## INTRODUCTION

The Zebra Crossing Working Group is a sub group of the Transport SPC and was set up with the objective to support informed policy and decision making by looking at safer alternative Zebra Crossings designs.

The proposed work programme of the group was to hold 4 meeting and to report back to the SPC with a final report to the full City Council. The membership of the group is as follows:

- Gary Kearney, PPN;
- Colm Ryder, Dublin Cycling Campaign;
- Cllr. Caroline Conroy (Lord Mayor);
- Cllr. Janet Horner (Elected to chair working group by the members);
- Cllr. Carolyn Moore;
- Karen Hosie, Senior Transportation Officer ITS Section Dublin City Council.

## CURRENT REQUIRMENTS

At the initial meeting of the group, details in relation to the then current Irish legislation (from the Traffic Signs Manual) for the requirements of a Zebra crossing were discussed. The relevant excerpts from the Traffic Signs Manual are as follows:

- Zebra Crossings, are pedestrian crossings marked by flashing amber beacons, alternate black and white stripes across the road, and other road markings. Vehicles must stop if there is a pedestrian on the crossing. They are not signalised crossings but are considered controlled crossings.
- Zebra crossings are not normally considered suitable for roads with a maximum speed limit greater than 50km/h, or where there is more than one lane in each direction (unless a refuge island is provided).
- The Pedestrian Crossing Beacon consists of an internally illuminated globe mounted on a post; it is used to indicate the presence of a priority-controlled (Zebra) pedestrian crossing. The beacon must be provided on both sides of the road (and on refuges where present) in conjunction with the Pedestrian Crossing road markings.
- The beacon shall consist of a spherical globe approximately 300mm in diameter, yellow in colour and mounted on a post between 2.1m and 4.2m high. The beacon shall be lit internally with a flashing yellow light, flashing at between 35 and 45 flashes per minute.
- A pedestrian crossing should be located where pedestrians are most likely to use it and where it does not confuse or cause conflict for vehicular movement. The minimum recommended distance between uncoordinated mid-block pedestrian crossings, or between a pedestrian crossing and an uncoordinated signal-controlled junction is 100m. Adequate footway capacity should be provided at each end of the crossing for assembly and dispersal.
- Crossings should be located away from conflict points at uncontrolled junctions, and care should be taken when siting close to roundabouts.
- Minimum distances for drivers' visibility of signals controlling a pedestrian crossing are the same as for other Traffic signals.

- The guiding principle regarding the visibility of signals is that a driver must have a clear view of at least one signal head on approaching the crossing and when stationary at the Stop Line.

There are currently three Zebra Crossing locations within the DCC area which are maintained by DCC.

Since the start of the working group the Department of Transport has implemented a trial at a number of locations of installing Zebra crossing with no flashing beacon and signage only. DCC did not participate in this trial.

#### POTENTIAL OPTIONS TO BE CONSIDERED

The main options discussed by the group in relation to the installation of Zebra crossings related to two main areas:

- Universal access
- The cost of installation

In relation to universal action the issue was raised by members of the committee in relation to the current operation of a zebra crossing is based on the principle that a vehicle should yield to a pedestrian that has stepped off the kerb and is starting to cross. Some members of the community who cannot make physical eye contact with approaching vehicles may be unsure when to step off the crossing. To address this issue the group agreed that initially Zebra Crossing would not replace signalised crossing on vehicle trafficked streets and also that traffic calming measures such as crossing on a raised platform, for slowing vehicles on the approach to should be implemented where possible.

The other main issued discussed related to the cost of installation. Initial costing were carried out based on a universal design for the installation of mains powered and solar powered crossing with and without a crossing ramp. In all cases the cost of installation is approximately half the price of installing a signalised pedestrian crossing.

Please note for the cost of installation with the ramp an estimation was given in relation to the cost of additional works required for drainage around the ramped area. Each site will depend on the distance to the nearest DCC gully.

