

DRAFT NATIONAL WASTE MANAGEMENT PLAN FOR A CIRCULAR ECONOMY

A Waste Action Plan for

a Circular I

Ireland's Nation 2020-2025

Working with the Regional Waste Management Planning Offices and the City and County Management Association we will replace the existing Regional Waste Management Plans with a National Waste Management Plan for a Circular Economy containing targets for:

- Reuse
- Repair
- Resource consumption
- Reducing contamination levels

MATERIAL STREAMS

INFRASTRUCTURE

Focus Area Fact Sheets

FOCUS AREA 1 MUNICIPAL COMMERCIAL WASTE

Purpose

Promote prevention and better segregation of commercial waste.

Targeted Policies

TP1.1

Identify and promote new means, methods and key drivers of sustainable consumption practices to reduce waste generation.

TP1.2

Ensure that all non-household municipal waste settings adopt best practice on waste segregation and are serviced with a segregated waste collection system to maximise the quantity and quality of materials collected.

TP1.3

Strengthen the monitoring and accurate measurement of non-household municipal waste flows.

TP1.4

Implement appropriate engagement and /or enforcement measures in response to noncompliances identified.

TP1.5

Promote the consistent application of an appropriate incentivised charging system for non-household municipal waste, through awareness and enforcement.

What is it?

Municipal commercial waste is mixed waste which is similar in nature and composition to waste from households and includes food waste.

Priority Actions (Responsibility)

PA1.1 (LAS)

Develop and deliver targeted awareness campaigns and projects to improve behaviours on prevention, reuse and repair in non household settings.

PA1.2 (LAS)

Enhance the capture of data from waste collectors for non-household settings through the National Waste Collection Permit Office.

PA1.3 (LAS/Ind.)

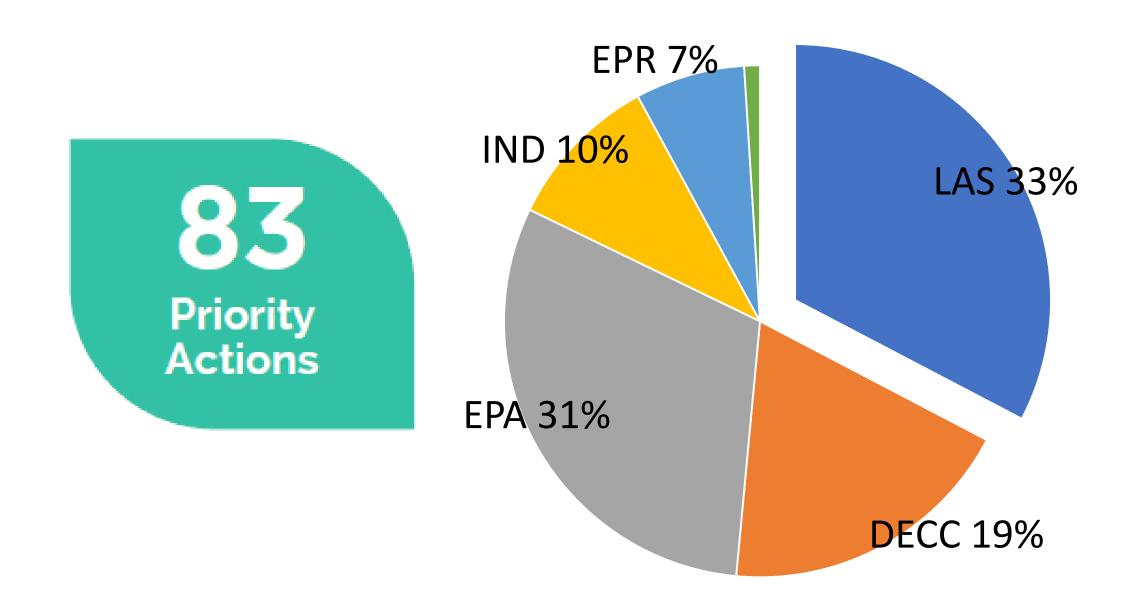

Investigate the potential for a sustainable waste management assurance scheme for business consistent with the transition to a circular economy.

PA1.4 (LAS)

Engage with businesses through local authority structures to promote consistent practices with regard to the management of commercial waste using measures including the MyWaste.ie business tools.

PA_{1.5} (LAS)

Ensure the consistent and targeted application of waste storage and presentation bye-laws to improve participation and segregation practices and incorporate into the RMCEI process.

KEY DELIVERABLE 25

National Coordinating Group for Waste and the Circular Economy

establish the NCGWCE to agree and align work plans, priorities, and supports to maintain the continuity of activities and accelerate the transition to a circular economy.

KEY DELIVERABLE 35

Communications Strategy - Implementation

It is anticipated that an additional €1M will be required annually from government to implement the Circular Economy Communications

KEY DELIVERABLE 36

Regional Circularity Resource

The LAS will facilitate the provision of a regional circularity resource/s

KEY DELIVERABLE 37

Local Circularity Resources

The LAS will facilitate the provision of local circularity resource/s to

KEY DELIVERABLE 38

Regulation

Additional Investment in the NWCPO will be required from government to deliver incentivised charging for

KEY DELIVERABLE 39

Public Investment

The LAS is committed to facilitating reuse and circularity through the CA site network however significant support will be required from government to achieve this outcome.
