**Q1 Councillor Hazel De Nortiún**

To ask the Director of Services can a plan be drafted to reduce the build-up of shrubs and trees behind the Craobh Inchicore building that's on Grattan Crescent? The building backs onto the park and those using the building have been trying their best to keep the garden space clean. The build-up of trees etc are restricting those efforts.

**Reply**

The trees growing along Grattan Crescent are mature London Plane trees. In accordance with the Tree Strategy, section 3.7.4, trees are not pruned or felled to reduce leaf fall. This is a natural process that cannot be controlled by pruning the tree. There are no plans to remove these trees at this time.

**Q2 Councillor Michael Pidgeon**

To ask the Director of Services to install a repeater filter turn light at the Lucan Road/Anna Livia Bridge junction in Chapelizod. There is a set of traffic lights there, with a main light and a filter/release light for left turns across the bridge. There is a repeater light on the other side of the junction, with just the main light. When cars go too far forward, they cannot see the filter light turn green, as there is no repeater light. This causes delays and cars behind to beep, which is a continuous nuisance for residents.

**Reply**

Thank you for your query, a review of the junction layout has taken place, it was found that if vehicles stop at the stop line, there are no visibility issues. It was noticed that some road users are crossing the stop line and stopping in the cycle reservoir which in this case, the vehicle is passed the traffic signal. It is not recommended to install a secondary left turn filter as it could potentially cause confusion to the majority of vehicles from afar or at night. It has been proposed to refresh the line marking on site as necessary in order to ensure vehicles stop at the correct location.

To ask the Director of Services that the car parking spaces in front of the Quaker Burial Ground in Cork St be transformed into a “parklet” - similar to the design at Donore Avenue/Cork Street?

**Reply**

This section of footpath is proposed to be redesigned under Busconnects (Tallaght/Clondalkin to City Centre) including repositioning the inbound bus stop closer to Marion Villas and installing an ‘island-type’ bus stop to accommodate the cyclelane, removal of a tree, planting of a replacement tree where the current bus stop is located. There may well be potential to create a planted strip to the front of the Weir Nurses Home when the Busconnects plans are realised.

A planning application for Tallaght/Clondalkin to City Centre is currently before An Bord Pleanála and the Area Office will monitor the outcome for this location and wider Cork Street and St Luke’s Avenue, and the implications for our greening plans, when the application is determined.

**Q8** **Councillor Máire Devine**

To ask the Director of Services that the Council sends notice to the owner of (details supplied) requesting that the drains/Sewers be attended to so the strong pervasive effluent odour be neutralised for tenants and neighbours alike.

**Reply**

DCC Drainage Section inspected the public sewers at this location and found them to be operating normally with no offensive odours being generated or released into the public domain. This appears to be an internal private drainage issue.

When on site the Drainage Crew was able to access the internal bin room where the building's outfall drainage manhole is located. They noted a distinct malodour within this room which is vented directly to the street. They also noted non-standard pipework arrangements internally. Externally the crew further observed poor alignment of the rainwater downpipes and noted that one has separated in its entirety. These are all potential sources of both damp and odour internally. The issue of malodours – and the defects/departures from standard - should be referred to the Property Management Company responsible for the building in the first instance for investigation and follow-up.

**Reply**

Site visits were conducted by the Air Quality and Noise Control Unit on two separate occasions and no odour was witnessed. The pipe in question is the responsibility of the property management company as outlined by Dominic Molony of the DCC

drainage unit. My Line manager Paul Rutherford also advised the DCC service centre that we would not deal with the complaint as it was outside of this Unit's remit.

To ask the Director of Services for a timeline on the Thomas Street to Suir Bridge cycle way and that more effective methods be used to prevent the frequent and dangerous right turn at Rialto Bridge?

**Reply**

**Project timeline**

The current programmed construction timeline for the Suir Road to Thomas Street Interim Active Travel Project are works to begin July / August 2023 and carried out on a phased basis until the end of this year. More information is available on the DCC Active Travel Website where updates to timelines and construction plans will be posted.

**Right turns at Rialto Bridge**

It is currently illegal to make a right turn from James Walk onto Rialto Bridge and will remain so after the interim scheme is installed. There will be a new traffic island installed as part of the work to discourage this movement. Road markings and signage will also be renewed as part of the works. These measures will help to reinforce the restricted right turn to the motorist. We will liaise with Road Safety (Traffic) to advise the need for increased enforcement and improvement in driver behaviour at this location.