Figure 1 Current DCC Zebra Crossing Donnybrook

Figure 2 Newly upgraded Zebra Crossing in DLRCC – Mains powered with raised platform

Figure 3 Newly upgraded Zebra Crossing in DLRCC – Solar powered without raised platform

## GROUP CRITERIA

Following on from a number of discussions on the merits and types of Zebra crossing were discussed the group agreed on the following criteria for selection of locations for Zebra Crossings:

- Good visibility on approach;
- Volume of traffic should be sufficiently low and if possible with other traffic calming in the area;
- Two lanes maximum (one lane in each direction or two lanes on a one way street);
- For visibility of pedestrians no parking for 10m each side of the approach and 5m after;
- Ramped crossing where possible;
- On road of a speed of 50km/hr or less;
- Not at a location of an already signalised junction in a trafficked area;
- A speed survey should be carried out before final approval;
- A review of the site should be carried out post installation;
- Assess the need for the supplementary crossing in terms of existing and potential usage;
- Consider the distance to the nearest signalised crossing.

## POTENTIAL OPTIONS TO BE CONSIDERED

A number of possible locations were provided by members of the committee, (please see below a map of the locations). The sites have been divided into three categories, possible locations, rejected locations and rejected locations as traffic signals are planned for the location. Appendix I also lists all locations and details the category assigned to each location.

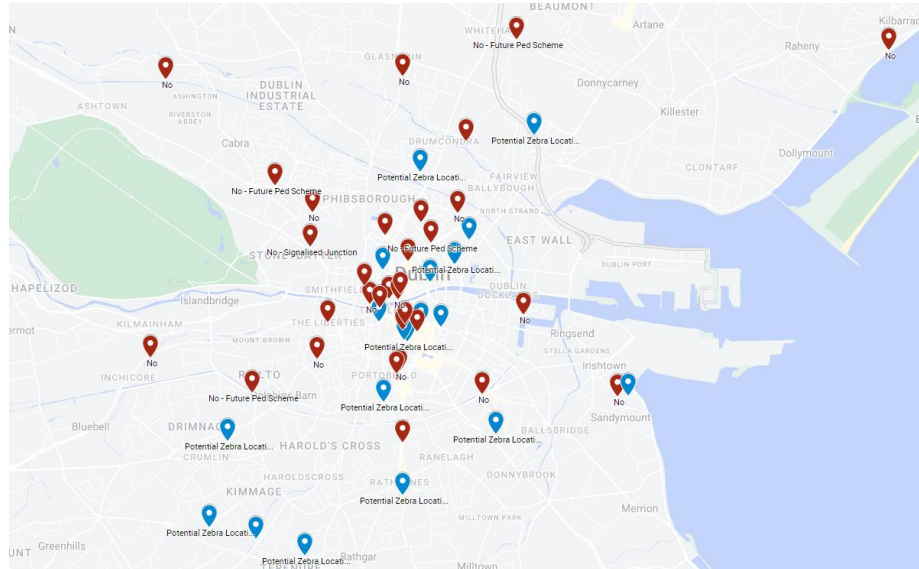

Figure 4 All Locations provided by members of the group

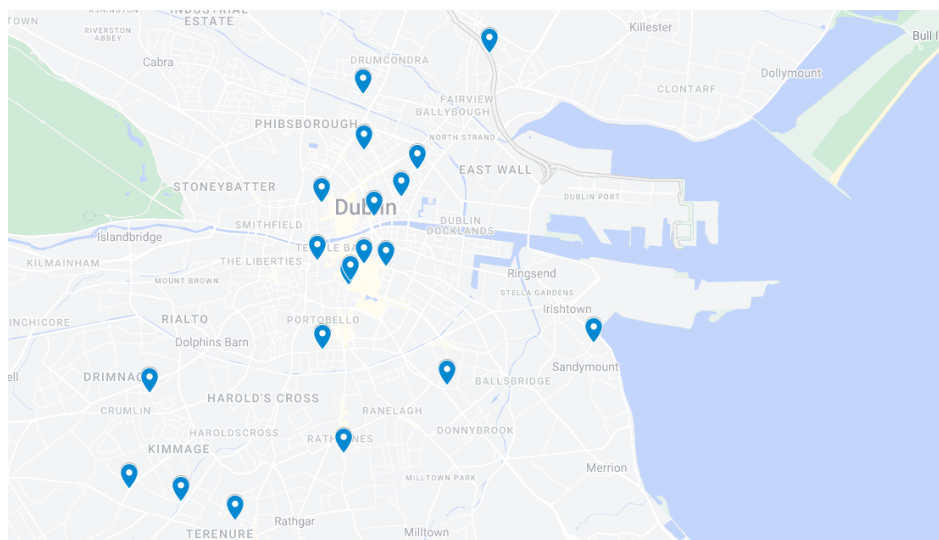

Figure 5 Locations which meet the group criteria

## RECOMMENDATIONS

Following a final review of the locations which passed the committee's criteria, a priority list for the first set of sites to be further developed was voted on by the committee members.

