Comhairle Cathrach  
Bhaile Átha Cliath  
Dublin City Council

# THE SOUTH CAMPSHIRE PUBLIC REALM AND FLOOD DEFENCE DEVELOPMENT

## Site Location

Non Statutory Public Consultation Workshop

10th November 2022

Comhairle Cathrach  
Bhaile Átha Cliath  
Dublin City Council

Figure 1 - Aerial Photograph of the site looking East

Figure 2 - Aerial Photograph to the site looking West

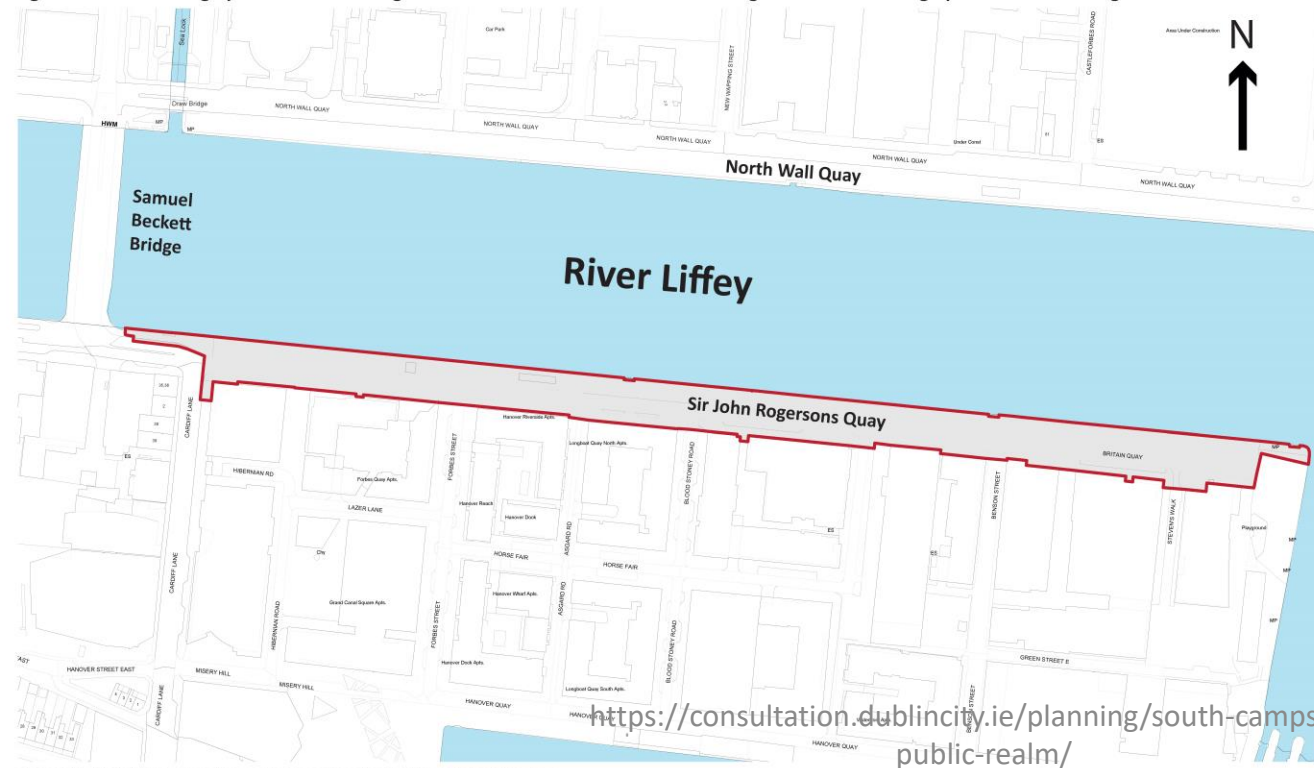

Figure 3 - Site Plan showing extents of project site outlined in Red

The project aims to deliver a high-quality integrated public realm for the City that protects and enhances the area whilst also providing key infrastructure improvements along one of the primary civic spaces within the city. Broadly, the project aims to:

- Improve the provision of active travel infrastructure (both walking and cycling)
- Improve biodiversity through the provision of landscaping, mature trees etc.
- Incorporate a flood defence wall and seating.
- Facilitate the docking of vessels to maintain the area's maritime connection.
- Provide new public lighting design, civil infrastructure and district heating.

This non-statutory public consultation and workshop event is aimed at gathering local knowledge at an early stage in the preliminary design process which will inform the development of the Project.
