Q.4 Question in the name of Councillor Larry O'Toole

“To ask the Manager to respond to this housing request at (**Details supplied**).”

Reply

The above applicant is on the Housing List with an application date of 6/10/2015, and the applicant holds the following positions on this list:

Area	Bedsize	Position
Area B	2	66
Area D	2	23

Dublin City Council allocates properties based on time on the list and currently there are applicants of longer standing who have to be considered as suitable vacancies arise. It is not possible to indicate accurately the prospect of an offer for any applicant. The number of vacancies arising will be a determining factor in the length of time applicants could expect to be on the waiting list.

The applicants should check the Dublin City Council website for any Choice Based Lettings that may become available in their area of choice. They are advertised every Friday and remain advertised for a period of 3 weeks.

The applicant should contact a Housing Advisor to have their income assessed. They may be eligible for the Housing Assistance Payment Scheme.

Q.9 Question in the name of Councillor John Lyons

“To ask the Manager for a report on the number and nature of anti-social incidents in Fairview Park over the last five months and what actions have been taken to ensure such incidents do not reoccur. The report should include information on the destruction of the playing pitches by individuals illegally driving scrambler bikes in the park”.

Reply

The incursion of scrambler motorbikes into parks, open spaces and even the prom, the causeway and beach at Dollymount is an ongoing issue in the area. This illegal and inconsiderate behaviour also poses a considerable risk to park users and parks staff. This criminal anti-social behaviour is primarily a matter for the Gardaí. Parks staff cannot approach these individuals and are under instruction when such behaviour is observed to withdraw to a safe location and call the Gardaí. Local Parks Management liaise with local Gardaí on this matter on an ongoing basis.

There have been a number of such incidents reported in Fairview Park in recent months only some of which have resulted in minor damage to playing pitches. It is not accurate to assert that pitches have been destroyed as Parks Staff have been able to repair any damage quickly and pitches did not have to be taken out of use.

Fairview Park as a permeable urban park with dedicated cycling infrastructure including a ‘Share with Care’ route across the middle of the park and a new Greenway being developed along the Tolka remains quite vulnerable to scrambler motorbikes. It is anticipated that the proposed legislative changes to regulate such motorbikes will act to improve the situation.

Q.10 Question in the name of Councillor Larry O'Toole

“To ask the Manager to respond to the following flooding query at **(Details supplied)?**”

Reply

Drainage Services checked and found no issues with the surface water pipe at the location detailed above.

The gullies on the **(details supplied)** are cleaned under the scheduled maintenance programme for high speed urban dual carriageway roads as they require the attendance on site of a specialist Traffic Management Company. There are 10 such road locations located within the functional area of Dublin City Council. Gully cleaning at these 10 road locations will be undertaken early on Sunday mornings during the months of Oct – December inclusive. We will examine if the gullies on the **(details supplied)** can be prioritised as part of this scheduled programme.

Q.15 Question in the name of Councillor John Lyons

“To ask the Manager for an update on the new Bunratty Road development, the condition of the buildings, information on the remedial works completed and an update the allocation of the units please”.

Reply

The Bunratty Road development is now on the Building Control Register and has been certified as Substantially Complete. All units have been handed over to DCC, allocations are in progress and a number of units are already occupied.

All remedial works have been completed and inspected by the contractor’s personnel, the contractor’s design team, DCC’s technical advisory team and Assigned Certifier, Architects and Building Inspectors from City Architects as well as inspections from the Building Control Authority.

All elements of the works, including the remedial works have been carried out to a high standard and to the satisfaction of the BCA, the Assigned Certifier and the DCC team.

The buildings are in excellent condition at time of handover. As with all new developments, there will be a number of snags to be addressed that will come to light as the buildings are occupied. These will be addressed by the contractor as necessary.

