**To the Chairperson and members
of the South East Area Committee**

RE: Resurfacing of All Weather Bowls Facility, Herbert Park.

The tender for the above mentioned works has been assessed and a preferred bidder selected.

The synthetic carpet and underlay being proposed by the tenderer is in compliance with the specification communicated to the undersigned by the Herbert Park Bowling Club prior to tendering. Following a recent meeting with the bowling club they confirmed that the carpet and additional works to address underlying problems is acceptable to them.

It is anticipated that work will commence in October of this year with an estimated four-week build period.

**Michael Noonan,
Senior Executive Park Superintendent.**
