

# LOCAL ECONOMIC & COMMUNITY PLAN SPC UPDATE 23.01.2024

ROSS CURLEY  
A/HEAD OF ECONOMIC DEVELOPMENT  
DUBLIN CITY COUNCIL

Comhairle Cathrach  
Bhaile Átha Cliath  
Dublin City Council

# UPDATES

- LECP Recap
- LECP Overview
- Stage two: Public Consultation Update
- Next Steps

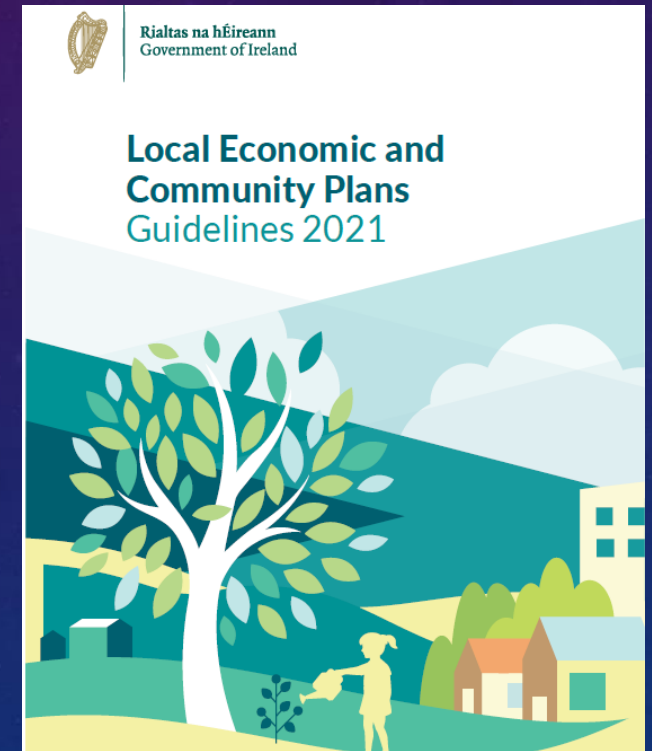

# PURPOSE OF THE LECP

- The Local Economic and Community Plan (LECP) will cover 2023-2028 and will guide the sustainable economic and community development of Dublin City.
- It will develop goals and objectives related to:
  - Economic elements such as actions to promote job creation, support existing businesses, and strengthen the local economy
  - Community elements including actions to support inclusion, promote active participation, and create collaborative and connected communities

