Q.1 Question in the name of Councillor Racheal Batten

“To ask the Area Manager can he look at the tree stump outside **(details supplied)** and see can it be removed as it is a hazard.”

Reply

Parks services have a record of this tree stump outside 55 **(details supplied)**. Our general policy to leave stumps 1m in height to avoid being a trip hazard or been hit by drivers while parking. Stumps are removed when they have degraded enough to allow for their safe removal without damaging surrounding infrastructure. This process can take a number of years. This stump will be examined in the coming weeks to determine if it is ready for removal ahead of tree orders for upcoming winter planting programme in the area.

Q.2 Question in the name of Councillor Racheal Batten

“To ask the Area Manager to arrange a proper cut of the grass area across from Beaumont Grove as it is very poor and there is concerns of rodents.”

Reply

The area is maintained by contract and the issue was raised with the contract manager who has advised that access to the open space was blocked for a good number of weeks by a skip. It is understood that this has now been removed and routine maintenance has re-commenced.

Q.4 Question in the name of Councillor Racheal Batten

“To ask the Area Manager to arrange to cut the grass verges along Collins Avenue between Swords Road and Ballymun Road, large portions are not outside private houses and looks disgraceful.”

Reply

The sections of large verges along Collins Ave. which are not directly outside homes are on contract and are routinely maintained. A short section near the entrance to Albert College estate had been missed on original mapping but has now been incorporated and will be included in routine maintenance going forward. It is understood all the verges under contract here have been recently cut.

Q.5 Question in the name of Councillor Racheal Batten

“To ask the Area Manager to provide an update on putting the Beaumont Drive In on the vacant building list and confirm if fees have been applied.”

Reply

This site is not on the Vacant Sites Register and therefore has not accrued any vacant sites levies. However, it was identified as a site that met the criteria under the Residential Zoned Land Tax (RZLT) which was introduced in the Finance Act 2021.

The purpose of this new tax is to activate land for residential purposes and will in time replace the Vacant Site Levy. The RZLT is an annual tax, calculated at a rate of 3% of the market value of land and will be collected by the Revenue Commissioners. Lands that are determined to be in scope will be liable for this tax measure in February 2024.

Dublin City Council has determined to include this site on the final RZLT map on the basis that it constitutes land satisfying the relevant criteria as set out in the Act.

On 1st December 2023, Local Authorities will publish final maps which reflect outcomes of submissions and appeals and any zoning or servicing changes which have taken land out of scope or brought land within the scope of the tax. The final map will form the basis for the administration of the tax measure by the Revenue Commissioners.

Q.6 Question in the name of Councillor Jane Horgan Jones

“To ask the Area Manager to install some additional litter bins in St. Anne’s Park – with the good weather the litter problem seems to be worse lately. Can litter wardens also please have an additional presence in the area and additional signage be installed to remind people of their responsibilities”

Reply

The Litter Wardens based in the North Central Area patrol St Annes Park on a regular basis. They will deal with any litter offences they observe under the Litter Pollution Acts, 1997.

Contact: Stephen Kavanagh
Tel: 222 4286
Email: stephen.kavanagh@dublincity.ie

There are 49 bins in St. Anne’s Park which are regularly serviced during Park opening hours including weekends. It is impossible to be more than a few meters from a bin in the main high traffic areas of the park. The volumes of waste collected in the Park through these bins is staggering but indicates that the vast majority of Park visitors dispose of their waste appropriately. However it continues to disappoint that certain patrons will not use one of the dozens of conveniently located bins in the park.

Q.7 Question in the name of Councillor Jane Horgan Jones

“To ask the Area Manager to liaise with Iarnród Éireann and ask them to improve their cleaning schedule in Harmonstown DART station which is frequently littered”

Reply

Iarnród Éireann's cleaning contractor attends to Harmonstown Station on a daily basis, to maintain high standards of cleanliness at the station. We will liaise with our contractor to ensure standards are maintained.

We do understand that there are litter issues with the laneway adjacent to the station, connecting Ennafort Road with Brookwood Rise / Harmonstown Road. However, this laneway is not Iarnród Éireann property, and is in the charge of the city council.

Contact: Barry Kenny, Corporate Communications Manager, Iarnród Éireann

Q.9 Question in the name of Councillor Jane Horgan Jones

“To ask the Area Manager to consider additional measures to stop illegal parking on Harmonstown Road – people continuously park on the path here. Can signage asking people not to park on the paths and/or double yellow lines be installed”

Reply

It is not recommended to install parking restrictions, such as providing double yellow lines where restrictions are already covered under the law.

