

Edenmore Safety Forum

This year has seen the resumption of the Edenmore Safety Forum

The meetings were held on the 24th of May and the 13th of September at 11am in St. Monica's Youth Centre. Both meetings were well attended and a list of actions were established for DCC to follow. Some of these actions include the installation of additional bins outside Edenmore Park and the Sensory Garden and new planters placed in Cameron Park and Woodbine Park.

Representatives from the three primary schools in Edenmore (St. Eithne's GNS, St. Malachy's BNS School and St. Monica's Infant Girls) attended the September meeting to discuss the issue of illegal parking at school drop off and collection times. This was followed up with a site meeting with the three School Principals on the 21st of September. The North Central Area are currently in the process of sourcing additional signage and planters for the schools and engaging with internal departments to get road markings repainted and additional disabled parking spaces for outside St. Malachy's school. The next meeting is scheduled for Tuesday the 15th of November.

Sheila Duffy, Senior Staff Officer
