

To the Chairperson and Members of  
The Central Area Committee

October 2023

---

### Martin Savage Park

---

At the July 2023 Central Area Committee, we reported our intention to initiate in the autumn a Part 8 planning consultation for improvements to Martin Savage Park which will include inter alia an all weather /astro surface 130m x70m; a childrens playground; floodlighting of the senior grass GAA pitch; widening and public lighting of the pavement which parallels the railway to provide a 'Share with Care' pedestrian/cycle route.

Reports from consultants are still being collated and there is an on-going consultation with other departments of Dublin City Council to validate the information and to inform the final proposals and plan. This process will be completed shortly and the Part 8 will be initiated at the November Central Area Committee meeting.

This short delay in the pre-planning process will have no impact on the timeline for construction in 2024 subject of course to the approval by Council of the Part 8.

Leslie Moore

Head of Parks, Biodiversity and Landscape Services  
Culture, Recreation and Economic Services Department  
Dublin City Council.
