

**To the Chairperson and Members
Of the Central Area Committee**

11th October 2022

Report to October 2022 Central Area Committee on Martin Savage Park

At the July 2022 Central Area Committee meeting a report was presented and discussed on the outcome of a public consultation in relation to proposals for the above park. The report included recommendations to the Area Committee that were agreed.

A workshop to discuss the thoughts and ideas of the local community and park users as to the future development of the park has been organised for the 12th October. A meeting was also held recently on site with Oliver Plunketts GAA Club and Phoenix FC to discuss the recommendations of the July 2022 report.

In the July 2022 report it was recorded that the submissions received from the consultation process broke down as follows:

708 no. submissions in favour of proposal
87 no. submissions against proposal
20 no. submissions offered suggestions only

When these figures were compiled they did not include a later petition of letters from the Martin Savage Park Development Residents Group. Taking into account some duplication of submissions the total figures for submissions is as follows:

709 no. submissions in favour of proposal
202 no. submissions against proposal
20 no. submissions offered suggestions only

The outcome of the meetings with the local community, park users and the clubs will be reported back to the Area Committee meeting in due course.
