The Explorer Ship

The Explorer ship is a magnet for children with its immensely varied play offering, above and below deck. The boarding options are endless, with planks that can be climbed vertically, nets and climbing cleats. The oil trans cross-coordination and traction. The many manipulative activities: binoculars, cannons, the wheel stimulate tactility and fine motor skills and inspire hours of dramatic play. In addition to dramatic play, children develop their physical skills. Once up on deck, the children can take more ways across or down. It's just to have a platform and adds a huge children's sense of space. The ship elastic as a beautiful and interactive piece of outdoor furniture as well as a true and functional play unit which will not look out of place in the park.