Under The Road Traffic (Traffic & Parking) Regulations, Section 36 paragraph (2); a vehicle shall not be parked:

(i) on a footway, a grass margin or a median strip;

Any instances of illegal parking should be reported to the Gardaí or Dublin Street Parking Services (Tel no. 01 602-2500) or email info@dsps, for enforcement under the Regulations.

DUBLIN CITY COUNCIL
NORTH CENTRAL AREA COMMITTEE
17th July 2023

Q.11 Question in the name of Councillor John Lyons

“To ask the Area Manager for a report on the housing file of **(details supplied)** who is at risk of becoming homeless very soon.”

Reply

The applicant is currently on the housing waiting list in Band 2 (overcrowding) for one bedroom accommodation with the following position:

- 26 for one bedroom accommodation in Area B (Artane, Priorswood, Coolock, Donnycarney, Killester, Raheny, Darndale, Kilmore, Beaumont, Donaghmede, Edenmore, Marino, Clontarf, Kilbarrack)

Dublin City Council are allocating properties based on time on the list and currently there are applicants on the Waiting List of longer standing who have to be considered as suitable vacancies arise. It is not possible to indicate accurately the prospect of an offer for any applicant. The number of vacancies arising will be a determining factor in the length of time applicants could expect to be on the waiting list. The applicant informed housing allocations in January 2023 that they were interested in bedsit accommodation which has been noted, having previously refused the offer of bedsit accommodation.

Q.12 Question in the name of Councillor John Lyons

“To ask the Area Manager for a report on the housing file of **(details supplied)** who is at risk of becoming homeless, has three young boys and is currently due a fourth child in September”

Reply

The applicant is currently on the housing waiting list in Band 2 (overcrowding) for three bedroom accommodation with the following position:

- 118 for three bedroom accommodation in Area B (Artane, Priorswood, Coolock, Donnycarney, Killester, Raheny, Darndale, Kilmore, Beaumont, Donaghmede, Edenmore, Marino, Clontarf, Kilbarrack)
- 56 for three bedroom accommodation in Area H (Ballybough, North Strand, Summerhill, Sheriff St.)
- 40 for three bedroom accommodation in Area P (Church St, Ormond Quay, North King St, O'Devaney Gardens, Chancery St)

The applicant received a notice to quit which was deemed invalid by Threshold. They have been referred back to their landlord to request a revised NTQ bearing the correct termination period. Once this has been received and validated, the Family Support Team can begin the process of assessment for the Homeless HAP payment. They should also check all 3 bed properties in Areas B, H, and P advertised through Choice Based Lettings.

17th July 2023

Q.13 Question in the name of Councillor John Lyons

“To ask the Area Manager for a report on the housing file of **(details supplied)** and the likelihood of a transfer due to the ongoing anti-social behaviour on the road.”

Reply

The applicant is currently on the housing waiting list in Band 2 (overcrowding) for two bedroom accommodation with the following position:

- 149 for two bedroom accommodation in Area B (Artane, Priorswood, Coolock, Donnycarney, Killester, Raheny, Darndale, Kilmore, Beaumont, Donaghmede, Edenmore, Marino, Clontarf, Kilbarrack
- 60 for two bedroom accommodation in Area D (Ballymun, Poppintree, Santry)
- 81 for two bedroom accommodation in Area H (Ballybough, Phibsborough, Dorset St, Dominick St, East Wall, North Strand, Summerhill, Sheriff St)

Dublin City Council are allocating properties based on time on the list and currently there are applicants on the Waiting List of longer standing who have to be considered as suitable vacancies arise. It is not possible to indicate accurately the prospect of an offer for any applicant. The number of vacancies arising will be a determining factor in the length of time applicants could expect to be on the waiting list. All Anti-Social Behaviour should be reported to the Project Estate Officer in the Local Area Office.

Q.20 Question in the name of Councillor Alison Gilliland

“To ask the Area Manager for an update on the analysis of green spaces in **(details supplied)** area that would be suitable for a new all-weather football pitch?”

Reply

There are only a small number of open spaces within Kilmore West that could accommodate a full scale facility and each has significant challenges. These are located at Oscar Traynor Road, Kilmore Drive and Dundaniel Road. The Scott Cawley data of 2017 for Kilmore has identified both the Oscar Traynor Football Pitches and Kilmore Drive open space as sites of high significance for Brent geese, a protected species, and Dundaniel Road open space is also marked as a feeding site. As well as Part 8 planning permission, a project of this type will also require an Appropriate Assessment Screening done by a qualified ecologist in relation to the Geese and any other protected species. Up to date survey data will be required as part of this screening process ideally gathered over two seasons.

