**To Each Member of the
Climate Action, Environment and Energy Strategic Policy Committee**

In November 2019, the Climate Action, Environment & Energy SPC agreed the draft Posters Protocol. The issue of public liability insurance was raised subsequently.

The Law Department has since advised that all references to insurance requirements should be removed from the Posters Protocol.

The question of whether posters advertising public meeting/events should contain the name and address of the person promoting the meeting/event was also raised. I can now confirm that the name and address of the person promoting a public meeting/event should be contained in all posters advertising a public meeting/ event.

The latest draft Posters Protocol to replace the existing Protocol of January 2020 is now submitted for approval.

Date changed to: January 2022.