Contact: Alice Simington, Senior Executive Officer
Tel: 222 3695
Email: alice.simington@dublincity.ie

Allocation of Bunratty Road: Twelve of the fourteen houses have been allocated and the new tenants are in the process of moving in. One of the four blocks of apartments was handed over on 2nd August. Twelve of these sixteen apartments have been allocated and tenants are in the process of moving in. The remaining three blocks were handed over on the 1st September and the Area Office are working on allocating these units and the Section 15 Garda Requests.

Q.16 Question in the name of Councillor John Lyons

“To ask the Manager for a detailed update on the proposed new community centre for the Kilbarrack area please”.

Reply

The North Central area office met and initiated negotiations with Northside Partnership with a view to them becoming a potential anchor tenant. Following on from this meeting Northside Partnership submitted details and a description of their requirements and the facilities they currently have in Kish House.

This information was sent to DCC Architect’s Department and we are currently waiting to see if these requirements could be incorporated into the initial design/plans for the Community Centre which were drawn up in 2018, taking into account that the childcare facility space would no longer be needed.

Q.30 Question in the name of Councillor Alison Gilliland

“To ask the Manager to detail the difference/rationale in use between a pedestrian light that remains on green for the pedestrian crossing/red for the vehicle driver for 7 seconds and then flashes amber for both and a pedestrian light that remains on green for the pedestrian crossing for 15 seconds while the vehicle light remains on red? ie why is one type used at one crossing and the other type at another crossing”

Reply

The two types of crossing mentioned in your question relate to a pedestrian crossing and a pelican crossing the difference between the two is detailed below. The majority of controlled crossing in the DCC areas operate as pedestrian crossing as they are more suitable for areas with busy pedestrian movement, as they reduce the conflict between vulnerable road users and vehicles.

Pedestrian Crossings

Pedestrians press the button to register a demand for the crossing, the vehicle signal will change from amber to red and then the green man will illuminate indicating that the pedestrian can cross the road. After a fixed period the green man will switch to the amber man. The length of the amber man is based on the road width with 1 second given for every 1 metre of roadway. The vehicle signal will remain red until the amber man has changed to the red man. Motorist can only proceed on the green signal.

Pelican Crossings

Pedestrians press the button to register a demand for the crossing, the vehicle signal will change from amber to red and then the green man will illuminate indicating that the pedestrian can cross the road. After a fixed period the green man will change from a steady state to a flashing green man, at the same time the vehicles traffic signal will change to flashing amber. When motorist see the flashing amber they can proceed with caution but they must yield to pedestrians already crossing the road.

DUBLIN CITY COUNCIL
NORTH CENTRAL AREA COMMITTEE
18th September 2023

Q.31 Question in the name of Councillor Alison Gilliland

“To ask the Manager for an update on progress realising the following motion as passed by the North Central Area Committee at its March meeting, i.e. Motion 1 in the name of Councillor Alison Gilliland

The North Central Area Committee recognises the ongoing need to enhance traffic flow along the Oscar Traynor Rd and insists that i) a traffic monitor be set up at the entrance to the Clonshaugh Industrial Estate to establish the volume, type and direction of traffic into and out of the estate and ii) investigate the viability of joining up the road system within the Clonshaugh Industrial Estate so as to allow for an exit/entrance onto the roundabout at the top of the R139.”

Reply

I will arrange for a traffic survey to be carried out as soon as resources allow

- i) to establish the volume, type and direction of traffic into and out of the estate and
- ii) to investigate the viability of joining up the road system within the Clonshaugh Industrial Estate so as to allow for an exit/entrance onto the roundabout at the top of the R139. (from visual inspections of the congestion at this location at peak hours it may not be an option)

DUBLIN CITY COUNCIL
NORTH CENTRAL AREA COMMITTEE
18th September 2023

Q.32 Question in the name of Councillor Alison Gilliland

“To ask the Manager for an update on progress realising the following motion as passed by the North Central Area Committee at its May meeting.