The Oscar Traynor Road site as well as being an important feeding site for Geese is located on the Santry River where bats and otter holts have also previously been recorded which are further protected species that will have to be considered as part of the Appropriate Assessment Screening of any proposals here. Surveys will be required to identify any bat roosts in the vicinity of the proposals. The smaller of the 2 open spaces is not wide enough to accommodate a full sized facility. The footprint of a full sized facility on the larger space would represent approximately 14% of the entire open space. However the percentage loss to the geese as feeding area could be significantly higher as geese will not feed across the whole site as they avoid treelines and any other barriers that might prevent a clear view of approaching predators and would not feed in proximity to a new all-weather facility. Ultimately it may not be possible to mitigate the potential impacts on the protected wildlife species from such a development at this sensitive riparian location.

The footprint of a full sized facility on the open space at Kilmore Drive, also identified as an important feeding site for Brent Geese would represent just over 30% of the entire open space however depending on how this is sited within the open space the impacts on the geese could be even more significant and could render the site unattractive as a feeding site. The site is located within a residential estate and a development of this nature will represent a significant change of use of the residential open space introducing night time activity, lighting, noise, traffic and parking.

The open space at Dundaniel Road while just large enough for a full sized facility also presents a number of challenges aside from the geese. At just under 50% of the available space with little screening on site such a facility would be highly visually intrusive. While the length of this open space at 200m approx. is more than adequate to accommodate a full-sized facility the width is more problematic. The recommended width of a full-sized all-weather facility is 70m (64m playing surface and 2 X 3m run-off). The open space is 88m wide which will place the fencing and floodlighting less than 10m from the edges of the open space and less than 35m from the front of the properties at Castletimon Green. This is significantly closer to housing than any similar facility in the area. With no screening between the lighting and the housing this development would have a significantly impact on the residential

amenity of these homes. This is a very busy commuter route and the nearest dedicated pedestrian crossing is over 300m away at the junction with the Oscar Traynor Road. Parking is also a significant factor here. It is a source of ongoing frustration locally at the levels of day time parking in the area generated by Beaumont Hospital.

DCC is continuing to explore other options to ensure access to all-weather training facilities for the winter months for local clubs. A meeting is being sought with the dioceses to further pursue the upgrading of existing facilities in a local school to which a local club has access. Also there are two nearby existing facilities managed by others and which have been used by local clubs during the winter months. DCC will engage with the management of these facilities to explore how this arrangement might continue. The feasibility of upgrading smaller existing facilities locally is also being looked at. While this would not deliver a full-sized facility the winter training needs of many local teams and small sided games could be met this way.

Q.22 Question in the name of Councillor Larry O'Toole

“To ask the Area Manager what is the procedure for local residents in need of housing to put their names forward for affordable units in the **(details supplied)**”

Reply

The Oscar Traynor Road Development is currently under appeal with An Bord Pleanála. A decision is due on or around 11th July next. It has been confirmed today (12th July) that a decision is imminent. In the event that planning is granted an eight-week period follows during which legal challenges can arise.

Assuming a grant in mid-July, the Developer can only proceed with tender and mobilisation after 5th September. A commencement on site is expected no later than December.

The earliest delivery will be end 2024 and phased delivery thereafter to end 2027. Under the Affordable Housing Act 2021, local authorities need to publicly advertise when an Affordable Housing Scheme becomes available. This information will be published in at least one newspaper circulating in the local authority's administrative area and on its website.

In order to advertise any of the LAAPs, we must have an approved Scheme of Priority in place. DCC is in the process of getting this approval which will be published on her website.

Q.24 Question in the name of Councillor Racheal Batten

“To ask the Area Manager to provide an update on applications from tenant in situ in the North Central Area, including times on acquisitions. Can the Manger also provide the information pack that is given to tenants and landlords when they start the application?”

Reply

Status of TIS acquisitions in the North Central Area 2023

Not Proceeding	23
Valuers Stage	15
Legal Stage	31
Building Inspector	13
Tenant checks	18
Initial Contact	4
Closed	2

Tenant in Situ acquisitions **proposed** in the North Central Area = **104**

It is taking approximately eight to twelve weeks to complete conveyancing across all acquisitions both tenant in situ and general acquisitions.

