South East Area Committee**

Report on Proposed Tree Work, Eaton Square

Parks and Landscape Services intend to carry out pruning to the trees at Eaton Square, Terenure, Dublin 6 in the near future. The largest tree in the Square is an old ash tree which needs urgent work. Following an inspection by The City Tree Officer, it is recommended that this tree be severely pruned (crown removal) due to safety concerns. It is planned to carry out this work and other pruning work in the square over the next two weeks.