Motion 1 in the name of Cllr. Alison Gilliland

That this North Central Area Committee recognises the need for local physical indoor spaces to allow for community groups to meet and for recreational/educational activities to be facilitated. Such groups and local activities very much promote social engagement and contribute to mental and physical well-being. It is also recognised that such groups lack the financial capacity to rent spaces on commercial terms and need to be supported by the provision of community spaces as successfully demonstrated by The Junction and The Community Hub in Clongriffin. Therefore, given the commitment under the North Central Discretionary Fund to undertake an audit of community needs in the Kilmore area, the North Central Area Committee agrees that the planned residential developments at Cromcastle Court (DCC) and at the Cromcastle Underpass (LDA) should include dedicated community spaces that will be made available to local groups for local community activities and local needs.”

Reply

Cromcastle Court:

The regeneration of Cromcastle Court will be completed over three phases. Phase 1 is for the redevelopment of the southern end of the site facing onto Kilbarron Road and the adjacent Old Coal Yard site

On the 31st August 2023, Dublin City Council received Stage 2 approval from the Department of Housing, Local Government and Heritage for the redevelopment of Phase 1 Cromcastle Court. This allows us to move forward with our project plans and gives us consent to commence the planning approval process.

Presently, our integrated design team are continuing to work on design development and they have been instructed to complete a community infrastructure audit as part of their design development. The completed audit will be available to our elected representatives and members of the public as part of the planning pack.

As our plans progress, further consultation will be arranged with the residents of Cromcastle Court and local elected members.

Contact: Alice Simington, SEO Housing Regeneration
Tel: 222 3695

Cromcastle Underpass

The Cromcastle Underpass development will be completed in one phase of construction. Following feedback from the initial public consultation event, the scheme went under a process of redesign. On the 26th May, there was a public consultation

event held with Local Councillors to present the revised scheme. On the 2nd September a public information morning took place in the Kilmore Recreation Centre. Representatives were present from DCC Housing Department, Local Area office and the LDA who were available to answer queries in relation to the proposed development. The event was attended by the local residents and the wider community.

The scheme proposes 479.3 sqm dedicated cultural/community use space at ground floor level in compliance with the requirement for the provision of 5% dedicated community, arts and cultural space use under CUO22 of the Dublin City Development Plan. In addition to this, there will be 441 sqm of external public plaza and 706 sqm of green space provided for local community use.

On the 28th August, Stage 1 approval from the approval from the Department of Housing, Local Government and Heritage was received for the social housing tenure.

At present, DCC, the Land Development Agency and the design team continue to work on preparing the design information required for the planning submission. It is intended that a planning submission will be notified to the full council in November 2023 with a commencement on site by the end of 2024.

Q.34 Question in the name of Councillor John Lyons

“To ask the Manager for a detailed update on the proposed regeneration of Cromcastle Court flat complex.”

Reply

Dublin City Council received Stage 2 approval from the Department of Housing, Local Government and Heritage for the redevelopment of Phase 1 Cromcastle Court, which also includes the development of the Old Coalyard site on the 31 August 2023.

The current proposals show for 115 homes on the Cromcastle Court site, a mix of one, two and three bedroom homes, while it is planned to provide for 34 older person homes on the Old Coalyard site.

An integrated design team has been working to progress design development of the new scheme. Presently, we are progressing with commencing the planning stage of the project and this project has been identified as being suitable to proceed through the planning process using the S179a planning process.

It is envisaged that further consultation will be arranged through the Local Housing Manager and her office with the residents of Cromcastle Court and local elected members in the coming months.

DUBLIN CITY COUNCIL
NORTH CENTRAL AREA COMMITTEE
18th September 2023

Q.38 Question in the name of Councillor Catherine Stocker

“To ask the Manager for an update on the roll out of school zones and safe routes to school in the Clontarf LEA. The new school zones in Donnycarney and Fairview are welcome. Could you detail the list for the next five and estimated time period for roll out?”

Reply

The School Mobility team is currently working through a list of schools identified by the Department of Transport as priority schools for the Safe Routes to School (SRTS) programme. Works on Round 1 schools will take place over the coming months and it is envisaged that works on Round 2 schools will start in 2024. We are unable to progress schools outside of the SRTS priority list at this time. Once the SRTS priority list has been cleared, engagement will recommence with other schools.