The following is the general communication sent to TIS applicants via the acquisitions@dublincity.ie email address.

- *Tenants must be in receipt of a valid Notice of Termination.*
- *Tenants must meet the criteria under the Tenant in Situ Policy i.e. Be in receipt of HAP/RAS, the property must suit their needs (bedroom size).*
- *Tenant checks are carried out by the Allocations Section and may take 2-3 weeks to complete.*
- *Once the checks have been approved we will then inspect/view the property and if it is deemed suitable for purchase we will then carry out a valuation.*
- *Dublin City Council offer market value for properties.*
- *If you would like to proceed we will need the tenants name/number and a copy of the Notice to Quit.*

Q.25 Question in the name of Councillor Racheal Batten

“To ask the Area Manager to provide an update in relation to the legal outsources providers KPI on property acquisitions and are they in line with the required targets set out in the services level agreement.”

Reply

There is no specific time frame for completing a conveyancing transaction. Each conveyancing transaction will be unique and will range from being relatively complex to being a reasonably straightforward transaction. There are many variables for each transaction including title matters, individual circumstances of vendors etc. Legal transactions that are outsourced are subject to DCC service level requirements such as monthly reporting, timely response to telephone calls and emails and management meetings. Additionally solicitors firms are subject to Law Society regulations, practices and procedures around conducting conveyancing transactions. If there are issues with particular transactions you might let me know. If Councillor Batten wishes to contact me directly she may do so. The law department are happy with the service being provided if there are specific problems arising please contact myself or Mairead Cashman.

Q.26 Question in the name of Councillor Racheal Batten

“To ask the Area Manager in relation to the voids in the North Central Area that are lower than other areas, noting the North Central Area is the largest area in the council, this is concerning. Can an outline be given on why the numbers are so low?”

Reply

Void properties come about as a result of tenancies ending, the number of properties which become vacant in any given Area will vary based on the number of transfers or death of tenants. All voids units within North Central Area are currently at either one of the 3 stages within the voids process. 1 Awaiting Vacant possession 2. With Contractors 3. With Direct Labour once refurbished all units are given to Allocations for re-letting. Below is a breakdown and comparison of voids units under refurbishment and completed units for 2022 and 2023.

Current Refurbishment of Voids underway

Status	Central	North Central	North West	South Central	South East	Total
Awaiting Vacant possession	36	12	10	48	24	130
With Contractors	64	41	78	61	23	267
With Direct Labour	23	8	25	23	23	102
Total	123	61	113	204	111	499

Vacant (Void) Property Refurbishments completed in 2023 to date

Totals by Area	Central	North Central	North West	South Central	South East	Total
House	13	34	47	34	4	132
Apartment	60	11	9	29	52	161
Senior Citizens	19	31	27	27	30	134

Q.28 Question in the name of Councillor Racheal Batten

“To ask the Area Manager to address the poor conditions of the council owned area along Shanliss and Shanowen, in Santry as the paths, roads and verges look awful. Can this please be put on the list for repairs and grass cutting?”

Reply

Please supply exact location details of footpaths and roads with ‘poor conditions’. Due to staffing resources it is not possible to conduct an entire defect survey of this area.

**Contact: Aaron Bellew, Executive Engineer Road Maintenance Services
North Central Area**

Tel: 222 4259
Email: aaron.bellew@dublincity.ie

The area has been inspected by Parks & once-off cuts of grass verges not directly outside people’s homes have been arranged and are proceeding.
The issue of weeds on footpaths and roads is a matter for R&T

Q.29 Question in the name of Councillor Alison Gilliland

“To ask the Area Manager for a comprehensive report on the River Mayne Linear Park, in particular the full development of the pathway along the River out to Baldoyle, specifically referencing the opening up of access under the railway bridge currently blocking full permeability along this stretch, detailing communications and meetings post Covid with Irish Rail and Fingal Co. Co. to progress and advance the realisation of this plan and Development Plan Objective.”

Reply

While these lands have not been taken in charge and remain in the ownership of the developer the Parks Service is continuing to pursue the objective of the River Mayne Linear Park through the development management process of planning applications including the river corridor within their boundaries. Public access is currently available along sections of river and this will extend further as adjacent developments come to completion. The access under the railway and the lands on either side are not under DCC control and access is blocked. Discussions with the relevant land owners are ongoing with the objective of opening this link and a further report will be made on the outcome of these discussions.

