That Dublin City Council calls on the Government to immediately remove funding of €16.8m to the Greyhound Industry and calls for a complete ban on racing. 6,000 Dogs are killed inhumanly every year in Ireland as well as many more who suffer horrific abuse. This council notes moves by NAMA toward the selection of a preferred bidder for the development of the Irish Glass Bottle site. Dublin City Council recognises the need to reduce the level of vacancy in buildings across our city and bring such buildings back into productive use, particularly given the need for housing and community spaces. Much of such vacancy is evident in units above shops and other street level businesses. Dublin City Council acknowledges the Living City Initiative Unit and the One Stop Shop' Advisory Team from Planning, Architects, Fire prevention, Building Control, Conservation, Valuers & other relevant Department. Dublin City Council requests a broad evaluation of this initiative that would allow an understanding of the awareness of the LCIU and the One Stop Shop, the success of the One Stop Shop in supporting building owners bring vacant space into productive use and identify any impeditives such as legislation/regulations preventing vacant units being brought back to productive use.

The elected members of this city council call on national government to include in this year's Dublin City Council Capital Programme the necessary central exchequer funding to ensure that the Parnell Square Cultural Quarter, Dublin City Council's major flagship civic development, proceeds in its entirety as envisioned in the planning permission granted by An Bord Pleanála in May of this year, namely the entire 11,000m² development comprising a new city library, a range of cultural, education, musical and exhibition spaces and the enhancement of the public realm.
- 9) Councillor Cieran Perry** **Submitted: 25th September 2019**
That this council calls on management to ensure there are official play areas for children living in emergency accommodation. Obviously the ideal solution is to relocate those in such unsuitable accommodation to proper homes but the slow exit of families from emergency accommodation requires extra resources to be targeted at children in this predicament. The immense health and stress related issues affecting families living in such accommodation are exacerbated by a lack of designated play areas. Some hotels and hostels ban children from the public areas restricting them to their already cramped living areas. Children deserve better.
- 10) Councillor Racheal Batten** **Submitted: 22nd October 2019**
I move this motion and ask that this Council would commit by 2024 that all new social and affordable developments will accommodate those with mobility issues and they commit to the minimum of 7% of all developments be made available for those that have mobility needs so that adults with mobility needs can live independently. The Council will also require that any development that is going out to public tender will have a requirement for at least 7% of those units be suitable for those with mobility issues.

That Dublin City Council Management see the employment & enhancement of Community Development Staff working on the ground across the City of Dublin as essential tool in developing the full capacity of our communities, that staff numbers be increased to ensure we have sufficient staff to work with & motivate various voluntary groups on the ground. I look upon areas and see when we have good staff the multiplier effect this has on the ground, these efforts must be fostered going forward and sufficient resources made available for the community development staff.
- 14) Councillor Deirdre Heney** **Submitted: 13th December 2019**
That Dublin City Council would offer/make available a small/suitable type tree specimen to householders living in areas where roadside planting is unsuitable (due to narrowness

of road/footpath such as “The Clans” in Donnycarney) to plant on their own property which planting residents would contribute positively to the lack of greenery in such localities.

This local authority calls for a motion to support the right to Personal Assistance Service (PAS) for disabled people to have freedom, choice and control over all aspects of their lives to enable them to fully participate in an inclusive society as equals.

Independent living means an individual can live with the freedom and control to have the same choices in life that everyone else has in terms of housing, transportation, education and employment. PAS is a tool for Independent Living that allows disabled people to live independently, providing individuals with the freedom and flexibility they need to live their lives as they choose.

With PAS, disabled people are in control and direct the Personal Assistant (PA) to carry out tasks both inside and outside of the home, including personal care, domestic duties, assisting in day-to-day tasks such as shopping, support in the workplace or socialising. PAs should not be confused with 'Home Help' or Carers as they do not 'look after' or 'care for' a disabled person.

In Ireland there is no standardised procedure for administering personal PA hours. In 2017, 84% of those in receipt of PAS received less than three hours a day and 42% of these people were in receipt of between 1 and 5 hours a week, an average of 42 minutes a day, despite disability being a 24-hour issue. As far back as 1996, it was identified that an average need for 10 hours of PAS per person per week could only respond to essential personal care needs, not quality of life requirements and it would certainly not enable full active participation in the community.

30 years on and the Independent Living Movement in Ireland continues to strive for full independent living on behalf of disabled people; advocating for choice and control over their lives and full participation in society as equal citizens. A right to PAS for disabled people is fundamental to achieving that vision, however, currently there is no such right in Ireland.

Considering the unanimous motion passed in Dáil Eireann on the 19th November 2019, this Local Authority recognises:

- In March 2018 Ireland formally ratified the UN Convention on the Rights of People with Disabilities (UNCRPD), which under Article 19 states that disabled people have the right to live in the community and have access to a range of in-home and other supports including PAS to support this.
- Its obligation to consult closely with disabled people and their representative organisations in policy development as enshrined in Article 4.3 of the UNCRPD which states that "in the development and implementation of legislation and policies...States Parties shall closely consult with and actively involve persons with disabilities, including children with disabilities, through their representative organizations", specifically in relation to services provided by this local authority which impact on disabled people's lives, such as planning, housing, transport, social inclusion and enterprise.

- The Motion passed in Dáil Eireann on the 19th November and as such reaffirms that PAS that supports disabled people to live independent lives should be legislated for as a right.

26) Councillor Michael Watters

Submitted: 16th September 2020

That Dublin City Council agree to immediately revoke, what appears to be a blanket policy of removing public litter bins from locations, where cases of anti-social behaviour/misuse of bins exist, as the removal of such bins does little or nothing to stop the illegal dumping of waste, yet denies law abiding citizens the opportunity of having a public litter bin to properly dispose of their waste, which thus leads to more litter in our public domain and continued dumping.

27) Councillor Máire Devine

Submitted: 21st October 2020