#	Round 1 and 2 SRTS Schools	Adjacent School	Community	Area	2023 Status
1	SRTS Round 1 Assumption Junior School		Walkinstown	South Central Area	Completed Q1
2	SRTS Round 1 Assumption Senior Girls' National School		Walkinstown	South Central Area	Completed Q1
3	SRTS Round 1 Our Lady of Consolation	Scoil Chiarain	Collins Ave East	North Central Area	Works in progress
4	SRTS Round 1 St Joseph's Secondary School Fairview		Fairview	North Central Area	Works in progress
5	SRTS Round 1 St. Joseph's CBS		Fairview	North Central Area	Works in progress
6	SRTS Round 1 St Fiachra's Junior National School	St Fiachra's Senior National School	Beaumont	North Central Area	Non-Stat Consultation completed Q2
7	SRTS Round 1 Broombridge Educate Together National School		Boombridge	Central Area	Non-Stat Consultation completed Q2
8	SRTS Round 1 Drumcondra National School		Drumcondra	North Central Area	Non-Stat Consultation completed Q2
9	SRTS Round 1 St. Brigid's Girls' National School	St Marys Secondary School	Glasnevin	Central Area	Preliminary Design in

					Development Q2
10	SRTS Round 1 Stratford College		Rathgar	South East Area	Preliminary Design in Development Q2
11	SRTS Round 1 Stratford National School		Rathgar	South East Area	Preliminary Design in Development Q2

Q.39 Question in the name of Councillor Catherine Stocker

“To ask the Manager for an update on the installation of wheelchair inclusive swings in the North Central area – specifically Fairview, St Annes Park and Father Collins Park”

Reply

Once the procurement of the new playgrounds has been completed the next body of work is to procure these swings. It is intended to provide 2 in the North Central Area at Fr. Collins Park and St. Anne’s Park. Fairview Park was examined and there is not the space either within the playground or in the green areas adjacent to accommodate the significant footprint of these swings.

Q.40 Question in the name of Councillor Catherine Stocker

“To ask the Manager for a report indicating the outcome of the inspection of the trees on Belton Park Avenue outside **(details supplied)** requested in my questions to the NCAC in September 2022. In light of recent events residents are concerned about the safety of these trees which they believe to be unhealthy/unstable.”

Reply

An inspection will be arranged in the coming weeks as local schedules allow and any works deemed necessary will be listed for inclusion in the prioritised tree care programme for the area 2023/34. It should be noted however that the recent storm event has precipitated a considerable volume of requests from understandably concerned residents to inspect and assess publicly owned trees.

18th September 2023

Q.44 Question in the name of Councillor Larry O'Toole

“To ask the Manager to respond to housing application of **(details supplied)** and can an indication be given as to when they will be allocated suitable housing?”

Reply

The above applicant is on the Transfer List with an application date of 6/2/19, and the applicant holds the following positions on this list:

Area	Bedsize	Position
Area B	1	440
Area D	1	157
Area E	1	474

Dublin City Council allocates properties based on time on the list and currently there are applicants of longer standing who have to be considered as suitable vacancies arise. It is not possible to indicate accurately the prospect of an offer for any applicant. The number of vacancies arising will be a determining factor in the length of time applicants could expect to be on the waiting list.

The applicants should keep checking the Dublin City Council website for any Choice Based Lettings that may become available in their area of choice.

Q.45 Question in the name of Councillor Deirdre Heney

“To ask the Manager in relation to location as per **(details supplied)** where local residents are experiencing constant difficulties with parking their car and say,

1. If he can say what examination was made to have the bus stop relocated in response to previous question from me on this matter
2. If he can examine the possibility of relocating the bus stop away from **(details supplied)** who, because of preservation order, is unable to install a driveway
3. If he can carry out an upgrade/repair works to area of footpath at **(details supplied)** (where two tyres can be accommodated) because presently it is totally inaccessible to pedestrians or wheelchair users and is an eyesore, unsightly and is a danger to anyone using it.

