Q.1 Councillor James Geoghegan

To ask the South East Area Manager if the lane way where residents park (between numbers 57 and 59) would be properly paved (concrete or tarmacadam) on Wilfield Road, Sandymount, Dublin 4.

Q.2 Councillor Claire Byrne

To ask the Area Manager can he please clarify whether the Bride Street / Werburg Street cycle lane is actually a Contraflow Cycle lane and can he clarify exactly where it ends? The junction as you approach Dame Street is really dangerous as it not clear to cars that this is a contra flow. Is it possible to simply extend the contra-flow lane around the corner so it is clear to drivers turning right from Dame Street on to Bride Street that cyclists are moving in the opposite direct? Can this cycle lane also be extended to Fishamble Street to connect with the Liffey Cycle Route? See below for assistance.

Q.3 Councillor Claire Byrne

To ask the Area Manager when will segregated cycle lanes be installed on the northbound side of Clanbrassil Street and New Street and Patrick Street.

Q.10 Councillor Tara Deacy

Could the Virgin media utility box at 412 Captains Road be removed, it has been broken for over 6 years now and despite many requests has not been repaired or removed?

Q.11 Councillor Tara Deacy

I submitted this question in 2021 and would like this re-examined.

That broken railings on the green space on Cashel Road are replaced as people are using it as a way to illegally dump food on the green space and the hedge around the green on Cashel Road is cut back now that the nesting season is completed. Reply: Parks had plans to remove both the railing and the hedge some years ago but were met with resistance from some local residents which prevented the work commencing. We will re-examine the situation over the coming period and report directly to the councillor. Contact: Brid Brosnan, Executive Parks Superintendent, email: parks@dublincity.ie

Q.12 Councillor Tara Deacy

I have raised the issue of illegal parking at the junction of Aughavanagh and Clogher Road four times over the last 2 years, the issue has not been resolved and I ask once again that planters be installed ASAP. See previous correspondence below:

Can I get some feedback in terms of this question I raised last month? In terms of fines, how many have been handed out. Residents have been in touch again about this junction.

Q.30Councillor Tara Deacy I raised the issue of illegal parking at the junction of Aughavanagh and Clogher Roads many times. It was highlighted at the time that this would be monitored and if it were to persist further action would be taken. Locals have sent me photos on number of occasions and the issue has indeed persisted and in fact gotten worse. Can we now look at the installation of planters as was discussed as soon as possible so we can avoid a serious accident in the near future? - This is still a problem. Can we look at addressing this again? Reply: The Dublin Street Parking Services have been enforcing against illegal parking on the footpath at the junction of Aughavanagh and Clogher Roads and this enforcement will continue as the issue is ongoing. Contact: Hugh Fahey, Administrative Officer, Parking Policy and Enforcement, tel.: 222 3847, email: hugh.fahey@dublincity.ie

To ask the Manager to repaint and repair the lamp posts on the following streets the majority of which are rusted on Clogher Road, Clonmacnoise Road, Crumlin Park, Downpatrick Road, Fernvale Drive, Leighlin Road and Monasterboice Road.

Q.16 Councillor Tara Deacy

Question 7 - where are we in terms of this request made in September 2021?

Could the manager look at the parking scenario at the shops at 116, 118, 120 Sundrive Road? Vehicles are dangerously double-parking here. Vehicles and cyclists exiting from Ferns Road (looking towards Sundrive Park) cannot see other vehicles turning left at speed from Sundrive Park. Can something physical be done with this space to prevent double-parking like the reduction of the length of the car parking spots, introduction of markings on street?

The Area Engineer will look into the issues raised by Cllr. Deacy, once an assessment has been carried out the Area Engineer will notify Cllr. Deacy. This request (Enquiry Ref: 7022473) will be referred to the Area Engineer for assessment and report to the Transport Advisory Group for their consideration. The Councillor will then be informed of the final recommendations of the Transport Advisory Group.

Q.27 Councillor Daniel Céitinn

To ask the Manager when Sean Moore Road will be resurfaced and remarked?

Q.28 Councillor Pat Dunne

Can the Area Manager arrange to have our Road Maintenance Section reinstate the path with concrete at (details supplied)? The path at this location has been damaged over the years by roots from an adjacent tree and other utility works. A large section has been covered by tarmacadam and this should be concreted. Residents also report damage to their garden walls - can these be inspected and repaired where necessary?

Q.29 Councillor Pat Dunne

Can the area manager arrange for the inspection and reinstatement of the front garden wall at (details supplied)? The erosion of this wall has been caused by constant flooding emanating from a gully at this busy corner site. It constantly gets blocked following heavy rain and flooded again during the recent storm Barra.

The residents have lodged a complaint and our insurers have denied the claim based upon the Statute of Limitations. Claiming that the issues go back pre-2014. The residents report that they lodged a complaint in the Crumlin area Office as far back as 2015.

It's unfair to these residents that an issue caused by constant flooding at this location is not being rectified by DCC and I now ask for this issue to be looked at again with a view to resolving the problem and reinstating the garden wall.

Q.30 Councillor Pat Dunne

Can the Area Manager ask our Traffic Section to install a filter turn signal on the traffic lights at the junction of Windmill Road and St. Agnes Road in Crumlin Village?

At present traffic moving from the church direction of the village wishing to turn right down Windmill Road, block traffic behind them from travelling onwards through the village. This is caused by the build out of the footpath at this location. This request was made previously when the lights were first installed, and our Traffic Section said they would monitor the issue, but the problem persists.

Q.31 Councillor Pat Dunne

Q.33 Councillor Pat Dunne

Can the Area Manager arrange to have the following issue resolved? There is a road repair needed just outside 336 & 338 Captain's Road. There is a pothole where people get caught with bikes, scooters and buggy wheels. Not sure but certainly not safe in terms of barrier free movement. When water is covering it... it's outright dangerous. This is a repeat of Q.54 09/11/2020.

Q.34 Councillor Pat Dunne

Can the manager look at a solution to the parking issue outside 21 - 33 Armagh Road that has been directly created due to the new school safe zone? Parents / cars are now blocking our houses and visibility is difficult leaving the house and making it dangerous. One resident who is a wheelchair user, has found this parking extremely problematic. While the schools are closed could you look at installing a small fence and some plants? This is a repeat of Q.70 12/07/2021.

Q.35 Councillor Pat Dunne

Can new trees be planted on the two greens on Windmill Road? Neighbours have seen they've been added to a number of other small greens and they are surviving and look great. Q.36 Councillor Pat Dunne

Regarding the 83 bus terminus at Stannaway Avenue - Could DCC contact Dublin Bus to ask for the terminus bus shelter to be reinstated?
