

Local Area Community Grants Scheme 2022

On an annual basis, Dublin City Council provides support through once-off local and city-wide grants to a range of resident, community, environmental and festival groups throughout the city with a particular emphasis on community development, social inclusion and integration. Within the context of the impact of COVID19 this function was disrupted for the years 2020 and 2021.

In order to provide a more user-friendly and efficient process an online portal for the local area grants scheme has been developed to allow for an online application process. This will open on June 22nd 2022 and close on 22nd July 2022.

The opening date for applications will be promoted by a communication programme across DCC web and social media (including DCC Libraries etc). Further details on application details and information will be issued to all elected members in advance of the online system going live.