Q.30 Question in the name of Councillor Deirdre Heney

“To ask the Area Manager to please consider erecting ‘Pedestrians Only’ signage at the entrance to **(details supplied)**”

Reply

Regarding the junction between the Clontarf Promenade and Alfie Byrne Road, the Clontarf to City Centre Cycleway project team is currently examining the possibility of removing the shared space that is in place in this area and continue the separation of pedestrians and cyclist through from the Clontarf Promenade to the Clontarf to City Centre Scheme. As part of this process there would be a full review of the signage in this area and the erection of no cycling or pedestrian only sign for the footways will be considered and discussed with the Traffic Department.

Q.31 Question in the name of Councillor Deirdre Heney

“To ask the Area Manager to please again refer to the junction of Griffith Avenue and Swords Road and say what he can do to alleviate the serious issue of gridlock/backed up traffic queuing at this location – where the traffic lights give just 8 seconds of green time east-west on Griffith Avenue and if motorists don’t make it in 8 seconds they have to wait two minutes to have another opportunity to try and pass through the junction. The chaos after the matches in Croke Park as fans head up Griffith Avenue heading for the M50 is intolerable for local residents and this sequencing is causing terrible behaviour of drivers flying up the wrong side of the road.”

Reply

Dublin City Council policy priorities Active and Sustainable Travel modes such as Public Transport use, Cycling and walking and many city signalised junctions offer traffic signal priority to oncoming public transport.

The Swords Rd receives a majority of available green time at this location as it is a main artery to/from the city and carries many public transport routes.

Allocation of extra green time to Griffith Ave approaches would reduce the green time available to the Swords Road and thereby increase public transport journey times along with increasing congestion along Drumcondra Road.

Every effort is made to keep traffic moving on all routes in so far as possible, however increasing volume of traffic, especially at times of major events such as All Ireland Finals, concerts etc. coupled with the need to service priority demands from pedestrians, cyclists and public transport means that a balance needs to be struck between these multiple modes, on multiple approaches to junctions.

It is therefore not always possible to prioritise one route over others.

However, we will continue to monitor the junction and amendments to traffic signal timings will be made as required, where there is scope to do so.

NORTH CENTRAL AREA COMMITTEE
17th July 2023

Q.33 Question in the name of Councillor Deirdre Heney

“To ask the Area Manager in relation to tenant as per **(details supplied)** and

- (1) Explain why Dublin City Council is not happy to refund the €185 owing to tenant
- (2) Explain exactly what has happened to the €600 plus overpayment was accrued by tenant since occupying this tenancy approximately 4 years ago and whose income has not changed since and explain why same amount is being retained
- (3) Explain why the remaining overpayment (by tenant) of €185 is not being refunded by the Council to details attached

Reply

In accordance with the Housing Rent Section’s refund policy, the amount of refund due is calculated by deducting one week’s rent from the credit balance. If the residual credit is more than €200, a refund can be processed. The reason for retaining the week’s rent charge is to prevent the tenant incurring rent arrears in the event that they miss a payment.

The reduction in credit on the account was due to a debit applied following a rent assessment that took account of undeclared employment income for the period 2021 to 2023.

Tenant has been advised to notify the Rent Section of any changes in income to avoid any debits in the future by contacting rents@dublincity.ie or 01-2222211

Q.36 Question in the name of Councillor Deirdre Heney

“To ask the Area Manager to refer to housing applicant as per **(details supplied)** and say

- (1) if their medical records are up to date in terms of **(details supplied)**
- (2) when they are likely to be housed in their own right.

Reply

The above applicant is on the Housing List with an application date of 12/3/2018, and the applicant holds the following positions on this list:

Area	Bedsize	Position
Area B	1	641

Dublin City Council allocates properties based on time on the list and currently there are applicants of longer standing who have to be considered as suitable vacancies arise. It is not possible to indicate accurately the prospect of an offer for any applicant. The number of vacancies arising will be a determining factor in the length of time applicants could expect to be on the waiting list.

The applicants should check the Dublin City Council website for any Choice Based Lettings that may become available in their area of choice. They are advertised every Friday and remain advertised for a period of 3 weeks.

The applicant should have a HMD form 1 (attached) filled in if he wishes to make an application on Exceptional Medical Grounds

17th July 2023

Q.51 Question in the name of Councillor Damian O'Farrell

“To ask the Area Manager to ensure there are steel footpath barriers outside all the open entrances to the bottom and top circles in Marino Estate please. Presently there are one or two exits with no outside barriers and children may walk / run straight out onto the road.