Reply

The location of a bus stop is part of the licence arrangement for a scheduled service which is issued by the NTA. DCC can inspect the area and determine if there is an alternative but this would then need to be discussed and agreed with the NTA before any changes could be made.

Contact: Adam Kelly, Bus and Coach Section
Email: adam.kelly@dublincity.ie

The Area Inspector will inspect this location and if any defects are present they will be repaired by a DCC Road Maintenance Works crew when available. At present there is a large backlog of repairs outstanding which are being worked through.

Q.50 Question in the name of Councillor Deirdre Heney

“To ask the Manager in relation to green space at **(details supplied)**, say

- a) Who the owner of the property is
- b) Confirm that the City Council maintains the space,
- c) Say if the Council ever maintains similar such spaces that are not in the ownership/charge of the City Council
- d) Say what plans the Council has to restore the trees recently destroyed

Reply

- a) The land concerned is privately owned and not in the ownership or in charge of Dublin City Council.
- b) DCC Parks have confirmed that “Park Services maintain the grass areas at Castle Court. It seems that the issue regarding the trees lies with the land owners involved”.
- c) This is a matter for Parks to respond to.
- d) At this point in time investigations are being carried out by the Planning Enforcement Section to ascertain whether any enforceable breach of existing planning permissions has occurred as a result of the removal of the trees concerned. The main complainant in this case as well as local Councillors who have expressed an interest in this matter have been written to in this regard on the 5th of September 2023.

Contact: John Downey, Acting Planning Enforcement Manager

Q.56 Question in the name of Councillor Donna Cooney

“To ask the Manager could the issue of parking by non-residents in St. Joseph’s square Clontarf be looked at again, as people are parking here to go to local restaurants etc. and it’s causing an issue for residents, could the possibility of resident’s only parking permits be looked at again”

Reply

The residential permit parking and pay and display parking schemes are governed by the Dublin City Council Parking Control Bye Laws 2020. All schemes make provision for pay and display and residential parking. There is no function in the bye laws for any area to be deemed for the sole use of either residents or business users of a particular location. Any scheme in operation has been voted in favor by the residents and on the understanding that both residential permit parking and pay and display parking schemes will be operated.

NORTH CENTRAL AREA COMMITTEE
18th September 2023

Q.57 Question in the name of Councillor Donna Cooney

“To ask the Manager to provide an update on the investigation into the flash flooding in Clontarf and what mitigation can be put in place to limit the risk of this occurring again”

Reply

Dublin City Council's Drainage division has completed a number of surveys within the area and confirmed that there are currently no blockages or damages within the network and the network is capable of operating at its installed capacity. The Drainage Department has also undertaken temporary works at a premises on the Howth Road to ensure that the maximum flow capacity is available in the network downstream from Castle Court.

The flood defence projects office has collated all the available telemetry and photographic data from the event of the 05th of August and in consultation with our design team are in the process of completing a review of the catchment and network operation on the 05th of August. This report will be issued to the Local Residents and Elected Members once it is available.

Dublin City Council is examining both interim and permanent measures, which can be implemented to mitigate against such a storm event causing flooding in the future. The City Council has already engaged with Clontarf Golf Club with a view to retaining addition storm waters within the golf course and eliminating flows via the culvert under the railway or onto the railway line. Survey work is currently being carried out to ensure that these measures provide additional capacity and do not result in any unintended consequence. The survey work is due to be completed early next week and the design proposal will then be expedited and implemented as quickly as possible.

The works, which will increase the carrying capacity of the Wad river culvert under the Howth Road and at Clontarf Promenade are being fast tracked and the team are progressing the relevant design and contractor packages with a programmed completion date of September 2024. The OPW has confirmed their support for these extra flood alleviation measures.

