The elected members of Dublin City Council note with disappointment the lack of progress with the redevelopment of Phibsborough Shopping Centre. That this council agrees to establish a "Dublin City Youth Council" to give a voice to young people on municipal matters and to give them the opportunity to engage with public matters. This new council authority would hold an advisory role to DCC. In establishing a City Youth Council, DCC would recognise young people's capacity to express opinions and to participate in the improvement of the city as a whole. This youth council would be the opportunity for elected councillors, DCC and the youth to exchange and to share ideas and information on common council matters. Models for the establishment of such youth council can be copied from other youth cities councils worldwide.

That Dublin City Council calls on the Government to immediately remove funding of €16.8m to the Greyhound Industry and calls for a complete ban on racing. 6,000 Dogs are killed inhumanly every year in Ireland as well as many more who suffer horrific abuse. In no way should this practice be tolerated and certainly not at the expense of tax payers.

Allocating dedicated arts funding which benefits children and young people in their communities. We know children benefit from taking part in arts, cultural and community activities, but for many children, these are simply too expensive. Less than half of nine-year-old children and one-third of 13 year olds take part in a cultural class or club (such as dance, drama and music) outside school time.

Reducing/restricting planning for fast food outlets building or advertising near schools in line with the National Obesity Policy and reducing the number of vending machines selling confectionary or sugary drinks in public spaces. (taking into account the appropriateness and proposed location of the site in line with 2013 guidelines for local area plans).

One in four of our children experience obesity or overweight. We know there is a link between availability of fast food outlets and obesity and yet three quarters of Irish schools have at least one fast food outlet within one kilometre. We want to create healthy, family-friendly communities by reducing further building or advertising of this kind.

14) Councillor Kevin Donoghue

Submitted: 21st August 2019

That this council notes a recent request by developers to allow for delivery of co-living units under the minimum 12 m/sq outlined in planning guidelines.

This council is wholly opposed to any such request and calls on the Planning Department of Dublin City Council to be cognisant of the Minister's guidelines on co-living. There should be no co-living units below the guidelines. Additionally we need to ensure that

there is not an over-supply of co-living units in the city as it would be detrimental to the development of sustainable communities.

15) Councillor Alison Gilliland

Submitted: 21st August 2019

Replaced: 13th December 2019

Dublin City Council recognises the limited 1 bed units available across the city for single people and couples without children seeking both social housing and private rental/purchase. Dublin City Council seeks that a report be produced to identify how the Dublin City Development Plan and national legislation be varied/amended to allow for a greater proportion of one bed units to be provided in all developments going forward

The elected members of this city council call on national government to include in this year's Dublin City Council Capital Programme the necessary central exchequer funding to ensure that the Parnell Square Cultural Quarter, Dublin City Council's major flagship civic development, proceeds in its entirety as envisioned in the planning permission granted by An Bord Pleanála in May of this year, namely the entire 11,000m² development comprising a new city library, a range of cultural, education, musical and exhibition spaces and the enhancement of the public realm.

18) Councillor Cieran Perry

Submitted: 25th September 2019

That this council calls on management to ensure there are official play areas for children living in emergency accommodation. Obviously the ideal solution is to relocate those in such unsuitable accommodation to proper homes but the slow exit of families from emergency accommodation requires extra resources to be targeted at children in this predicament.

The immense health and stress related issues affecting families living in such accommodation are exacerbated by a lack of designated play areas. Some hotels and hostels ban children from the public areas restricting them to their already cramped living areas. Children deserve better.

19) Councillor Racheal Batten

Submitted: 22nd October 2019

I move this motion and ask that this Council would commit by 2024 that all new social and affordable developments will accommodate those with mobility issues and they commit to the minimum of 7% of all developments be made available for those that have mobility needs so that adults with mobility needs can live independently. The Council will also require that any development that is going out to public tender will have a requirement for at least 7% of those unit be suitable for those with mobility issues.

20) Councillor Caroline Conroy

Submitted: 23rd October 2019

To ask the Manager can we put CCTV in Parks in Dublin North West Area in particular, Albert College, Griffith Park due to the high number of robberies with assaults of bikes from young people by gangs with weapons. The community are feeling very much under threat entering parks.

21) Councillor Lawrence Hemmings

Submitted: 23rd October 2019

That this Council would write to the Minister for Housing, Planning and Local Government requesting an independent review of the Local Authority housing delivery process. The review should examine the different stages in the process and recommend any efficiencies that could be made. If the process can be improved Local Authorities will be able to hasten the building public housing, reduce the housing list and most importantly ensure that homes are provided to people in acute need.

That Dublin City Council Management see the employment & enhancement of Community Development Staff working on the ground across the City of Dublin as essential tool in developing the full capacity of our communities, that staff numbers be increased to ensure we have sufficient staff to work with & motivate various voluntary groups on the ground. I look upon areas and see when we have good staff the multiplier effect this has on the ground, these effort must be fostered going forward and sufficient resources made available for the community development staff.

24) Councillor Deirdre Heney

Submitted: 13th December 2019

That Dublin City Council would offer/make available a small/suitable type tree specimen to householders living in areas where roadside planting is unsuitable (due to narrowness of road/footpath such as "The Clans" in Donnycarney) to plant on their own property which planting residents would contribute positively to the lack of greenery in such localities.

"That this City Council after the Lord Mayor and the Mayors of the other Dublin local authorities signed up to BreatheLife WHO led campaign, will take urgent and all measures necessary to reduce air pollution in this city, as 80% of inner city households do not even own a car but are experiencing the worst air pollution levels, due to motor vehicles, as air pollution is according to WHO figures leading to 0.5 million worlds wide deaths per year and Irelands EPA estimate 1,180 premature deaths many lives and poor health could be prevented in our city".