Reply

Pedestrian barriers/guardrails are currently not recommended by Dublin City Council as per Design Manual for Urban Road and Streets Guidelines which states that the use of pedestrian barriers/guardrails are counterproductive in terms of visibility between drivers and children leading to a false sense of safety with increased vehicle speeds, aggressive driver behaviour and create a collision hazard for cyclists.

As such the Area Engineer does not recommend pedestrian barriers/guardrails at this location.

Q.63 Question in the name of Councillor Daryl Barron

“To ask the Area Manager to provide an update on Glass bottle recycling facility for **(details supplied)**. A review for facility in North Central was to be done in 2022.”

Reply

Waste Management Services is committed to recycling and providing the best service we can in a busy, urban environment. However, planning restrictions, safe accessibility for service providers and issues with illegal dumping make the reality of sourcing new sites for bottle banks in the city very problematic.

As previously reported, at one time there was a bring bank facility located at Greendale Shopping Centre. This is privately owned land and the banks were removed at the request of the owners. Since this time, Waste Management Services have scouted the Kilbarrack area for a suitable alternative site many times but have been unable to locate one.

The North Central Area contains more bring bank facilities than any of Dublin City Council’s other areas. Within the immediate vicinity of Kilbarrack, there are glass recycling facilities available at Raheny Library, Supervalu Raheny, Tonlegee Road, Donaghmede Shopping Centre and Oscar Traynor Road Bring Centre

DUBLIN CITY COUNCIL
NORTH CENTRAL AREA COMMITTEE
17th July 2023

Q.65 Question in the name of Councillor Damian O'Farrell

“To ask the Area Manager to report on sound levels at the st Anne’s concerts - permitted and actual, details of when sound checks occurred. As raised last year there is a problem with the concerts being held during the period of the leaving certificate. Sound levels particularly high this year it has been reported.”

Reply

Permitted noise levels associated with the recent St. Anne’s Concerts were monitored by both Officers from the Environmental Health Section, Air Quality and Noise Monitoring Section as well as an independent acoustic consultant appointed by the Promoter. The permitted noise levels were set by condition attached to the Outdoor Event Licence issued, as well as specified by a pre-emptive EPA Notice issued by Dublin City Council. The music noise levels were monitored during the entire concert and the readings were found to be in full compliance with the levels permitted associated with such events.

The control limits set at the mixer position shall be adequate to ensure that the music noise level shall not at any noise sensitive premises exceed LAeq 75 dB over a 15 minute period throughout the duration of the event.

The sound levels were comfortably complied with during the course of the concerts concerned.

There were very few local complaints received in respect of the concerts. Sound check timings were fully considered to ensure that music was not playing or being tested during the course of any leaving cert exam sitting taking place. Any concert that took place where there was an exam the following day had a music curfew of 10.30pm.

Q.66 Question in the name of Councillor Damian O'Farrell

“To ask the Area Manager to report on the wider provision of changing and toilet facilities in St Anne's Park particularly for visiting teams and also female participants.”

Reply

The Parks Service has had discussion with certain football clubs using areas of the park remotely located from existing facilities. It is intended to contact all clubs with such an allocation in the coming weeks to ascertain the level of interest in hiring of such changing facilities to inform the scale of a facility required to meet the local demand. A tender seeking to establish a framework of suitable suppliers of modular buildings is in the procurement pipeline and will be published imminently. Once the framework is in place the procurement of such facilities will be greatly streamlined. It is envisaged that subject to the allocation of an appropriate budget and addressing any planning requirements such a project could be commenced in 2024.

- a) In the survey of play facilities carried out by the Parks Service in 2016 Donaghmede was not identified as an area of deficit of play facilities as much of the area is in the catchment of Fr. Collins Park where there are 2 playgrounds or the playground at Edenmore Park. There are also a number of playgrounds in the Belmayne area. Bringing the existing playgrounds in Fr. Collins Park and in Belcamp Park up to standard is considered to be the priority for available playground budgets in the short to medium term.
- b) The Parks Service do not install bins within such local parks as resources are not available to service same. Waste management may consider installing street bins at the entrances.

Q.75 Question in the name of Councillor Declan Flanagan

“To ask the Area Manager to respond to the following regarding a tree (**details supplied**) and if he will make a statement on the matter.”

