That this council notes a recent request by developers to allow for delivery of co-living units under the minimum 12 m/sq outlined in planning guidelines.

This council is wholly opposed to any such request and calls on the Planning Department of Dublin City Council to be cognisant of the Minister's guidelines on co-living. There should be no co-living units below the guidelines. Additionally we need to ensure that there is not an over-supply of co-living units in the city as it would be detrimental to the development of sustainable communities.

That this council calls on management to ensure there are official play areas for children living in emergency accommodation. Obviously the ideal solution is to relocate those in such unsuitable accommodation to proper homes but the slow exit of families from emergency accommodation requires extra resources to be targeted at children in this predicament. The immense health and stress related issues affecting families living in such accommodation are exacerbated by a lack of designated play areas. Some hotels and hostels ban children from the public areas restricting them to their already cramped living areas. Children deserve better.