To ask the Director of Services In light of recent staff changes and vacancies, Dolphin House is currently without a Project Estate Manager or a Project Estate Officer. On the ground contact between DCC with residents has been reduced to once monthly by appointment only sessions at the Dolphin House Community Centre. Given the range of persistent maintenance issues arising for residents as well as some ongoing antisocial challenges, can the Director of Services confirm the following:

- When the vacancies at Dolphin will be filled and who is responsible for day to day contact in the interim; and
- Whether DCC will reconsider its dramatic reduction in on-the-ground engagement with local residents and revert to weekly clinics with residents as a temporary measure until the Estate Management staff are appointed to fill the current vacancies.

**Reply**

I can confirm that Laura Kenny has been appointed as the Project Estate Officer for Dolphin House with effect immediately. To ask the Director of Services for an update on the plans for Glebe House, Crumlin.

**Reply**

A Section 5 Declaration (Ref. No. 0211/22) was issued for the reinstatement of the fire damaged roof to The Glebe House, Crumlin, (a Protected Structure) on 29<sup>th</sup> July 2022, following agreement of the essential repairs and works required with the Conservation Section.

However, the property owner's planning consultant has advised the Conservation Section that the reinstatement works (as approved per Section 5 above) cannot be implemented as the proposed housing development, granted permission by An Bord Pleanála on the larger site (Ref. SHD0013/22), has been judicially reviewed, with an injunction against the owner carrying out any work to the lands or buildings.

It is understood that the owner is separately pursuing a new planning application to the City Council for a Large-scale Residential Development (SRD) on the lands.

There is a current LRD application on the site, LRD6016/23-S3, for the construction of a development of 152 no. apartments (50 social housing and 50% cost rental).

The proposal includes the refurbishment and repair of fire damaged elements in Glebe House (following a fire on the 21st of April 2022) including the replacement of fire damaged roof with new slated roof, replacement of all first floor timber stud walls, replacement/repair of floor joists at first floor level, replacement of first floor joists in the rear return, replacement of internal render to kitchen/dining area in rear return building and replacement/repair of stair from upper ground to first floor level, the refurbishment of Glebe House including the removal of extensions to the rear and sides of the building, restoration of the facade, replacement of pvc windows with sliding sash windows (timber) and associated works to the interior and to the curtilage of Glebe House.

The scheme incorporates the change of use of Glebe House from residential to provide for community, cultural and arts uses, together with a neighbourhood café and crèche use.

The application is due to be decided on 15<sup>th</sup> August with last day for observations/submissions on 25<sup>th</sup> July.

To ask the Director of Services to supply details of condition surveys that have been carried out by DCC maintenance (or anyone working on behalf of DCC) in Oliver Bond House, Emmet Buildings & School Street flats and to provide copies of same.

**Reply**

The units in Oliver Bond had conditional surveys carried out in September 2018 to March 2019.

The units in Emmet Buildings had conditional surveys carried out in September 2018 to December 2018.

The units in School Street had conditional surveys carried out between March 2019 and July 2019.

Following the conditional surveys DCC carried out works to help with trying to bring the properties up to the Standards for Rented Houses. Initially we installed new smoke, heat and carbon monoxide alarms. In more recent times we have looked to install mechanical ventilation as well as warm boarding where possible. We are continuing to try and upgrade units where possible with the limited funds that we have.

To ask the Director of Services as a matter of urgency, ensure there is a bin located at every major Bus Stop in our communities. It is not viable that a basic requirement of a bin is not part of a bus stop / shelter.

**Reply**

Dublin City Council Waste Management Services policy in relation to the supply of litter bins is to provide an adequate number of litter bins in appropriate areas that are, or are in close proximity to litter generators. This includes at locations such as neighbourhood shopping areas, urban village centres, amenity and leisure areas and facilities, entrances to parks, main thoroughfares and arterial routes. Also included within this is at major bus stops where there is a likelihood of litter being created due to the significant usage of the stop in question.