Reply

The substance in question is not sap but honeydew the sugary excretion of sap-sucking insects such as aphids. The substance is essentially sugar and water and is usually washed away by seasonal rains. The effect is most pronounced during dry spells in late summer. The resident might consider parking elsewhere during these periods to avoid the worst of the problem or investing in a car cover. Dublin City’s Tree Strategy adopted as policy by the full Council in 2016 does not consider the reduction or removal of Honeydew as a valid reason to prune or remove an otherwise healthy tree. Leaves, seeds and honeydew are defined in the policy as ‘natural and seasonal occurrences and are judged to be a relatively-minor, short-lived inconvenience when considering the many benefits of having trees in the urban environment’.

Objective 3.7.6 states that ‘the Council will not prune or fell a Council owned tree solely to remove or reduce honeydew or other sticky residue from trees’.

The tree will be examined in the coming weeks as local schedules allow and any works deemed necessary will be listed for inclusion in the prioritised tree care programme for the area 2023-24.

There are no current proposals to introduce a programme of the replacement otherwise healthy trees with smaller specimens.

Q.76 Question in the name of Councillor Declan Flanagan

“To ask the Area Manager to respond to the following re; Litter (**details supplied**) and if he will make a statement on the matter.”

Reply

There are currently two litter wardens operating in the NCA on a daily basis carrying out their duties under the Litter Pollution Acts, 1997-2009 and Dublin City Council Bye-Laws. When required litter wardens are brought into the area to assist with Intensive Compliance Campaigns.

The litter wardens remove and investigate dumped waste on a daily basis. They also identify front gardens/ private property that is deemed littered and visible from a public place. They speak with any businesses who are identified as being alleged offenders under the legislation as well as dealing with any people caught littering. The litter wardens also patrol the parks regularly to catch any people allowing their dogs to foul in a public place.

A total of 3,909 were issued citywide from 1 July 2019 to 30 June 2023 which includes 623 issued in the North Central Area for littering.

Q.87 Question in the name of Councillor Terence Flanagan

“To ask the Area Manager to list and respond to the following regarding speed ramps (**details supplied**) and if he will make a statement on the matter.

Reply

The above location is a cul-de-sac with no through traffic passively traffic calmed by the presence of on-street parking on both sides of the road. These factors greatly reduce the probability of speeding.

The Traffic Advisory Group’s criteria for speed ramp(s) is as follows:

- The road should have a straight run of at least 200m.
- The 85th percentile speed should be greater than speed limit of the road.
- Traffic volumes should exceed 60 vehicles per hour.
- There should be genuine road safety concerns based either on actual accident statistics or on observed road safety patterns or written report from an Inspector of the Garda Traffic Division.

(Details supplied) is a cul-de-sac, this side road does not meet the requirements for speed ramps.

Instances of speeding should be referred to the local Gardaí as a matter for enforcement.

Q.92 Question in the name of Councillor Terence Flanagan

“To ask the Area Manager to respond to the following regarding Trees (**details supplied**) and if he will make a statement on the matter.”

Reply

The National Parks & Wildlife Service (NPWS) of the Department of Housing, Local Government and Heritage is reminding the public the cutting, grubbing, burning or other destruction of “vegetation growing in any hedge or ditch” between 1st March and 31st August is prohibited. The prohibition is contained in section 40 of the [Wildlife Act 1976](#) . Suspected breaches are investigated by the NPWS and An Garda Síochána. DFB can have the trees cut after this period.

Q.93 Question in the name of Councillor Terence Flanagan

“To ask the Area Manager to respond to the following regarding Tree (**details supplied**) and if he will make a statement on the matter.”

Reply

Given the very low levels of tree canopy cover in the city when compared to other capital cities in Europe the Parks Service is very reluctant to eliminate a tree planting opportunity. The locus is considered suitable for a small canopy tree and contact will be made with the resident in this regard.

Q.97 Question in the name of Councillor Naoise O’Muirí

“To ask the Area Manager to organise for an up-to-date assessment of the trees in The Bramblings, Killester to address concerns set out in the correspondence below **(details supplied)**”

Reply

The reduction in the height of trees also known as topping or lopping is an outdated pruning technique which is no longer recommended and is potentially unsafe leading to a flush of weakly attached re-growth that can easily become detached in high winds.

The avoidance of this harmful pruning practice was included as a policy objective in the Dublin City Tree Strategy adopted as policy by the full council in 2016. Appendix 8 of the policy outlines the approved pruning techniques.

The strategy states: *Tree topping (reduction in height) causes large wounds, exposing trees to decay pathogens and causing their long-term decline, as well as being unsightly and potentially unsafe. Topping is therefore only considered where trees have serious defects, that cannot be otherwise reasonably addressed, and their short-term retention is essential or highly desirable.*

An inspection will be arranged in the coming weeks as local schedules allow and any works deemed necessary will be listed for inclusion in the prioritised tree care programme for the area 2023-24.