NORTH CENTRAL AREA COMMITTEE
18th September 2023

Q.67 Question in the name of Councillor Patricia Roe

“To ask the Manager if ‘Children at Play’ and ‘No Dumping’ signs could be erected at various locations in **(details supplied)**”

Reply

Cromcastle Avenue – There are 30 km/h residential SLOW ZONE sign (that incorporate children at play signs) on Dundaniel Road near junction with Oscar Traynor Road. There is another 30 km/h SLOW ZONE sign on Cromcastle Road junction with Kilmore Road. A third 30km/h SLOW ZONE is located on Kilbarron Road junction with Kilmore Road.

The aforementioned roads boarder Cromcastle Ave. These SLOW ZONE road traffic signs alert drivers they are entering a 30km/h and to drive at the posted 30km/h speed limit and be aware children may be playing.

These 30 km/h residential SLOW ZONES signs are used to reduce the proliferation of further road traffic signs in residential areas. Therefore the Area Engineer does not recommend additional road traffic signage.

Contact: Gerry McEntagart – North City Executive Engineer
Email: gerald.mcentagart@dublincity.ie

There is currently a no dumping sign in place at this location however the public domain team will install another one or possibly two as requested.

DUBLIN CITY COUNCIL
NORTH CENTRAL AREA COMMITTEE
18th September 2023

Q.68 Question in the name of Councillor Patricia Roe

“To ask the Manager if the following upgrades/clean-ups could be carried out in Belcamp Park:

- Entrance to Main Areas cleaned up
- Paint and Clean-up of Pavilion and Office of Dean Swift Building
- Flower bed inside main gate to be planted
- More age friendly Benches throughout the Park
- Astro Pitches closed off when not in use as some dog lovers like to use this as a toilet for their dogs
- Belcamp Park has no signage on the entrance gate, the park has been called Clonsaugh Park & Priorswood Park. It would be really great to have a big sign letting people know the name of the park, also signs directing people to the Pitch and Putt and Children's playground at the back”

Reply

- All areas of the park are regularly cleaned by staff based in the park. The areas mentioned will be inspected and appropriate actions scheduled.
- This is a matter for Dean Swift management.
- This bed was managed by Dean Swift in the past. The area will be cleared out and planted appropriately.
- A number of such benches were installed in recent years. Additional benches can be considered as part of future parks improvement programmes.
- While it is disappointing to hear that certain park users would abuse a facility in such a manner the all-weather facilities are considered to be available for local and community use during the day and for summer camps etc.
- Signage is in place at the main entrance at Clonsaugh Park. Consideration will be given to providing additional signage as part of the improvement programme for 2024.

Q.70 Question in the name of Councillor Patricia Roe

“To ask the Manager why the two flower stands on the Swords Road opposite Iveragh Road have been neglected again this year; how it came about that they weren't planted; if he agrees that it is completely unacceptable that they should be left in this condition (see photo) where they are essentially displays of weeds, especially as this is a main thoroughfare; if he will arrange for immediate planting of appropriate plants, and will he make a statement on the matter”

Reply

The planters in question on the Swords Road Whitehall were planted up with winter bedding in late 2022 by the North Central Area Office. The Environmental Liaison Officer contacted some local groups and spoke to the businesses on the opposite side of the road to see if they would agree to maintain them. Unfortunately we were unsuccessful in getting anyone to take them on so it has been arranged for them to be moved and relocated this September.

Q.85 Question in the name of Councillor Declan Flanagan

“To ask the Manager to respond to the following regarding roundabout **(details supplied)** and if he will make a statement on the matter”

Reply

The practice of painting kerbside infrastructure has been phased out over the years with the introduction and installation of electrical illuminated bollards and the option of erecting high resolution traffic chevrons where appropriate.

(The impact of the adherence to Health & Safety associated with construction regulations, when working near or on carriageways, deems it necessary to implement essential and comprehensive traffic management. This includes the submission of traffic management plans and method statements - as a condition - to qualify for the appropriate T2 license to carry out this type of maintenance. In addition - it is expensive)

The painting of kerbside infrastructure will be brought to the attention of the traffic area engineers and traffic officers at a scheduled meeting in the coming weeks.

