Item 3

Motion in the name of Councillor Nial Ring

That this Central Area Committee agrees that all entry and exit roads (listed below) to East Wall, North Strand and Ballybough are entirely unsuitable for any kind of traffic diversions necessary during the estimated 18 / 24 month construction phase through Fairview (R105) of the Clontarf to City Centre Cycleway (CCCC) The areas includes a very narrow series of roadways totally unsuitable / unsafe for through traffic and a demographic of young children and older persons. There are major traffic safety concerns in the East Wall, North Strand and Ballybough areas due to the impending construction of the CCCC and subsequent road closures and traffic diversions.

Furthermore, at the advance traffic planning stage and throughout the construction phase of the above project, DCC will, in the interests of safety, and by whatever means necessary proactively ensure North Strand and East Wall will not be used for any traffic diversions and preventative measures to eliminate rat running will be put in place prior to construction work/lane closures.

DCC will at an early stage report to the local area committee on how it intends to achieve the above mentioned traffic management.

That this Central Area Committee calls for a speed radar sign to be provided on the Navan Road as there are serious issues with speed on this road and several people have died through road accidents.

Item 8

Motion in the name of Councillors Janet Horner, Nial Ring, Darcy Lonergan, Cat O'Driscoll and Cieran Perry

That this Central Area Committee agrees that the proposed redevelopment of Dalymount Park should not be connected to, or dependent on, the sale of Tolka Park and further calls on Dublin City Council to examine all available financing sources for the redevelopment of Dalymount, including exploring EU funding streams. In addition, this area committee agrees that there should be equal access and availability of playing pitches for men/boys and women/girls and that any future development of Dalymount Park and/or Tolka Park should ensure that playing facilities for women and girls are properly safeguarded.

Item 9

Motion in the name of Councillor Colm O'Rourke

That this Central Area Committee calls on Waterways Ireland to immediately introduce a number of measures including but not limited to signage at the 9th Lock area of the Royal Canal reminding the public not to feed pigeons or other birds by order, due to the significant amounts of food and bags of seeds being left here on a daily basis by a member of the public. Measures need to be implemented due to the increase in rats it is bringing to the wider area, the excessive amounts of bird foul on the footpaths and the general nuisance caused in the 9th Lock area.