To ask the Director of Services to please give me a full report on why the builder of the Apartments at De La Salle has not been asked to invite local residents to meet in order to look at the issues raised with this huge development in the local community e.g.: Traffic movements, dirt / dust and noise. The Cycle Lane fronting the old De La Salle property is filthy and never cleaned. DCC need to ensure a proper channel is opened to ensure smooth progress in this major development in the years ahead and what community gain will come for the existing local community from this development.

**Reply**

The Planning Enforcement Section of Dublin City Council is currently actively engaging with the developer of this site to ensure that the issues raised by local residents , including hours of work, dirt on road, dust and noise are fully dealt with by the developer and his main contractor. In that regard several inspections have been carried out over the last 2 weeks to ensure that best practice is being implemented on site and in the adjoining areas affected by the development. The Planning Enforcement Section will continue to monitor the site and further enforcement action will be reactivated should the developer not comply with commitments given to the Planning Enforcement Section, that best practice will be put in place going forward on this site.

To ask the Director of Services where is the plan to host Anti-Social Behaviour clinics in the Cherry Orchard Centre and in the Civic Offices? It was agreed with an Garda Commissioner and Alan Sherry to get this going to make sure AGS has a proximity approach to policing.

**Reply**

An Garda Síochána has booked the conference room in the Orchard Centre every second Thursday from 6<sup>th</sup> July from 11.00 AM to 1.00 PM providing an opportunity for local residents to drop in with any queries they have. This initiative is planned to continue on a trial basis until the end of November. There have been similar events held in the civic centre, Ballyfermot and Dublin City Council will provide whatever assistance it can in relation to these events.

To ask the Director of Services what is the roster for green space maintenance in Davitt House during the 12 months of the year.

**Reply**

The grass cutting schedule for our complexes, including Davitt House, is usually weekly visits for litter and grass cutting from April to September. Then fortnightly visits during February and March and visits as required during October and possibly November if there is still active grass growth.

This is a guide to green space maintenance as there are many variables, such as weather conditions, ground conditions, for example, if it is too soft for machinery to go onto the ground it won't happen as an area will be badly damaged.

To ask the Director of Services to provide all Councillors with a copy of the fire safety inspection report from Dublin Fire Brigade carried out in Davitt House complex about 2 months ago.

**Reply**

Dublin Fire Brigade visited Davitt House on 24<sup>th</sup> April 2023, the fire safety management was generally acceptable. The inspecting officer advised that any issues in relation to maintenance, and in particular to each apartment unit, should be notified the Housing Maintenance Department of DCC.

To ask the Director of Services to give details on what measures will the Transport Advisory Group implement to ensure traffic flow on Galtymore Road, between the junction of Carrow Road and Galtymore Road and the junction of Galtymore Road and Benbulbin Road.

**Reply**

The Transport Advisory Group Area Engineer has recommended to the Transport Advisory Group the following measures:

5 no. of No Parking Buffer zones (24 hour) with the appropriate traffic signs Rus 010 No parking on the northside of Galtymore Road between Benbulbin Road and Sperrin Road.

Extending at two locations the continuous white centre line at the junction of Galtymore Road and Benbulbin Road and Galtymore Road and Sperrin Road.  
These measures will improve traffic flow.

The Transport Advisory Group Area Engineer will continue to monitor Galtymore Road between the junction of Carrow Road and Benbulbin Road to see if further measures are required.

To ask the Director of Services how many DCC housing clinics are in operation in the Ballyfermot / Drimnagh constituency.

**Reply**

There are no housing clinics in operation in the Ballyfermot/Drimnagh area. The area office provides a walk in service in the civic centre, Ballyfermot from 9.30 AM to 1.00 PM from Monday to Friday and an appointment service every afternoon. Members of the public can contact the local area team at [ballyfermot@dublincity.ie](mailto:ballyfermot@dublincity.ie) or 222 4660.

Housing staff regularly meet members of the public in person to deal with queries raised by them at a mutually agreed time and location following contact through the avenues detailed above. This approach ensures that best use is made of the staff's

time as attendance at clinics can result in staff spending time attending with very few and possibly no queries being raised with them.

To ask the Director of Services what is the plan on the land of the old pitch and putt in Lansdown Valley Park? Why was it closed in the first place? Is there any plan to reopen it? What is the overall plan to reopen this part of the park to the public?

**Reply**

A reply on this question will issue directly to the councillor in due course.