DUBLIN CITY COUNCIL
NORTH CENTRAL AREA COMMITTEE
18th September 2023

Q.88 Question in the name of Councillor Declan Flanagan

“To ask the Manager to respond to the following regarding a laneway at **(details supplied)** and if he will make a statement on the matter.”

Reply

The local area offices deal with requests to close laneways. They will first check whether the laneway in question is a public right of way in charge of Dublin City Council.

If the laneway is not in charge the applicant will be advised that DCC only deal with laneways in charge and they should seek legal advice.

If the laneway is in charge, the public right of way needs to be extinguished under section 73 of the Roads Act 1993.

The extinguishment of a public right of way is a reserved function of the elected members of the City Council. The local area office manage the application and statutory consultation process.

An application for the Extinguishment of a Public Right of Way (EPROW) is made in writing to the local area office and must include:

- The reason for the requested closure
- A statement as to how the laneway will be closed
- A statement confirming that the proposers are aware that following the closure they take responsibility for the future maintenance and upkeep of the laneway
- A statement confirming that residents agree to undertake the costs of closure of the laneway, including the cost of installing a gate and diverting services, if necessary
- A petition signed by the majority or residents/owners of houses abutting the laneway, which should contain a statement on each page illustrating that signatories are aware of the above

On receipt of the above, the Area Office will prepare a report for the next Area Committee meeting requesting that procedures be initiated under Section 73 of the Roads Act 1993 to extinguish the public right of way over the laneway in question.

If agreed the Area office will begin the consultation process:

- A notice will be published in one or more national newspapers circulating in the area indicating where the public right of way proposed to be extinguished is located. This notice must also indicate where the map showing this public right of way may be inspected. A minimum period of one month must be allowed for inspection of the proposal with a further two weeks allowed for the making of objections or representations. The notice shall also state that persons making such objections or representations may make a request in writing to state their case at an oral hearing.
 - An online consultation will be set up on DCC’s consultation hub so that members of the public can view the map and information associated with the EPROW, and can submit objections/representations on the proposal

- A sign will be placed at each end of the public right of way to be extinguished for a period of at least 14 days, with the drawing illustrating the closure and details of the consultation process
- A service check will be carried out, notifying service providers of the proposed EPROW and requesting any objections or requirements
- If an oral hearing is requested in writing, the Local Area office will schedule and conduct same

On conclusion of the consultation process the Local Area Office will prepare a second Area Committee report for councillors, with a recommendation to extinguish / retain the right of way. This decision is a reserved function of the elected councillors.

If the decision is to retain the laneway, the area office will write to the proposer, the residents, service providers and those who made objections/submissions to notify them of the decision.

If the decision of the Area Committee meeting is to approve the proposed EPROW, a report will be issued to the next city council meeting for approval. If the decision of the City Council is to retain the laneway, the area office will write to the proposer, the residents, service providers and those who made objections/submissions to notify them of the decision.

If the decision of the City Council is to approve the proposed EPROW, a manager's order will be prepared by the Executive Manager to note the extinguishment. The area office will publish notice of the EPROW in the same newspaper that the proposal to extinguish the right of way was published and shall also notify in writing any person who made written objections or representations to it in relation to the extinguishment. The proposer and residents will be notified of the decision and informed of any requirements from service providers.

Q.96 Question in the name of Councillor Terence Flanagan

“To ask the Manager to respond to the following regarding Ramps (**details supplied**) and if he will make a statement on the matter.

Reply

The Grove has a straight length of 75m approx. (From the Village to junction of the Grove + The Ct) This does not meet the criteria for provision of speed ramps.

Dublin City Council will only consider a residential road for new speed ramps if the road in question is a straight run of 200m+.

If vehicles are observed by residents speeding this should be referred to the local Gardai as a matter for enforcement.

