Dear Mayor, dear Councillor, dear colleague,

Our Network Cities for Nuclear Free Europe started in 2011, after the Fukushima nuclear disaster. Much older is NFLA, a UK based network of local authorities standing up against the national policy of nuclear weapons and nuclear energy.

The Nuclear Free Local Authorities commemorates the 40th anniversary of its formation in November 1980. In 1980 Councils from across the UK (and later) the Republic of Ireland passed resolutions of concern over the potential for a nuclear weapon attack and to oppose developing civil defence plans for them.

With the Chernobyl and Fukushima disasters it has also raised many concerns over the safety and need for nuclear power. And now NFLA also advocates the positive role of decentralised energy.

CNFE has experienced NFLA as a reliable and knowledgeable partner in our combat for a nuclear free Europe. We congratulate Nuclear Free Local Authorities with their 40th anniversary and hope for a continuous good collaboration.

On 6th November NFLA organizes an online seminar, which we strongly recommend. The seminar will take place on Friday 6th November from 12:30 (11:30 UK-time) until 14:00.

To register for this webinar, which will be held on Microsoft Teams, email NFLA Secretary Sean Morris – s.morris4@manchester.gov.uk –

A flyer with the program and instructions how you can participate is attached. Also CNFE-officer David Reinberger will make a contribution to the seminar.

Do not hesitate to contact us if you have any question or remark,

Kind regards
