

Poolbeg SDZ Attachment. Figure 1. Summary map of environmental sensitivities

#	KEY	ENVIRONMENTAL CONSTRAINTS AND SENSITIVITY	RESOLUTION
1		Low constraints	Wide opportunities – once contamination is resolved
2		Moderate intrinsic sensitivity	Design adaptively
3		High Intrinsic Sensitivity	Needs appropriate uses and modified designs
4		High Potential Sensitivity	Investigate thoroughly, design defensively
5		Extreme Sensitivity	Avoid any building or development

Figure 2 Summary of Environmental Considerations

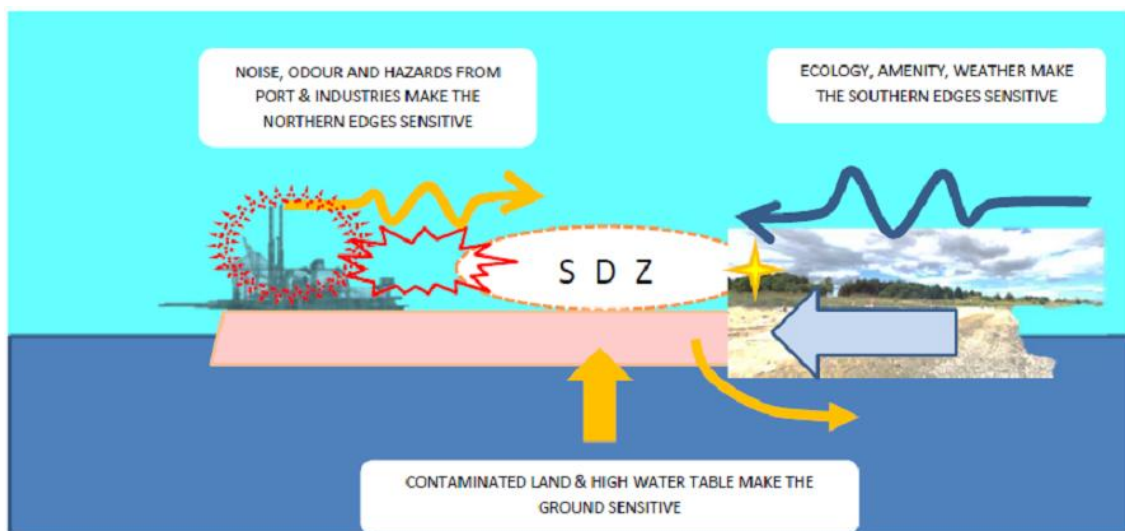

Figure 3 . Map illustrating the general location of factors likely to affect ecological systems on and adjoining the site

KEY EMISSIONS TO WATER  LIGHT POLLUTION  ROOSTING AREA 

Figure 4. Zones of heavy traffic (in red) and areas of recreational amenity.
