Subject: Motion for the Economic SPC

Hi Marilyn

I have drafted a motion for the next SPC. Its outlined below.

Odran

Motion

The Economic and Enterprise SPC seeks to have a comprehensive briefing from Eirgrid, their extensive programme of works planned for Dublin between 2024 and 2030 which will upgrade the electric network in the city from its current perilous position.

Eirgrid are planning significant works which will

- Facilitate the extensive use of renewable energy on the network;
- Address the current perilous position in the city in relation to the capacity of the existing network's capacity
- Severely disrupt parts of the city over a six year period with essential infrastructure provision
- require extensive multi agency cooperation including Dublin City Council

Strategic decisions will need to be made by the City Council to facilitate a speedy roll out of this infrastructure, while simultaneously assisting affected communities and economic activity in the City. It offers an opportunity through multi agency cooperation to advance the citys existing infrastructure in multiple areas.
