Re: proposed 15 year lease of the former depot at Coleraine Street to Inner City Enterprise

Dear Brendan

The Department of Housing and Community Services had earmarked this property as a suitable facility (Hostel) for use as emergency accommodation for single homeless persons. However a decision was taken not to proceed as only eleven units could be achieved on the site.

The Department has also a strong role in Community Development and Social Inclusion, and a facility that will promote job and Enterprise creation in an area of social disadvantage is very welcome and in my view it can be very beneficial.

The proposal from ICE is a very worthy one in the context of this I consider such use as the best option for this site/property.