Q.98 Question in the name of Councillor Naoise O’Muirí

“To ask the Area Manager to respond on plans to provide toilets & changing facilities at the following locations

1. St Annes Park near the Woodside entrance
2. Alfie Byrne Rd Astro-pitches

Reply

The Parks Service has had discussion with certain football clubs using this area of St Anne’s Park which is remotely located from existing facilities. It is intended to contact all clubs with such an allocation in the coming weeks to ascertain the level of interest in hiring of such changing facilities to inform the scale of a facility required to meet the local demand. A tender seeking to establish a framework of suitable suppliers of modular buildings is in the procurement pipeline and will be published imminently. Once the framework is in place the procurement of such facilities will be greatly streamlined. It is envisaged that subject to the allocation of an appropriate budget and addressing any planning requirements such a project could be commenced in 2024.

Alfie Byrne astro-pitches are not managed by the Parks Service and the installation of facilities here is a matter for the sports section.

Contact: Fergus O’Carroll, Senior Executive Parks Superintendent
Tel: 222 6625
Email: parks@dublincity.ie

Alfie Byrne Rd Astro pitches provide toilet and changing facilities. These facilities are currently used by team bookings.

Q.101 Question in the name of Councillor Naoise O’Muirí

“To ask the Area Manager to provide a summary update on the plan for 2023 works at the Brookwood Rise/Gracefield Avenue junction and also provide a copy of the related slides presented by the area engineer to the Area Committee earlier this year”

Reply

The Area Engineer is in the process of finalising the tender for minor civil works for Dublin City North. The Area and Senior Executive Engineer in the Traffic Section will complete a tender for these proposed civil works. Once this stage has been submitted to tender consulting engineering firms will submit bids to carry out these civil works and a preferred bidder will then be nominated to carry out the works. This process will take a number of weeks to complete.

The Area Engineer will notify the North Central Area Office to provide Cllr. O’Muirí with a copy of the presentation as requested.

Q.105 Question in the name of Councillor Donna Cooney

“To ask the Area Manager can I have an update on measures to address speeding on Kincora road Clontarf.”

Reply

The Transport Advisory Group (TAG) has a limited budget for 2023 and therefore unable to recommend any traffic calming measure at the aforementioned location at this time. The Area Engineer will add the request for traffic calming to a list for future consideration along with similar requests throughout Dublin North Central any future recommendations for traffic calming are dependent on whether future funding is made available.

Enforcement of speed limits is a matter for An Garda Síochána, and TAG will raise the Councillor’s concern with them at the next TAG Meeting.

Q.106 Question in the name of Councillor Donna Cooney

“To ask the Area Manager can I have an update on works to restore the large shelter and the circular shelter on the Clontarf promenade and Realt na Mara statue works.”

Reply

Circular & Linear Shelter, Clontarf Promenade

In 2022, a conservation assessment was conducted by 7L Architects which included assessment of both the linear and circular shelter. This assessment was funded through 2022's Discretionary budget.

On completion of this assessment a report was published and subsequently presented to the February Area Committee meeting for discussion.

The Conservation Unit have commenced the process of placing both shelters on the Record of Protected Structures and have requested a legal search regarding title of the circular shelter.

Once both of these actions have been completed the Area Office will meet with the relevant departments to discuss next steps regarding a plan for restoration.

There is provision in the Discretionary Budget of €150K for the Bandstand & Linear Shelters.

Realt na Mara statue

Following on from the works that were completed at the statue in 2022 it is the intention of the Area Office to commence phase 2 of this project which will consist of replacing the broken mosaic at the base of the statue which was removed due to it being in poor condition.

It is hoped to meet with Parks Department, Dublin Port and a representative from the Dockers Society in the autumn to agree an appropriate replacement.

There is provision in the Discretionary Budget of €35k for Phase 2.

Q.107 Question in the name of Councillor Donna Cooney

“To ask the Area Manager can I have an update on works to resurface and fix up around the Boat slip area and to fix the wall and remove the unsightly wire fence to the back of Clontarf bus garage site.”

Reply

The Parks Service arranged rectification of levels and resurfacing of the interface of the path network and the slipway a couple of years ago. No further works are proposed here at this time.

The repair of the wall at the Dublin Bus car park will require engineering input to ensure the weight of the large buses is considered. Dublin Bus has been contacted in this regard.