“To ask the Manager to respond to the following (**details supplied**) and if he will make a statement on the matter”

Reply

Dublin City Council (DCC) proposes three new LAPs to be prepared during the lifetime of the Dublin City Development Plan 2022 – 2028 (the Development Plan):

- Naas Road lands (City Edge).
- Dublin Industrial Estate, Glasnevin.
- North East Inner City (NEIC).

In addition to the above priority list of LAPs, it is proposed to prepare several other LAPs and/or Village Improvement Plans (VIPs) subject to resources (see Table 2-14 Schedule of Other LAPs/VIPs of the Development Plan). The preparation of these plans will be based on a prioritised selection procedure to be agreed upon during the implementation phase of the Development Plan. Such prioritisation will be based on:

- Areas that require economic, physical and social renewal.
- Development potential and ability to assist in the delivery of the Core Strategy.
- Need for regeneration within an area based on the Pobal Index of Deprivation.

Santry/Whitehall (including Omni KUV) is included in Table 2-14 Schedule of Other LAPs/VIPs of the Development Plan. The future planning of the Shanowen lands will be considered in the context of the Santry/Whitehall (including Omni KUV) LAP/VIP. The prioritised selection procedure has not commenced. In the interim, irrespective of whether an area benefits from a LAP/VIP or not the Development Plan contains a robust policy position to manage the development of public and private land.

“To ask the Manager to organise for the installation of double-yellow lines at the entrance to Dollymount Park/Dollymount Rise?”

Reply

The ongoing issue with vehicles parking on bends at junctions throughout Dublin North Central is a matter for the local Gardaí to enforce as under the Road Traffic Regulations. Or Dublin City Council’s parking enforcement contractor, Dublin Street Parking Services (DSPS) (info@dps.ie or Tel.01-602-2500).

The Area Engineer is not in a position to continually provide double yellow lines where drivers continually break the law by parking pavements/bends. Dublin City Council does not provide parking restrictions where restrictions are already covered under the law.

Under S.I. No. 182/1997 - Road Traffic (Traffic and Parking) Regulations, 1997, section 36 Prohibitions on Parking (2) a vehicle shall not be parked –
(c) within 5 metres of a road junction;
(k) in a manner in which it will interfere with the normal flow of traffic or which obstructs or endangers other traffic;

Q.109 Question in the name of Councillor Naoise O’Muirí

“To ask the Manager to confirm if Kincora Grove is on the 2023 works programme for footpath repair? If not can he organise for to be included for assessment for 2024.”

Reply

The Area Inspector will inspect this location and if any defects are present it may be considered in any future footpath works programme. At present there is a large backlog of repairs outstanding which are being working through.

Q.110 Question in the name of Councillor Naoise O’Muirí

“To ask the Manager In relation to the pedestrian laneway connecting Stiles Rd to the Howth Rd at **(details supplied)**

1. Organise for laneway lighting to be improved
2. Organise for any graffiti to be removed
3. Ensure it is put on a regular cleansing schedule

Reply

- 1 The lighting in this laneway was changed to LED in 2018 and is considered satisfactory. There are no plans for further improvements here.

Contact: Karen Leeson, Executive Engineer, Public Lighting Services.
Email: karen.leeson@dublincity.ie

- 2 The Public Domain Officer has arranged for this graffiti to be removed.

Contact: Tommy Collins, Public Domain Enforcement Officer
Email: tommy.collins@dublincity.ie

- 3 Waste Management Services will inspect the lane and arrange the necessary cleaning

Q.111 Question in the name of Councillor Naoise O’Muirí

“To ask the Manager for Parks to please organise for the tree canopies on Kincora Drive to be pruned/lifted”

Reply

An inspection will be arranged in the coming weeks as local schedules allow and any works deemed necessary will be listed for inclusion in the prioritised tree care programme for the area 2023/34. It should be noted however that the recent storm event has precipitated a considerable volume of requests from understandably concerned residents to inspect and assess publicly owned trees.
