Date: 21 August 2022

Dear Director of Services,

We the residents of ANNADALE DRIVE, MARINO wish to apply to you to extinguish the public right of way over the laneway located at off Annadale Drive.

The reason we would like to close the laneway is for security, health and safety (drug use, littering, etc).

We propose to close the laneway using gates with a coded padlock and we agree to supply the code for the lock to all service providers/utility companies that require access to maintain any plant located in the laneway. We will also ensure that all residents abutting the laneway are given the code for the lock. We will ensure that the gates do not exceed 2 meters in height.

We the residents abutting the laneway agree to take responsibility for the laneway once the extinguishment of public right of way is complete and we are fully aware that this means we are responsible for the ongoing upkeep and cleaning of the laneway into the future.

We the residents give a commitment to DCC to undertake the cost of the closure of the laneway which includes paying for the gates, installation of the gates, locks and the cost of diverting services in the laneway if this is required.

I enclose a petition with a majority of residents in favour of extinguishing the public right of way over this laneway and a map highlighting the exact location that we propose to erect the gate/gates.

Yours sincerely,