# OVERVIEW OF THE LECP

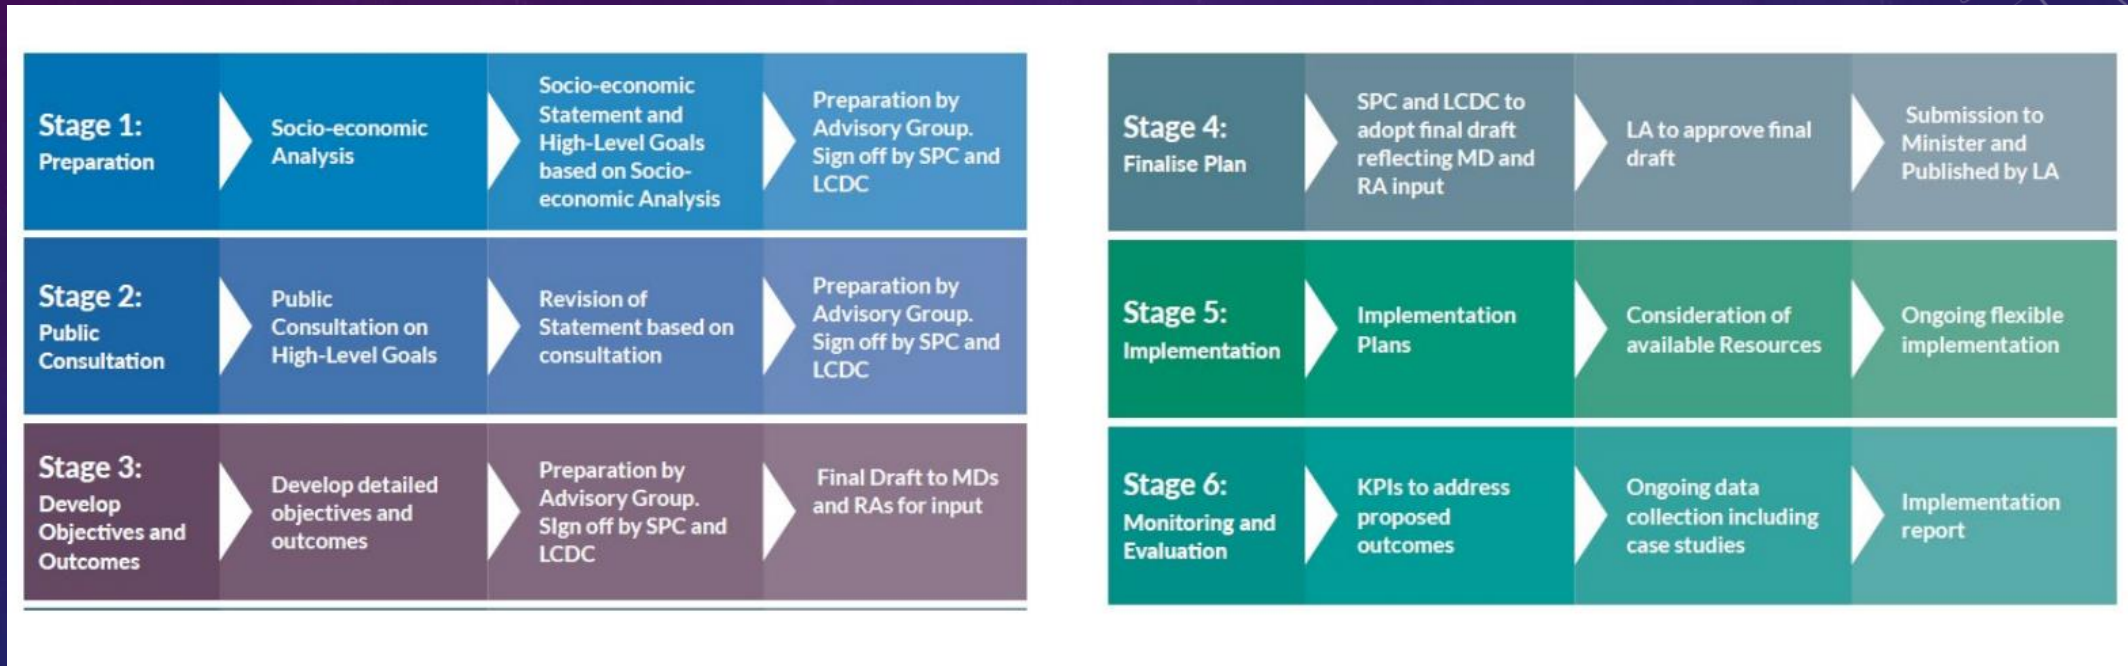

- LECP Framework – 6 year period (2023 – 2028)
  - Goals which provide the general direction of the plan
  - The objectives which look to address specific areas related to the goals.
  - The desired outcomes/impacts that interventions through the Plan will aim to achieve by 2028.
- Actions and KPIs – 2 year Implementation plan
  - The actions and KPIs are now part of a more flexible implementation plan.
  - The actions and their related KPIs work to support the achievement of the goals, objectives and the desired outcomes.

# LECP

# LECP DEVELOPMENT STAGES

# LECP MILESTONES 2024

# Draft High-Level Goals

01

## Climate & Biodiversity

Dublin will respond vigorously to the climate crisis by urgently reducing emissions, encouraging micro generation and renewable energy, improving greening, ecological restoration and biodiversity that builds climate resilience and reduces the city's negative environmental impact.

02

## Housing & Placemaking

Dublin's residents will be supported to access secure, affordable, sustainable, energy efficient, accessible, quality housing and places comprising a variety of types and forms for public and private tenures.

03

## Health & Wellbeing

Dublin will expand provision of social and civic infrastructure and services that contribute to residents' health and wellbeing, safety and overall quality of life and that enhances biodiversity and access to it.

04

## Community Development & Enhancement

Dublin's residential communities will become sustainable, thriving, dynamic, caring, inclusive and liveable neighbourhoods and places.

05

## Economic Development, Jobs & Skills

Dublin City economy will be innovative, sustainable and inclusive through the promotion of economic, enterprise, innovation and entrepreneurship ecosystem development.

# GOAL 1 - CLIMATE & BIODIVERSITY

*Dublin will respond vigorously to the climate crisis by urgently reducing emissions, encouraging micro generation and renewable energy, improving greening, ecological restoration and biodiversity that builds climate resilience and reduces the city's negative environmental impact.*

## GOAL 2 - HOUSING & PLACEMAKING

*Dublin's residents will be supported to access secure, affordable, sustainable, energy efficient, accessible, quality housing and places comprising a variety of types and forms for public and private tenures.*

## GOAL 3 - HEALTH & WELLBEING

*Dublin will expand provision of social and civic infrastructure and services that contribute to residents' health and wellbeing, safety and overall quality of life and that enhances biodiversity and access to it.*

## GOAL 4 - COMMUNITY DEVELOPMENT & ENHANCEMENT

*Dublin's residential communities will become sustainable, thriving, dynamic, caring, inclusive and liveable neighbourhoods and places.*

## GOAL 5 - ECONOMIC DEVELOPMENT, JOBS & SKILLS

- *Dublin City economy will be innovative, sustainable and inclusive through the promotion of economic, enterprise, innovation and entrepreneurship ecosystem development*

# NEXT STEPS

## NEXT STEPS:

- Joint meeting of the SPC Economic & Enterprise SPC Members and the LCDC Members on January 31st to review the updated goals and complete stage two
- Commence Stage three of the process: Develop Objectives and Outcomes

An aerial night view of Dublin, Ireland, featuring the Samuel Beckett Bridge over the River Liffey. The bridge's cables are illuminated with green light. The surrounding city is lit up with warm yellow and orange lights, and several modern buildings are highlighted with vibrant green neon lighting. The sky is dark with some clouds.

# Thank You
