7. Motion in the name of Councillors Janet Horner, Carolyn Moore, and Michael Pidgeon:

"This SPC calls for the work of parking enforcement to be brought back under direct control of the Council instead of being contracted out. The new mandate for parking enforcement officers should emphasise enforcement where parking is dangerous or illegal or causing significant accessibility obstacle or damage to public infrastructure. It should also be explored to see whether litter, dumping and dog warden powers can be combined with those of parking enforcement for a combined benefit for all aspects of the public realm and the community."

Members agreed to a workshop to be held with Councillors in the context of what was proposed in the motion.
