**Subject:** CNFE Praise for our German members

Dear Mayor, dear Councillor, dear colleague,

Germany has made an historic step by closing its last nuclear plants last month. It was long announced and prepared, but until the end, and beyond that, strongly criticized. But the German government kept their word.

Our Chairman, Jürgen Czernohorszky, has written a congratulation letter to the German Bundeskanzler Olaf Scholz and to climate-minister Robert Habeck. (see attachment) With this letter CNFE's chairman wants to express his respect and support for the German step. Among all the loud criticism of the nuclear lobby, we want to demonstrate support and agreement.

**Through this letter, our chairman also congratulates our German member cities: Bottrop, Dortmund, Düsseldorf, Frankfurt, Hannover, Heidelberg, Ludwigshafen, München, Nürnberg, Reutlingen, Saarbrücken, Stuttgart, and Viernheim. With their many years of dedication and commitment, they are important pioneers for this step.**

CNFE will continue to work in the future to ensure that many other countries follow the German example as soon as possible, so that our common goal of a nuclear-free Europe can be achieved.

We thank you, our members, for your support.

Jan Dictus

Secretariat Cities for a Nuclear Free Europe
