same grass areas. This has been done in the I.F.S.C. to great effect. This type of solution would be cost effective in the long term and also more aesthetically acceptable.	26/07/2018 11:54	Reply sent	Enquiry Resolved
