RE: HPLG-MOBO-00327-2022

Dear Mr. Ryan,

I refer to your recent correspondence regarding the issue of rent arrears being accrued by tenants of Dublin City Council and your query regarding the commencement of section 53 of the Housing (Miscellaneous Provisions) Act 2014, which provides for the deduction of local authority rent, etc., by the Minister for Social Protection.

The Department is cognisant of the consistent problems arising as a result of rent arrears across the country. While it is acknowledged that a (direct) deduction at source facility would have the potential to prevent rent arrears arising in the first instance, such a facility relies on the development and implementation of a national standardised rents system.

Housing for All and the *Programme for Government* commit to introducing a standardised national differential rents system to ensure, among other things, fairness for tenants across all local authority areas. The Department is currently considering several alternatives to the current system of the different local authority rent schemes and expects to bring proposals to Government for consideration in Q2 2022.

A working group has been established, with representatives from the Department, the Department of Social Protection, the LGMA and the CCMA, to examine the feasibility of introducing a system of direct deduction from source for local authority rent payments. The matter is still being considered by the working group.

The points you raise in your correspondence have been noted.

Yours sincerely

Niamh Redmond
Private Secretary
