Background to the Project

- DCC, through its Sports and Recreation services, including the Sports and Wellbeing partnership, provide opportunities for everyone across all communities to partake in sport and physical activity regardless of age, ability, or background through dedicated programmes, services, and facilities
- DCC currently manages 31 Sports Centers and outdoor spaces, employing over 300 people and with an annual revenue spend of 20 million and 20 million capital investment over three years, providing an extensive range of organised and informal sports and physical activity opportunities
- The new Sports Plan will act as a guide to help increase participation and access for all, including those in areas of economic disadvantage, to harness the power of sport and physical activity to enhance the lives of the city's citizens.
- Services provided are interdependent between sports and recreation and different departments including community, housing, environment and transport, among others. This plan will also serve to enhance those partnerships.

Project overview

Our approach is based on:

- Setting up the programme for success with the right structures and processes initially;
- Conducting detailed review and analysis of the existing and future Infrastructure and Policy landscape taking into account future trends in demographics, policy, funding etc.;
- Development of a comprehensive 5 Year Sports Plan with long-term focus beyond 2028;
- Building a clear implementation roadmap including Interim Reviews in Year 2 & 4 of the new plan;
