That this traffic SPC seek a report from the traffic CEO as to the update position on traffic wardens for the Dublin City, as the Minister Eamonn Ryan fully supports this measure in order to help prevent illegal parking on our footpaths and other areas.

Order: Agreed to go to Chief Executive for further report to future SPC.

- 12.) Motion in the name of Cllr. Carolyn Moore, Cllr. Caroline Conroy and Cllr. Michael Pidgeon:

This committee calls on Dublin City Council to provide at least two traffic or community wardens on a defined trial basis and within a defined area, North and South of the Liffey, to assess the role of wardens in:

- *Helping to enforce ongoing illegal and dangerous parking in the city;*
- *Issuing FCPNs to support safer walking and cycling in the city;*
- *Issuing on the spot fines for littering and dog fouling.*
- *Having a visible presence in our communities tackling these issues would help to curb and address anti-social behaviour and provide for safer, cleaner communities.*

Order: Agreed to go to Chief Executive for further report to future SPC.

- 13.) Motion in the Name of Martin Hoey and Gary Kearney - Adopt the UN Convention of the Rights of Persons of Disabilities (UNCRPD)

Dublin city council has agreed to adopt the UN Convention on the Rights of Persons of Disabilities (UNCRPD) which Dáil Éireann adopted in 2006 and ratified in 2018. We ask that the DCC Traffic & Transport Section and its' Strategic Policy Committee implement the articles of the UNCRPD, in all its dealings and actions. That moving forward the UNCRPD is the basis, on which the transport sections plan and designs all of its work from concept .Link to UNCRPD <https://www.ihrec.ie/crpd/>

Order: Agreed

- 14.) Motion in the Name of Cllr. Janet Horner on behalf of Walking & Cycling Sub-Committee

This committee requests the traffic and transport division to investigate and bring forward a proposal on how to receive, prioritise, coordinate, implement and respond to data submitted by community groups and individuals using walking and cycling auditing tools in an efficient and effective manner. Several of these tools have been developed by partner organisations of DCC e.g. the NTA, Green Schools, Dublin Cycling Campaign and Disability Federation of Ireland and it is

important that the data is gathered and effectively responded to. The system provided by DCC should set a protocol for how responsibilities will be assigned within the traffic and transport section and how the section will coordinate with other relevant sections within DCC or relevant external bodies.

Order: Agreed for further report to future SPC.