The recommendations of the Zebra Crossing Working Group are as follows:

- The city council should begin again to install zebra crossing at locations where they meet the criteria detailed in this report
- For the first 5 zebra crossings installed a review six months after installation should be carried out including costing versus the installation of a signalised crossing, and a before and after speed survey be carried out
- For this initial batch a report will be issued to the SPC detailing the level of success and a request to continue the roll out of new sites
- Assess further the thirteen zebra crossing locations shown below in relation to producing a detailed design
- In conjunction with the roll out of new zebra crossing an awareness campaign should be launched to remind members of the public of the operation of zebra crossings

Figure 6 First thirteen sites to be investigated

## NEXT STEPS

The next steps as recommended by this committee are:

- Advance to detail design stage the thirteen locations as recommended by members of the committee;
- Seek funding for the installation of zebra crossing (internal or external).

Thanks to all of the members of the committee and the staff of the executive for all of their input.

---

Councillor Janet Hornet

Chairperson

## APPENDIX I- ALL POSSIBLE LOCATIONS

Location Name	Google Map Reference	Comments-Present system	Lat	Long	Yes/ No /Maybe	Comment (DCC)
Annamoe Parade, on North Circular Rd	<a href="https://goo.gl/maps/fkww8zzaoy51nfYr5">https://goo.gl/maps/fkww8zzaoy51nfYr5</a>	No one uses the signalled traffic lights 150metres up the road. Too far away from entrance to TUD	53.357972	-6.285111	No	There is a pedestrian crossing approximately 100m from this location
James Larkin Road R807	<a href="https://www.google.ie/maps/@53.3796421,-6.155583,3a,75y,244.05h,75.46t/data=!3m6!1e1!3m4!1sdPD9HMQZ6E5pbM2licRVow!2e0!7i16384!8i8192">https://www.google.ie/maps/@53.3796421,-6.155583,3a,75y,244.05h,75.46t/data=!3m6!1e1!3m4!1sdPD9HMQZ6E5pbM2licRVow!2e0!7i16384!8i8192</a>	No crossing on coast road with bus stop access required at pedestrian access from Fox's Lane - 60kph speed limit?	53.3796421	-6.155583	No	The speed limit at this location is over 50kmph (60kph Speed limit)
80-96 Sandymount Rd	<a href="https://www.google.ie/maps/@53.333272857963586,-6.216613820352365">53.333272857963586, -6.216613820352365</a>	Safe Crossing needed at major Tesco store	53.33327286	-6.21661382	No	This location is beside a bus stop and a line of on street parking
Royal Canal Avenue in D15	<a href="https://goo.gl/maps/wBhPPbtYJN6G9L5u6">https://goo.gl/maps/wBhPPbtYJN6G9L5u6</a>	access to and from Canal walkway/towpath across roadway	53.375752	-6.3179664	No	Currently this area has not been fully taken in charge by DCC
Camden St at Fresh/Wowburger.	<a href="https://www.google.ie/maps/@53.3366379,-6.2655209">53.3366379, -6.2655209</a>	No way of crossing between intersection of Pleasant's St and Kevin St	53.3366379	-6.2655209	No	There is on street parking on one side of the roadway
R111 Mespil Road - possible 2 locations	<a href="https://t.co/Y3u41gvkkZ">https://t.co/Y3u41gvkkZ</a>	50kph speed limit - access to canal path	53.33352191	-6.247003127	No	On street parking along the length of the roadway
South William Street at Powerscourt centre	<a href="https://goo.gl/maps/cY1qUN8finwgw8J99">https://goo.gl/maps/cY1qUN8finwgw8J99</a>	major pedestrian crossing point at Coppinger Row	53.3421854	-6.2647178	No	Further review required in relation to possible future plans for the area
Clarendon St at Coppinger Row			53.34191583	-6.261446097	No	Further review required in relation to possible future plans for the area
Ormond Street junction with Cork Street beside Weaver Park	<a href="https://goo.gl/maps/8G6fkZw3LNWWq5u6A">https://goo.gl/maps/8G6fkZw3LNWWq5u6A</a>	Provide safer Access to Park	53.338221	-6.2840313	No	Two lanes of traffic in each direction

