

**To the Chairperson and Members
Of the Central Area Committee**

9th February 2021

Cabra/Glasnevin Area Report

Grangegorman Filtered Permeability Scheme:

The Cabra/Glasnevin Area Office has convened a meeting of Dublin City Council internal stakeholders with regard to works that are needed in local neighbourhoods following the Grangegorman Filtered Permeability Scheme being made permanent. The primary aim of this internal group is to identify a programme of works that will address local neighbourhood traffic issues related to the Grangegorman Filtered Permeability Scheme. The initial focus will be on already identified issues in the immediate area surrounding the scheme and the Monck Place/Avondale Rd areas. It is hoped that a detailed programme of works will be brought to the April Central Area Committee meeting.

Discretionary Budget:

The Area Office is currently finalising the 2021 discretionary budget. Under current level 5 restrictions it will not be possible to progress any discretionary projects as the only works allowed are emergency and essential. It is hoped that with the easing of restrictions that the discretionary works programme can progress at pace.
