## Community Grants Scheme 2022

---

On an annual basis, Dublin City Council provides financial support through once-off local and city-wide community grants with a particular emphasis on community development and social inclusion to a range of resident, community, environmental and festival groups. This report provides a summary overview and outcome for the 2022 scheme.

The Community Grant budget 2022 was approved by the City Council as part of the annual budgetary process. Community Grant 2022 application process opened in late spring and closed on 22<sup>nd</sup> July 2022. A total of 666 applications were received via our online application system. Following assessment, 518 grants were recommended for payment. In addition, applications were received for the Tom Clarke Bridge grants scheme whereby applications are restricted to specified neighbourhoods areas in the Central and South East Areas. Following their assessment 84 grants were recommended for payment.

All applications were assessed in the context of available finance, value to the community and compliance with the relevant policies and objectives of the Council and in particular with relevance to the city's Community Development action plans at local level and all relevant strategy regarding social inclusion and integration.

DCC Area Committees received a detailed report on all recommended grantees for approval in November 2022. These are set out in Appendices 1 to 5. City-wide Social Inclusion grants are detailed in Appendix 6.

Following adoption at each Area Committee, DCC began to issue payment to grantees. Administrative challenges in delivery of payments emerged due to ongoing changes in Irish retail banking services and the impact of current accounts being closed with Ulster Bank and KBC Bank and the transfer of accounts to new providers.

In anticipation, all approved grantees were required to update and confirm their banking details *via* return of a completed and verified EFT form. Upon receipt, payment to grantees issues forthwith. There has been a high rate of return and no undue delay is reported in payments to grantees.

The administration of our Community Grants scheme remains under review and is subject to new proposals under development with DCC Transformation on developing an online digital application and support process with attention to meeting the support needs of potential applicants related to literacy and numeracy, language and digital skills and competencies.

Also required is targeted support for applications from persons and groups with no access to digital and online resources.

The final value for Community Grants made for 2022 is €1,036,430. As set out in Table 1 below, this comprises €340,077 for local area Community Grants, €15,900 for Informal Adult Education projects, €240,000 for the Tom Clarke Bridge Grant Scheme, €140,000 for Summer Projects and €300,453 for City Wide and Social Inclusion Grants.