Thomas Davis Street West at t Vincents Street West	<a href="https://goo.gl/maps/PMdn7o6e8Kd5WJbb9">https://goo.gl/maps/PMdn7o6e8Kd5WJbb9</a>	busy traffic area in 30kph zone	53.338436	-6.3214143	No	Very wide junction – Further traffic calming works would need to be carried out
Charles Street Great at North Circular Road			53.35784857	-6.252472275	No	More than one lane of traffic in each direction
Sandymount Green/Sandymount Road	<a href="https://goo.gl/maps/XkpvzeE4GGLrDE2n9">https://goo.gl/maps/XkpvzeE4GGLrDE2n9</a>	treacherous crossing in busy traffic area	53.3565599	-6.2605827	No	Two new signalised pedestrian crossing were added in 2021
St Chancery Pl/Inns Quay	<a href="https://goo.gl/maps/d8J1pYzAvyUQLE7KA">https://goo.gl/maps/d8J1pYzAvyUQLE7KA</a>	Problematical?	53.345651	-6.272245	No	This location is currently been reviewed as part of an Active Travel Scheme
Junction of Distillery Road at Clonliffe Road	<a href="https://goo.gl/maps/AXtZ9ckvk45taUoQ8">https://goo.gl/maps/AXtZ9ckvk45taUoQ8</a>		53.34629146	-6.265745829	No	Parking on both sides of the roadway
Bottom of Fishamble Street at Wood Quay	<a href="https://goo.gl/maps/A4iYmhPmpJteeAAh7">https://goo.gl/maps/A4iYmhPmpJteeAAh7</a>		53.3450706	-6.270001547	No	Visibility of turning vehicles and there is currently a plan to make the street one way
junction of Great Strand St and Millennium Walkway	<a href="https://goo.gl/maps/c9n3PxeJ1QZrpUdX9">https://goo.gl/maps/c9n3PxeJ1QZrpUdX9</a>		53.34692845	-6.265214481	No	There is already an existing zebra crossing here
Hanover Quay at Herb Street restaurant, Grand Canal Dock	<a href="https://goo.gl/maps/Zvn872thhQKLWKyf7">https://goo.gl/maps/Zvn872thhQKLWKyf7</a>	Problematical? Low traffic?	53.34422748	-6.237611805	No	Raised platform for traffic calming already in place / raised table
Homefarm road at Mobhi road Dublin 9	<a href="https://goo.gl/maps/3DLNDy2x6JVctQ3K9">https://goo.gl/maps/3DLNDy2x6JVctQ3K9</a>	close to schools and sports ground	53.376178	-6.264699	No	The current cycle way is on the footpath which may cause some issue
Camden row and Camden/Wexford street	<a href="https://goo.gl/maps/UYtFyrQV8CmLP7m49">https://goo.gl/maps/UYtFyrQV8CmLP7m49</a>	busy turning traffic	53.3363076	-6.2662156	No	Road Treatment already in place
Mary's Lane, junction with Greek St	<a href="https://goo.gl/maps/ps5m6ih3PDe559jZ8">https://goo.gl/maps/ps5m6ih3PDe559jZ8</a>	very busy south-north 'rat run'	53.348056	-6.273306	No	Nearby Pedestrian crossing to be installed in 2023 under the TAG team
Moore Street @ Parnell Street	<a href="https://goo.gl/maps/fwCyR6Db51aeZzsT7">https://goo.gl/maps/fwCyR6Db51aeZzsT7</a>	Busy ped area	53.351337	-6.263599	No	This location is at a signalised junction
