VISION

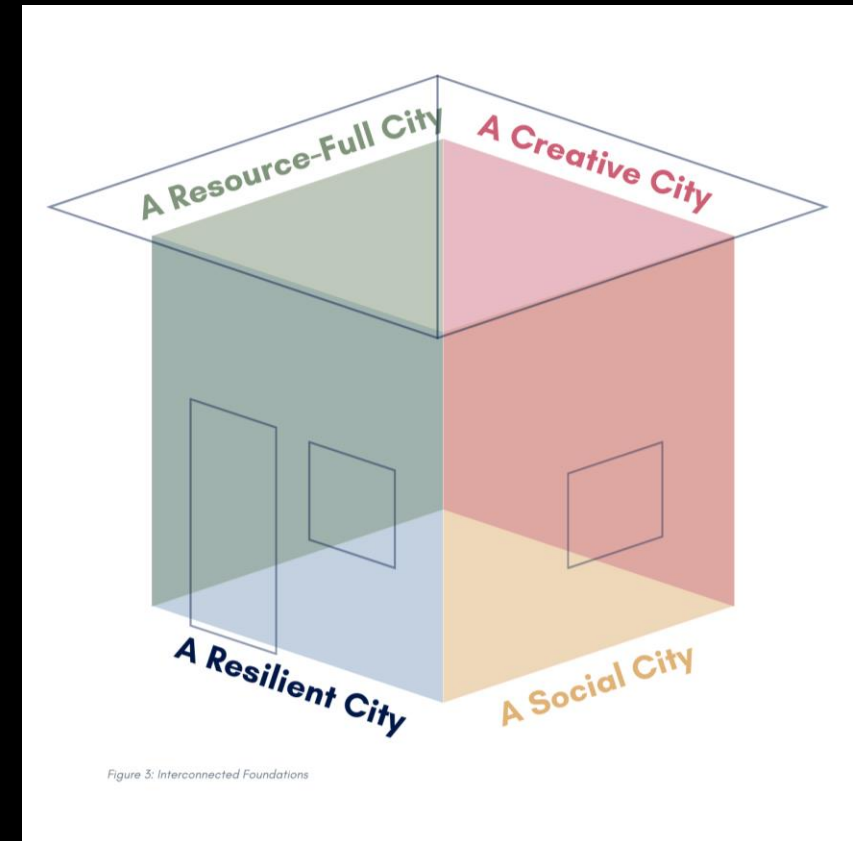

- A dynamic, sustainable city, that is future-ready, built on thriving, inclusive neighbourhoods and communities, a strong economy, a vibrant cultural life, and compact, connected growth.

Comhairle Cathrach
Bhaile Átha Cliath
Dublin City Council

TARGETS

- A 51% reduction in greenhouse gas emissions in line with our National Climate Objective by 2030, while striving for neutrality before 2050 as per Dublin City's participation in the EU Mission for 100 Climate Neutral and Smart Cities (Net Zero Cities).
- A Climate Resilient City prepared for the known and unknown impacts of climate change
- A Just Transition meaning that the actions we take do not cause harm.

CE Report: Modifications

Introduction	Addition of text to strengthen emphasis on health and well-being being at the core of the plan; and improved alignment with SDG 3 – Health for All, of All ages.
Foundations & Connecting Action	Revision of figure to better illustrate the interdependency of actions
Foundation 1: A Resilient City	Addition of text to acknowledge the need for housing that responds to future need of cooling in the context of heat wave risks; Addition of text to align with Disaster Risk Reduction and communication with citizens during an emergency
Foundation 3: A Creative City	Addition of text to action C1.1 Explore inclusion of community kitchen within libraries to support food strategy Addition of text to indicator “Increased use of libraries, particularly by under-represented age groups and ethnicities”
Foundation 4: A Social City	Change quiet zones to quiet areas to align with noise action plan terminology Addition of text to make explicit the link between behaviour change and health and well-being, associated with active travel Addition of text to S4 - Inclusion of Playful streets.

CE Report: Modifications

Operations and Service Delivery	Addition of text to explain interconnection with foundations
Implementation	Addition of text to explain challenge based approach to support innovation
Monitoring	Addition of text explaining indicators and their rationale
Appendix 6	Reference to CAP24 and EPA's Climate Change in the Irish Mind
Appendix 8	Addition of indicators: <ol style="list-style-type: none">1. Doing temperature comparisons across the city to better assess the urban heat island effect2. Measuring ground level Ozone3. Aero allergens4. Monitoring of disease vectors – mosquitos, flies, ticks, and invasive species.

NEXT STEPS – Pending Adoption

- Today Approve & Adopt by **RESOLUTION**
- Launch – March 6th
- Submission to the EU for Mission
- Implementation
